THE CONTEST IN NO. 3.

Mr. Brady and the Furnace Question—Evidence From Detroit.

"One Who Was There" writes: At the meeting held in Hamilton, read and selected on Wednesday night Mr. Brady, candidate for school trustee, strongly favored the Smead-Doyle system in preference to products of city factories. Indeed, he seemed to think that the School Board had a perfect right to boycott local industries, and favor the button-holding agents of the foreign company. To show the election how very inefficient the furnaces imported by Mr. Brady are, notwithstanding they cost three times as much as London furnaces, guaranteed by our manufacturers, let me send you the following report copied from the Detroit Journal of the 13th December. Mr. Stevely, I understand would have thoroughly exposed the deal, and have given these and other facts, in opportunity had been afforded him at the meeting:

"The Board of Health isn't making any white-washing reports relative to the sanitary conditions of the school buildings. O. S. J. T. Goldthorpe, Saltford's enterprising merchant, paid out about \$20,000 this fall for apples. Miss A.
