Be sure to into the storerooms, which are situated at the rear of Slater's shoe store, 171 Dundas street, where Messrs, Fred Cross and Frank Smith, the accommodating agents for the "New Scale," will be pleased to show these instruments and explain their numerous merits. For numerous, indeed, they are, so numerous as to outweigh those of all erful action, and beautiful quality, the 'New Scale" cannot be surpassed

Famous artists the world over use and are delighted with it. of households regard it as the most valuable adjunct to home life; teachers recommend it to their pupils, and students regard it with affection, for even the drudgery of practicing becomes a delight with the "New Scale," so full of melody is every note. Its sonorous, ringing tone can be

heard all over the Palace, and is distinguished from a hundred others. Moreover, quite apart from its beautiful tonal qualities, it has such an artistic case that ladies want it as an ornament for their drawing-rooms.

Be sure to see and hear the "New Scale" Williams before you make your purchase or you will regret a lost op-Reported by F. H. Butler, stock broker, for The Advertiser.

portunity.

The C. P. R.'s Good Work. Every patriotic Canadian is interested in the magnificent display of the Canadian Pacific Railroad Company. All day crowds of eager tarmers have besieged Mr. Crisp, who is in charge of the exhibit, for information, which he is willing and glad to give. It is impossible to estimate the value of the work the C. P. R. is doing for Canada. It has opened the Canadian Northwest to the world and the world is flocking to Canada. Every year the number of immigrants from Great Britain and the United States increases, and every year the great Northwest is becoming more densely populated.

But there is still lots of room for er terprising Canadian youths. Forcunes are to be made in the West. Why stay in the crowded towns when you can have your own homestead in that rich country? It is in the west that the future of Canada lies; it is the future granary of the British Empire; the greatest grain-producing country in the world. The immense natural resources of the country afford opportrnities denied elsewhere, and in such an invigorating climate, with such inrumerable opportunities, the indus-

trious are sure of success Every young man star ing in life should see the great Nor hwest, and there is only one way to go, the best, cheapest and quickest, the great highway to the Pacific coast, the Canadian Pacific Railway. See Mr. Crisp at the Fair and have him tell you all about it. You will never regret it.

Ideal Electric Signs.

On entering the Main Building the at tention of visitors is attracted by the Flashing Electric Signs, in connection with the Mason & Risch exhibit. By means of a device called a "Flasher," the ordinary electric sign is rendered doubly attractive, by having the color of the sign continually changing or by having the lamps "flash" one after another in quick succession. By means of the "Flasher" almost any effect desired may be had. These signs and Now Permanently Organized-Gift Manufacturing Company, 2371/2 King

The Sharples Separator.

Cream separators are an absolute necessity for up-to-date farmers. They mply cannot do without them. best separator on the market is undoubtedly that shown by the Sharples Separator Company, of Toronto. Their exhibit is situated near the entrance to the Dairy Building. The main feature about the Sharples separators is members last summer that they requested the latter to attend all future with absolute certainty in separation with absolute certainty in separation of the cream from the milk. The trouble with most separators is that they are so hard to work. An immense amount of labor is required for separating the milk. The Sharples Company have overcome this difficulty and even a child can handle their separator. Do

by insects is enormous. All reports from experimental stations prove this. That is the reason that all experimental stations are equipped with Wallace power sprayers. Every experimental power sprayers. Every experimental of canned goods, tongue, jellied hocks, station in the United States has one of turkey, chicken, corned beef, pate de these machines, which are giving the greatest satisfaction. Professor Macoun and his foreman at the Canadian They have taken the gold medal at Experimental Farm report the same thing. The saving of fruit is immense, in the Niagara district, where fruit indeed is king, the Wallace machines are never kill an animal over three years used almost exclusively. At Winona, old, thus obtaining only the finest and one carload of these machines were sold this spring. The sprayers are easy to handle, and will spray the largest orchard without difficulty. They spray with the wind, and the mast apliance by which the streams are diected is finely adjusted, and answers readily to the operator. The Wallace sprayers are invaluable for garpower dens. They work well. Moreover, the machines are not too heavy for handling. The smallest farm team can haul the largest machine with little trouble. The firm is also showing a complete system of waterworks for a farm. This in itself is worth looking M. W. H. Brand explains the

Hall. Uneeda Cream Separator.

The biggest sales on the ground are of special interest to architects and reported from the Uneeda Cream Sepbuilders, for by it the expense of a arator Company, in the Dairy Build-storm sash is saved; drafts, dust and ing. This enterprising Canadian firm smoke are excluded, the sash becomes is competing against foreign trade, and at their warerooms, 217 Dundas street absolutely noiseless and 20 per cent of the cost of fuel is saved. This invention is rapidly gaining a foothold in men, for Canadian farmers. They send public confidence. Send in your orders no machines outside the Dominion and before the cold weather comes on to rely solely on their Canadian trade. the Peace Metal Weather Strip Com- Farmers, support home industries Don't pay duty for something "just as good," but buy the perfect machine, the only Canadian one of its kind, the

Uneeda Cream Separator. Philip Carey's Cement Roofing. On the right-hand side of Machinery Hall may be found the interesting display of the Philip Carey Manufacturing Company. Their magnesia flexible cedate machines for that purpose. That ment roofing is carefully made by

Hamilton Incubator. They are manu- ed, well-tempered materials. This care factured in three sizes to suit every has resulted in a perfect roofing, which will not crack, break or decay. It is far better than tin, iron, steel, cess. The hay fork is giving way to expand or contract, because it is flexthis invention. The farmer finds it a lible; does not rattle; requires less great help to him in stowing away his painting, is fire-proof, cannot rot or cold and costs less than any other maation of its quality and advantages. Carey

Red Feather Tea.

The pretty, dainty booth of the Red Feather Tea Company is the center of attraction for all the women on the grounds. Everyone wants a drink of Red Feather Tea and everyone is designed. The control of this mixture for mechanical purposes. Red Feather Tea and everyone is delighted with it. There are a great many reasons why it is the best tea for you to drink. It is put up in an moisture-proof package, air-tight, wrapped in sterilized parchment paper, none of that injurious, poisonous, lead wrapping.

Again, the tea is imported from the cleanest and choicest gardens in Ceylon, the best tea-growing country in the world, and it is made by the machine method, so much cleaner than the old hand process. Red Feather Tea has only one qualty, and that the best, in three styles, black, mixed and green. It has the most delicate flavor, and yet all the strength that a cup of tea can give you. Should be on every breakfast table. Try it at the Fair. For sale by you. Edward Adams & Co., wholesale deal-

ers, and by every grocer. Paris Plows.

Crowds of farmers yesterday sur-rounded the exhibit of the Paris Plow Company in Machinery Hall. This well known firm has a most interesting dis play of plows, blowers, grinders, ensilage cutters, scufflers and harrows etc., in addition to their famous manure spreaders, the Success. the market. Indeed, all the machines of the Paris Plow Company are remarkable for their skillful workman- shorter

Raymond Sewing Machine. The oldest sewing machine manufactory in the Dominion is the Raymond. This well-established firm have a very fine exhibit of their machine upstairs in the Main Building. They have some beautiful machines in cabinet, drophead and new family styles, besides their improved rotary machine. The Raymond does the finest embroidery and fancy stitching. You are cordially Raymond's work both at the Fair and fully as much scientific playing. It is, at the city warerooms.

Leslie's Wild Animal Arena. The Leslie Wild Animal Arena is certainly the drawing card of the Midway. The Midway could well be

filled with attractions of such caliber. The animals are fine specimens. Two of them were raised by Mr. Leslie. The other animals in the show were collected at great expense and trouble The Arena was easily the best drawing card at the Toronto Exhibition. Capt. They are very well trained and are drawing well. Visitors will miss it if they pass this show by. The alone are worth the price of admission

Canada Cycle Motor Company.

The handsome bicycle display of th Canada Cycle Motor Company, of Toronto, is to be found on the south upper floor of the main building. The exhibit includes such well known makes as Cleveland, Massey-Har-Welland Valle, and Brantford, and is worth more than passing attensired may be had. These signs and tion, being perhaps the best bicycle flashers are made by the Ideal Electric display ever made at the Western, The feature that is attracting most favorable comment is the excellent hygienic cushion frame, the popularity of which is increasing with use The new Sills' hygienic cushion handle-bar and the new Morrow coaster brake cess. It is the first time in three years the largely increased sales have war-ranted a particularly fine display. Don't miss this exhibit of the best in bi-

Canadian Packing Company. Every householder is interested in the fine display of the Canadian Pack-

ing Company in the Main Building. This enterprising firm have a beautifully decorated booth where they are displaying a complete line of canned goods and where they are dispensing child can handle their separator. Do not fail to see the Sharples separator exhibit in the Dairy Building. The courteous assistants are only too willing to explain the workings of the machine.

Wallace Power Sprayer.

Fruit is king, and the farmer through the better cold storage and response to the public their delicious beef tea. The beef fluid from which this tea is made is one of the special features of which the Canadian Packing Company is so justly proud. It is auperior to any imported fluid and it is made in Canada from the best Canadian beef at the company's own factory. It is a most delicious and invigorating bever
Mr. "Cy" Edy, formerly of The Advertiser, but latterly of Toronto, has

packing facilities, is realizing every year a greater profit from his fruit. The amount of money lost every year to the farming community through loss by insects is enormous. All reports

Every household should have constantly on hand a supply of the canned

They have taken the gold medal at The Heintzman Piano.

As usual, "Ye Olde Firme" of Heintz. man & Co. have the finest pianos in the Main Building. Their fine, ringing tones can be heard above all others i the Palace, and attract throngs their beautiful exhibit. The Heintzman & Co. piano has th

working of it very lucidly, and the in-formation imparted by him on the subject is considerable. The company's up-to-date, aesthetic style; a piano gasoline engine sprayer is a work of that will be a delight to eye and ear, art, and highly successful. Don't fail as they are made of the finest mater to see the exhibit of the Wallace power lals used in plano construction, and sprayers at the west end of Machinery only the best artisans are employed which accounts for the Heintzman & Co, piano being the unanimous choice

of all great artists touring Canada, and Canada's foremost musicians and artists. Do not fail to call and examine their most beautiful pianos, either at their exhibit in the Main Building or

MARVELOUS CARBORUNDUM Its Wonderful Properties Demon strated at Rice Lewis'.

The wonderful properties of carbon undum are at present being demon-strated at the Western Fair by Rice Lewis & Son, Limited, of Toronto whose attractive exhibit at the en trance to the Machinery Building is attracting large crowds. Next to the diamond, carborundum is absolutely the hardest material on earth. It used for all kinds of grinding and pol-ishing, and stones of all sizes and de scriptions are supplied for sharpening from the razor hone to the farriers stone. Knife sharpeners, combinatio stones for carpenters and mechanics, pocket stones for sharpening penknives hunting knives, etc., slip stones, roun edge gouge stones, oil stones, carvers slips, points for die sinkers, silver smiths' stones, scythe stones and crop. Don't fail to see the exhibit of warp; is a nonconductor of heat and which this marvelous manufactured cold and costs less than any other material. Call at the exhibit and you will hibit is devoted to samples of the varreceive a reliable and thorough explan- ious honing and sharpening imple Intending purchasers of pianos will Years of actual experience cause the specimens of the beautiful crystals Manufacturing Company to which are produced in the manufacture

Carborundum is made by combining carbon and silicon, two of the hardes known elements. ical process in the large est electrical furnace in the world, and ultimately emerges in its final form so hard that it is used for the grinding and finishing of diamonds. The publi have taken full advantage of the invitation extended by the Rice-Lewis representative to "come and get a knife sharpener free."

ROLLER POLO NEW GAME FOR LONDON

Sport To Be Introduced Here Shortly—Is Expected to "Catch On."

London is to have a new sport, and its name is "roller polo." In other words, it is hockey played on roller most modern machine of its kind on skates, and with a rubber ball instead of a puck. The sticks used are some thing similar to hockey sticks, but

ing with teams from Grand Rapids and Detroit to get them to give an exhibi-

game is like. A polo team is also being got together from among the members of the Horton Hockey Club, and it is expected that it will make a hit here. The game is said to be fully as fast and interestinvited to call and see samples of the ing to watch as hockey, and requires moreover, a game that prepares hockey players for the winter game in a way that no other system of training can. is hit with the other side of the stick. This in itself is a valuable feature, the cartridge goes off with a loud since the hockey season is comparatively short here, and the great problem among team managers has always been to get the seven men in good form before the ice arrives. Sometimes half the season is over before a hockey team takes on its proper shape. Mr. Smith has ordered fifteen pair of

reller skates especially adapted for polo playing. The game is a great favorite in many cities across the line.

STRICKEN ON THE STREET Sudden Death of Ars. Goodburne

of East London.

Mrs. Frances Goodburne, relict of the late Mr. Allan Goodburne, died last evening at her home, 1031 Mary street. East London. Her death was very sudden. Mrs. Goodburne, with a niece who is visiting in the city, had spent a portion of the afternoon at the residence of her son, Mr. J. L. Goodburne, of Elizabeth street, and after tea returned home. Subsequently. are also meeting with unqualified suc- while going to a near-by grocery store, she was stricken with an affection of that this company has exhibited, and the heart. She was removed to her home, where she died in a few minutes. The late Mrs. Goodburne, who was in her 78th year, was a native of Cumber-land, England, and came to Canada in 1884 with her husband and family. After spending a few years in Michigan Mrs. Goodburne removed to this city, where she resided continuously up to the time of her death. Her husband died a year ago. She is survived by three sons and one daughter—Joseph L. and William, of this city; Thomas N., of Alpena, Mich., and Mrs. George

ccepted a situation in Winnipeg. He is in the city at present, saying good-bye to friends, Undoubtedly "Cy" will do something to help along Rugby football in the Prairie City.

Member of a Comedy Team Hurt as Result of His Partner's Mistake.

The best is always the cheapest and Rink, prophesies truly, the game will at the Fair were laughing their hardest at the Fair were laughing the l While the crowds on the grandstand day night was consequently filed. you will find the best with the Paris Plow Company in Machinery Hall.

This, propheses truly, the game will at the funny act of Mullen and Corelli about 2:30 o'clock this afternoon, Mr. some day between the 20th and 28th of about 2:30 o'clock this afternoon, Mr. this month, Mr. Smith is now negotiat- Mullen sustained a very painful and serious injury. The crowd did not know that anything had happened, so tion match in the east end rink, in bravely did the acrobat bear his order to show the public what the wound. He is now in Victoria Hospital.

The clever team with the trick piano and all sorts of funny acrobatic stunts had come to that part of their act where Corelli takes a large stick and hits the other an apparently heavy blow over the back, when Mullen is bending over. There is a big blank cartridge in one side of the stick which is so arranged that when the acrobat is hit with the other side of the stick

Today Corelli unfortunately hit his partner with the wrong side of the stick and Mullen received the full force of the explosion of the cartridge. cartridge burst outwards and forced its way into the flesh, tearing a hole three inches deep and as big as a man's forefinger. The flesh was badly burnt by the explosion.

It is part of the act that the acrobat should fall down and pretend he is hurt at this juncture. He fell down this time in agony, but the crowd did not know the difference and roared with laughter. When he got off the stage it so reported a pronounced lowering, was seen that the man was badly hurt. with accompanying frost. Dr. Reason, who was in crowd, was sent for and he dressed the wound, and winter, though the cold was not as rethen summoned the ambulance, which markable as in the country districts.

OVERSLEPT HIMSELF

Asphaltum Agent Has a Funny Experience Coming to London.

Mr. A. J. Hill, the representative of the American Asphaltum Company, of Chicago, was the victim of a funny exhe reached Woodstock. There he made a rush for the door and succeeded in 'falling all over himself" when he reached the platform. The frost was on the pumpkin good and plenty as the Chicago man slowly found his bearings. He reached London before noon, still ages, on corner of Princess avenue and Elizabeth street; J. A. Matthews, for a to be careful of this year's crop of the careful of the carefu brick-veneer, 1½-story residence on lemons, as they are too strong to per-Elias street; E. K. Matthews, for two mit of drinking lemonade in any quan-

FAVORS FAIR

Continued from page 1

to have been shown at Aylmer fair, and they were "sneaked away" from

Chairman Gammage stated that it would scarcely be fair to withhold all of Mr. Blackstock's prize money. He declared that many exhibitors show vegetables not grown by themselves, it. He said only the prizes awarded for vegetables which Mr. Blackstock admitted he did not grow should be held

The board followed Mr. Gammage's advice, and passed a resolution in ac-

ordance with it. Mr. Truman, of the Truman Stock Farm, asked permission to remove his stock from the grounds at 1 o'clock Fiday, whereas the rules say that live stock shall not be taken from the grounds until after 4 o'clock. President Reid declared the rules should be adhered to and the directors backed him up. The request of an-

other owner to remove a horse Thurs-Rev. S. F. Chown, of Toronto, secretary of the Temperance and Moral Reform Association, of the Methodist Church, of Ontario, wrote the board asking them to be very particular as to the class of shows on the Midway. It was decided to write Mr. Chown that the board this year, as in years previous, has exercised the greatest care as to its Midway shows, and that there is nothing objectionable on the Western Fair Midway now.

The awarding committee made the following additional awards today: Sherlock-Manning Organ Company-Gold medal. London Fence Machine Company Bronze medal.

FIRST TASTE OF WINTER
