THE FIGHT FOR POZIERES LAST-
 ED ELEVEN DAYS.

PARIS, July 27. The capture of Pozieres in the Somme region, the British in complete possession of this line in the Somme region. The fight for Pozieres lasted eleven days from July 14th to 25th. The place was defended by 300 machine guns, of which all but 20 were destroyed or put out of action by the British artillery. A species of fort in the centre of the village was defended by a company of Bavarian infantry. These troops resisted for twelve hours. At the end of that time only four men were found alive in the dugout. Close by, a heap of 60 bodies remained unburied. The last defenders of the village were men of a Bavarian battalion, who were decimated as they crossed 300 yards between the village and cemetery, where they made the last unsuccessful stand.

ITALIAN AIR CRAFT BOMB DUR-
 AZZO.

NEW YORK, July 27. A cable from the Rome Journal, says that an official announcement was made to-day that Italian air craft yesterday bombed Durazzo, in Albania, across the Adriatic. The planes dropped bombs on the Austrian aero-hangers and landing stages, then returning safely to their base.

IN EAST AFRICA.

LONDON, July 27. An official statement of the progress in the British campaign in East Africa, was given out to-night. Brigadier General Northey reports on July 24th that he drove the main German southern detachment of the enemy from strongly organized positions astride the new Langenburg-Isani road to Mahlangali. After counter-attacks, the enemy retired hurriedly in the direction of Isani, abandoning 41 machine guns and two machine guns. Among the number of German Europeans captured previously was Dr. Stir, late Governor of the New Langenburg district. Dr. Stir has since died of wounds. The majority of the surviving members of the crew of the German cruiser Koenigsberg form part of the German forces.

RUSSIA'S ARMY.

NEW YORK, July 27. A despatch from Switzerland to the Journal, says that carefully sifted information to-day shows that the Germans have on the eastern front about 900,000 men and the Austrians about 800,000 men, of whom they said the latter has already lost some 500,000. The total Russian forces under the orders of General Brusiloff, and General Kuropatkin, equals 137 divisions of infantry, and 38 divisions

of cavalry, or 2,740,000 bayonets, and 162,000 sabres, or a total of 2,902,000 men. General Brussiloff's army alone equals 1,750,000 men.

TURKS MUTINY.

NEW YORK, July 27. The Journal has the following from Athens: Reports received here to-day from Smyrna state that a Turkish regiment mutinied at Sevelkeny, and took refuge in the forest of Mt. Simolon. Turkish forces pursued the mutineers and set fire to the forest. Many mutineers were burned to death.

RUSSIANS' GREAT ADVANCE.

PETROGRAD, July 27. Russian troops covered a hundred miles of their advance on Erzingan within a week. The capture of the city means virtual completion of the Russian occupation of Turkish Armenia, gives Russia the benefit of an extremely fertile valley, and opens an easy road of communication from Trebizond for the western and southern Caucasian armies. The Russians have now captured Trebizond, Balaburt, Gumish, Kaneh, and re-occupied Mamakhatun.

DENIES TURKISH REPORT.

LONDON, July 27. A British official statement was issued to-day denying the Turkish official report of July 26th that British cavalry forces in the vicinity of the Suez Canal had been dispersed. The statement follows: The Commander-in-Chief in Egypt reports, it is stated by German wireless that our cavalry has been driven back at Romani and Katia. Our cavalry is in occupation of Katia and nowhere has been driven back. Complete superiority over the enemy has been established by it, both in pursuing, in reconnaissance and in covering in his covering parties at will. The enemy had not even ventured to press any reconnaissance in our direction. Turkish forces at Oghratina did not advance from that place and no Turk has been near Romani.

NO REPORT OF NAVAL ACTION.

LONDON, July 27. (Official.) The British Admiralty states to-day that they had no report of a new naval action in Scandinavian waters, and had received nothing in any way confirming the unofficial reports of naval activity in that region.

AMERICAN STEAMER TOTAL
 WRECK.

LONDON, July 27. The American steamer Caroly, which went ashore on Kolia Peninsula on June 15th, while taking a cargo of automobile trucks and general merchandise from New York to Archangel in Russia, is a hopeless wreck. The cargo is being salvaged.

REPORT DENIED.

WASHINGTON, July 27. Sir Cecil Spring-Rice, British Ambassador, informed Acting Secretary of State Polk, to-day, that he had received a message from the commanding officer of the British squadron on the Atlantic coast, denying that a British warship had entered Chesapeake Bay, as reported by the commander of the battleship Louisiana.

DANISH STEAMER SEIZED.

LONDON, July 27. The Danish steamer Normandiet has been seized by a German torpedo boat, says a Copenhagen despatch to Lloyd's. The vessel was bound from Skelleftea, Sweden, for La Pallice, France, with a cargo of wood pulp.

UNKNOWN CRAFT PASS SANDY
 HOOK.

SANDY HOOK, July 27. A craft, which appeared to be a submarine, which observers believed might be the German underwater merchantman Bramon, passed Sandy Hook at 9:03 o'clock to-night.

ATTACH MUNITIONS.

DAYTON, Ohio, July 27. Thousands of dollars worth of ammunition, in process of manufacture for European nations, in the Miami valley factories, are tied up to-day by attachment proceedings instituted in the local county courts by the Brownell Company and Blast Iron Works Company, both of this city, against the Canadian Car Foundry Co. and its New York Agency. The sum of \$722,974 is claimed by the plaintiffs on the ground of breach of contract.

WILSON LINE STEAMER CAP-
 TURED.

LONDON, July 27. The Wilson Line steamer Eskimo, 3,326 tons, has been captured by a German auxiliary cruiser, according to Reuters's Christiansand correspondent. The seizure, says the correspondent, occurred in Norwegian territorial waters, according to the crew of a Norwegian ship, while the Germans claim the vessel was five miles from the land.

STILL QUARRELLING.

LONDON, July 27. Laurence Ginnell, the Nationalist, whose opposition to the Government

has grown more and more aggressive since the Irish insurrection, last Easter, and whose questions to Cabinet Ministers make the most serious charges against the Government, caused a short suspension of the sitting of the Commons to-day, owing to his refusal to withdraw when ordered to do so by the Speaker of the House. Ginnell refused to budge when approached by the Sergeant at Arms, who was ordered to remove him. Not until the Sergeant at Arms summoned assistance, and his brother Nationalists advised him to do so, did he obey the command of the Speaker. The Nationalist member asked Herbert Samuel, Secretary for Home Affairs, whether the military authorities at the time of the insurrection in Dublin, had the sanction of the Government for bombing the headquarters of the Cumannmhuinn na hEireann, cutting the red crosses off their dresses, and imprisoning them as criminals. The Home Secretary denied all the allegations, whereupon Ginnell said, that "owing to the insolent reply of the Minister," he got no further, as there were loud cheers of order. He withdrew the word insolent, but insisted upon the question, whereupon the Speaker named him to the House. In accordance with practice, Premier Asquith moved that Ginnell be suspended. Ginnell alone voted against the motion.

THE IRISH NEGOTIATIONS.

LONDON, July 27. In accordance with Premier Asquith's promise, the official paper giving the heads of the agreement, arrived at recently between Lloyd George and the Irish leaders in the Irish negotiations, was issued to-night. It bears out the contention made in the debate in the Commons, by John Redmond, with regard to the retention of Irish members in the Imperial Parliament, inasmuch as clause four merely says: Irish representation in the Imperial Parliament shall remain unaltered, namely, 103; and says nothing concerning any substantial reduction in their number. With regard to the duration of the new bill, the official paper confirms Premier Asquith's statement of July 10, namely, that if Parliament had not by two months after the war, made further permanent provision for the Government of Ireland, then the duration of the operation of the bill shall be extended by Order in Council for such time as may be necessary to make such provision. The clause referring to the exclusion of the Ulster counties merely defines the excluded counties, but says nothing as to whether their exclusion is to be permanent. An interest clause in the agreement, not previously mentioned, gives the Lord Lieutenant of Ireland power to summon conferences, between members of the constituencies in the excluded area and members for the rest of Ireland, at any time during the operation of the bill. The only new feature in the Irish agreement to-day is the provision for a largely signed up by the Commons asking for the renewal of negotiations for an Irish compromise on the lines suggested by John Redmond and Sir Edward Carson.

GOODYEAR TIRES.

In stock the following sizes: 28 x 3 29 x 3 30 x 3 31 x 4 35 x 4 33 x 4 700 x 80 650 x 65. GENERAL MOTOR SUPPLY CO., LTD., Geo. M. Barr.—July 27.

Survived Big Battle.

By yesterday's mail field cards were received by relatives and friends of the following East End boys who took part in the big drive: Jack Mookler, Ewen Hennebury, Alec. Hennebury, Francis Cahill, Mike Smith, and Fred Jacobs. Each of them survived the big battle without a scratch.

A. H. Murray wrote that fishermen while vending their catches moved close to his premises and left the drains in a filthy condition. The police will attend to the matter.

The Engineer will report on the installing of a fire extinguisher by the Horwood Lumber Co., and will also attend to the condition of the foot on Prescott Street as requested by the Gas Co.

Thos. Grant wrote stating his world hold the Council responsible for the filling in of the passage way leading to his house, Water Street West. The meeting closed, with the passing of the pay roll.

Every Wage Earner Should Answer Question For Himself.

WHAT DOES THE FUTURE HOLD FOR YOU IF HEALTH GIVES WAY?

In dollars and cents, what is the worth of the brawn of your arm; what is the value of the staying power that permits continuous labor—what are they worth to you?

Suppose you did something so foolish as to reduce your strength, vitality or judgment one half, and it were impossible to get them back—how much would you pay to regain the lost portion?

When you let yourself run down you reduce your chances for success in life—if sloppiness comes your score lower still—should appetite or digestion fail, you are starved in the face by physical bankruptcy.

Don't let it go so far, take Ferrozone. It has cured thousands and it will cure you; it builds up bodily strength, makes muscles like steel, replaces Spring tiredness by energy and new life. Ferrozone rebuilds sick folks because it contains the strengthening elements that every run-down system requires.

Especially before the hot weather comes, everyone needs a purifying tonic—Ferrozone fills the bill exactly—nothing known that juvenates and uplifts so fast.

At once the appetite improves. You rest well and arise next morning feeling fit and fine.

Headaches disappear, weakness gives way to the vigor that only Ferrozone can supply. Try it, results are guaranteed, 50c. per box or six for \$2.50 at all dealers or by mail to any address if price is remitted to the Caisarhzone Co., Kingston, Ontario.

At the City Hall.

Mayor Gosling presided at the regular weekly meeting of the Municipal Council last night.

It was decided that Patrick Street be continued from Water Street to the head of Springdale Street, and that the junction of Pleasant Street and Cornwall Avenue.

At the request of Councilor Mulhally heads of all departments will meet at 9:30 a.m. at the City Hall.

Councillors Tait and Browning motion to-day that the condition of the hoppers. The matter will be attended to.

Councillor Vicolombe again drew attention to the condition of Plymouth Road and the overflow of drains on King's Bridge Road. He was decided to write certain residents of the last mentioned street, when they would probably install a suitable system of pipe drains.

At the request of Steer Bros. the Engineer will report on the condition of Walgrave Street for a coat of oil liquid.

On complaint of J. Skinner, Engineer will report on condition of the steps on Beck's Cove Hill.

J. Barter, President Truckmen's Union, wrote of the bad condition of LeMarchant Road and Coronation St. It will be attended to.

A Lawlor asked permission to make repairs to house at foot of Carter's Hill. The Engineer will report.

The Engineer will report on the filling in of the passage way leading to his house, Water Street West.
