

CANADIAN RECORD  
FOR STANDARD BREDSNew System Will Be of Great  
Benefit to Importers and  
Breeders.

Ottawa, Oct. 15.—A Canadian record for standard-bred horses has lately been opened under the Canadian national system. The following are the rules of entry:

1. An animal recorded as standard in the American Trotting Register under the rules governing the trotting division.
2. An animal whose sire and dam are recorded as standard in the American Trotting Register under the rules governing the trotting division.
3. An animal whose sire and dam are recorded in the trotting division of the Canadian Standard Bred Stud Book.

4. A mare sired by a registered standard trotting horse providing her first, second and third dams are sired by a registered standard trotting horse.

**Pacing Standard.**

1. An animal recorded as standard in the American Trotting Register under the rules governing the pacing division.
2. An animal whose sire and dam are recorded as standard in the American Trotting Register under the rules governing the pacing division.
3. An animal whose sire and dam are recorded in the pacing division of the Canadian Standard Bred Stud Book.

4. A mare sired by a registered standard pacing horse providing her first, second and third dams are each sired by a registered standard pacing horse.

5. The progeny of a registered standard trotting horse out of a registered standard pacing mare, or the progeny of a registered standard pacing horse out of a registered standard trotting mare.

It will be noticed that the Canadian basis of registration is the American Trotting Register, heretofore the only recognized record in the world for the breed. There have been other so-called records in both Canada and the United States, but none of these have been recognized by the Governments of either country. Purchasers of standard bred horses should in all cases see that the animals they buy are recorded in either the Canadian National Record or the American Trotting Register.

Heretofore it has been necessary for importers of standard bred horses in order to obtain free customs duty, to apply to the Canadian National Record office for an import certificate certifying that their animals were recorded in the American Trotting Register. Now that a Canadian record has been opened, the customs regulations will require Canadian registration. Purchasers of animals in the United States should immediately forward to Ottawa the American certificate, with transfers, properly indorsed, in order that there may be no delay in making customs entry, either at the border or at destination.

**Get Better Rates.**

Breeders of standard bred horses, recorded in the American Standard Book, will now be able to take advantage of the half-rates for pure-bred live stock for breeding purposes, with two or three freight over leading Canadian railways, in accordance with the agreement made between the department of agriculture and the joint freight committee.

In all probability exhibition associations will now demand as a protection to exhibitors the production of Canadian national certificates of registration before exhibition entries will be accepted.

As the standard bred horse is the most widely disseminated of all the breeds of horses in Canada, there is no doubt hundreds of standard horses scattered throughout the country, and thousands of mares, with two or three crosses of standard bred blood, these mares should be bred to registered standard horses in order that their descendants may be able to take advantage of a breed which produced practically all our fancy drivers, roadsters and delivery horses, and at least one-half of all the work horses on Canadian farms.

A breed which produced practically all our fancy drivers, roadsters and delivery horses, and at least one-half of all the work horses on Canadian farms, is surely worthy of a Canadian record, and if our breeders will take hold of this matter with the spirit of hearty co-operation they should be able to secure the strongest and most influential horse breeders organization in Canada.

Life membership in the society is \$25. Annual membership, \$2 per year.

Be alert. Study to please, but go a step beyond. A \$10 a week man is worth just that much, while a \$50 a week man is worth to his employer just five times more.

**AN ABSOLUTE NECESSITY**

So Think at Least One Travelling Man.

I would as soon think of starting out without my mileage books and grip as to start out on a trip without a box of Stuart's Dyspepsia Tablets in my valise, said a travelling man who represents a St. Louis hardware house.

Why? Because I have to put up at all kinds of hotels and boarding houses. I have to eat good, bad and indifferent food at all hours of the day and night, and I don't believe any man's stomach will stand the sort of thing without protest, anyway I know mine won't. It has to have something to break the fall and Stuart's Dyspepsia Tablets is the crutch I fall back on.

My friends often "josh" me about it, tell me I'm an easy mark for patent medicine fakers, that advertised medicines are humbugs, etc., but I notice that they are nearly always complaining of their aches and pains and poor digestion, while I can stand more any old kind of fare and feel good and ready for my work when it needs me, and I believe I owe my good digestion and sound health to the daily, regular use of Stuart's Dyspepsia Tablets, year in and year out and the "joshing" in the world will never convince me to the contrary.

I used to have heartburn about three or four times a day, and a headache about three or four times a week, and after standing for this for four or five years I began to look around for a crutch and found it when my doctor told me the best investment I could make would be a fifty-cent box of Stuart's Dyspepsia Tablets, and I have invested about fifty cents a month for them ever since and when I stop to think that that is what I spend every day for cigars, I feel like shaking hands with myself for I can keep my stomach and digestion in first-class order for fifty cents a month. I don't care for any better life insurance.

My druggist tells me they are the most popular of all stomach medicines and that they have maintained their popularity and success because they do as advertised. They bring results, and results are what count in a patent medicine as much as in selling bar-b-wire.

BRITISH DEMAND  
TREATY REVISIONPetition to Home Government  
Contains Many Complaints  
Against Japs.

Tokio, Oct. 15.—In a memorial sent to Downing street by the British Association of Japan regarding the revision of the Anglo-Japanese treaty of 1905, a damning indictment is made of the defects of the existing instrument.

The memorial urges the insertion in the new treaty of a clause removing entirely the restrictions on the ownership of land granted to British residents in Japan. It points out that the Japanese on the Pacific coast of Canada are permitted to buy land and prosper without any restrictions whatsoever.

The right to vote at municipal elections, participation in subsidized enterprises, the right to engage in the coasting trade, renewal of the tariff convention, which is threatened with extinction, and some guarantee that future legislation will not prohibit foreign physicians from practicing here or foreign newspapers from being published are other demands of the memorialists.

**More Liberality.**

A clearer definition is demanded of the meaning of the clause contained in a subsidiary agreement, made after the promulgation of the treaty, exempting foreigners from military taxation, seeing that they are now compelled to pay war taxes.

The memorial finally asks that a substantial definition be made of the talk of reciprocity, "National dignity," it concludes, "demands that British subjects here be treated with the same liberality as the Japanese are accorded in the British dominions."

The protest against phases of the Anglo-Japanese treaty, referred to in the above cablegram, is not the first that has been made by British subjects against the treatment accorded to them by their Oriental ally. Ever since the first news of the signing of the treaty was made public, five years ago, a large section of the English press has been complaining that by the terms of the agreement the advantages of Great Britain's naval power, while giving nothing, or almost nothing, in return.

The Anglo-Japanese agreement was signed at a critical time in the affairs of the Island Empire. Only a short time elapsed after the signing of the treaty between Russia and Japan before the agreement with England was made public.

WOMAN OF 90 SAYS  
SWIM EVERY DAYLots of Exercise and Simple Life  
Gave Her Good Health.

Chicago, Oct. 15.—Mrs. M. L. Satterlee, who, at the age of 90, finds her chief diversion is swimming, will celebrate her birthday anniversary Monday. Here is Mrs. Satterlee's recipe for a long and healthy life:

Live the simple life; it makes for happiness.

Don't worry over little things. The worrier is always miserable.

Go to bed by 10 o'clock at night and sleep eight hours.

Eat simply. Don't diet, but make it a habit to avoid rich foods.

Have friends and keep them around you.

And these are Mrs. Satterlee's words of advice to the woman in her prime today: Don't smoke; don't drink; don't wear a hobble skirt, tight corsets or tight shoes; don't play bridge or any other game that makes you worry.

Mrs. Satterlee has just returned from a three months' visit to Cape Cod, and every day while there she took a plunge in the ocean.

"It is a wonderful tonic," she said. "One comes out of the water feeling as though she had taken a drop or two of the elixir of life. I regard swimming—particularly salt water swimming—as one of the best forms of exercise that women can indulge in."

## CRIPPEN'S TRIAL

Great Rush For Tickets From All  
Parts of Country.

London, Oct. 15.—More than 4,000 people have written to the authorities asking for admission tickets to the trial of Dr. Crippen, who is accused of the murder of his wife, the actress known as Belle Elmore, which will begin at the Old Bailey next Tuesday, and every mail delivery brings a fresh batch of requests.

There are about 150 seats in the courtroom, and when indisputable claims are settled about 70 of them will be available for the general public. With the view to lessening disappointments, the sheriffs have directed that each ticket shall be available for only half a day, and nobody will be given more than one ticket.

LASH FOR THOSE  
WHO ATTACK GIRLSGrand Jury at Toronto Recommends  
Strong Punishment.

Toronto, Oct. 15.—The report of the grand jury made here today included the following recommendation:

"We recommend that a vigorous application of the lash be added to the sentence imposed for assaults on girls."

"Too many cases come before the grand jury from the police court, many of them with only a few dollars involved, and we are of the opinion that they should be disposed of in the first court."

## SOLD RACING FORMS

Toronto Men Found Guilty of Breaking  
Miller Bill.

Toronto, Oct. 15.—Joseph McLaughlin, proprietor of the "Troquois" Hotel, was sentenced today by Judge Denton in the sessions court to one hour in the cells, and a fine of \$50 for selling a racing form, and violating the Miller bill.

George Walker, was also sentenced to the hour's imprisonment and a fine of \$5.

**SEIZED NETS.**

[G. N. W. Dispatch.]

Belleville, Oct. 15.—On Saturday about two miles of hoop and gill nets were hauled out of the bay near Glen Island by Overseer Gault of Deseronto. A gasoline launch and punt near by were also confiscated. The outfit is valued at several hundred dollars. The owner is not known.

RAILWAYS WILL  
HAVE BUSY YEARMany Companies Are Planning  
to Extend Their Lines.

Ottawa, Oct. 15.—The usual big gist of railway legislation for consideration by parliament is indicated by the notices of bills which will appear in tomorrow's Canada Gazette.

Several railway companies will apply for an extension of their charters. They include the Walkerton and Lucknow Railway Company, the Guelph and Norwich Railway Company, and the Ottawa, Northern and Western Railway Company.

The Georgian Bay and Seaboard Railway Company seeks authority to connect with the Ontario and Quebec Railway, at a point between Burlington Junction and Havelock.

The South Ontario Pacific Railway Company will ask for authority to construct a line from Guelph Junction to Hamilton.

The Campbellton, Lake Ontario and Western will ask parliament for authority to construct from a point on the line operated by the C. P. R. between Smith's Falls and Sharbot Lake to Cobourg.

The C. P. R. proposes to get parliamentary sanction for the construction of several branch lines in the west, including the following: From Boksarain, Man., to the Red River; from Langdon, Sask., to Prince Albert, Sask.; from Outlook to a junction with the Lacombe branch of the Calgary and Edmonton Railway; from Estevan, Man., to Forward, on the Weyburn branch.

The C. P. R. also proposes to get parliamentary sanction for the construction of several branch lines in the east, including the following: From Boksarain, Man., to the Red River; from Langdon, Sask., to Prince Albert, Sask.; from Outlook to a junction with the Lacombe branch of the Calgary and Edmonton Railway; from Estevan, Man., to Forward, on the Weyburn branch.

The C. P. R. also proposes to get parliamentary sanction for the construction of several branch lines in the east, including the following: From Boksarain, Man., to the Red River; from Langdon, Sask., to Prince Albert, Sask.; from Outlook to a junction with the Lacombe branch of the Calgary and Edmonton Railway; from Estevan, Man., to Forward, on the Weyburn branch.

PANAMA CANAL TO  
BE READY IN 1915President Taft Will Look Big  
Work Shortly.

Beverly, Mass., Oct. 15.—Indications point to the completion of the Panama Canal long before Jan. 1, 1915. Col. George W. Goethals, U. S. A., chief engineer, came to Beverly today to tell President Taft of the progress of the work. What he said led the President to order arrangements made for him to go to the isthmus immediately after the November elections.

While on his inspection trip the President will be asked to see the manner in which the United States will participate in the sale of coal and the control which will be exercised over private canal waters. It is regarded as necessary that the United States should be able to seal coal to prevent others from exacting a price which is unfair, and this long has been contemplated. A station for coaling will be located at one end of the canal. It is not the expectation, however, that the United States will monopolize the sale of coal on the canal.

It also will be necessary to determine what system is to be adopted on the canal zone to replace the one now employed of selling supplies to Government employees. Now an order from Col. Goethals is necessary for their purchase. The rate at the hotel maintained by the Government is \$2.50 for those connected with the Government and \$7.25 for others.

The Panama Railroad now is operated under the control of war department. It will be necessary to have legislation which will determine whether this Government-owned line is to be operated in conjunction with the canal when opened, or separately.

The stock now is held by the Secretary of War. The rate of living problem has penetrated to the isthmus, where the men who work by the hour are asking an increase of pay, such as has been given to the same trades in the United States. They desire to be heard by the President.

Although the slide which recently hampered the work of excavation has been surmounted, the President desires to inspect it, and make a statement of its effect on the progress of the canal.

## 51 SENTENCED

Long List of Criminals Dealt With at  
Toronto Court.

Toronto, Oct. 15.—This was sentence day at the sessions court and 51 men and women convicted of various crimes lined up to hear the announcement of the punishment meted out to them. Among the sentences passed were the following: Percy Bernard, theft from employer, 60 days in jail, in addition to eleven weeks there awaiting trial; Joseph Capner, theft of a watch, six months in the Central; John Jackson, assault on a little girl in a moving picture show, six months; Carmone Thomas, incest, eighteen months; Thomas Mack, theft, three months; Jas. Murphy, indecent assault eight months, and Andrew Tuttle, receiving, three months.

**KILLED IN QUARREL.**

Albany, Oct. 15.—Following a quarrel over a strike situation among employees of the companies by which they were employed, Edward Mayo, of Troy, was shot and killed at Green Island today by Frank Sheldon, of Watervliet. Sheldon, who is about 40 years old, was placed under arrest. He claims he fired the shot in self-defense.

**Make the Liver Do its Duty**

Nine times in ten when the liver is right the stomach and bowels are right.

**CARTER'S LITTLE LIVER PILLS**

gently but firmly compel the liver to do its duty.

Cure Constipation, Indigestion, Sick Headache, and Dizziness After Eating.

Small Pill, Small Dose, Small Price.

GENUINE must bear signature

*Wm. Wood*

IS NATIONAL GOLF CHAMPION.

Florence, Oct. 15.—Miss Dorothy Campbell, of Hamilton, Ont., successfully defended her title as national golf champion today at the Homewood Country Club, defeating Mrs. G. M.

After  
La Grippe

"I had suffered several weeks with La Grippe. Had pains in my head and eyes. It felt as though there was a heavy weight on the top of my head, until it seemed that my brain would burst. I was so nervous that I could not rest or sleep. When I dozed off I would awake with a sudden jerking of my whole body. Dr. Miles' Nerve, Heart Remedy and Nerve and Liver Pills cured me. A number of friends have since realized the same benefits."

MRS. ALVIN H. LOCKS, Seabrook, N. H.

The after effects of La Grippe are often more serious than the disease, as it leaves the system in a weakened condition that invites more serious troubles, such as pneumonia, etc.

**Dr. Miles' Restorative Nerve**

should be taken for some time to thoroughly restore nerve strength.

Price \$1.00 at your druggist. He should supply you. If he does not, send price to us, we forward prepaid.

DR. MILES MEDICAL CO., Toronto.

GOVERNMENT HELP  
FOR CONSUMPTIVESImportant Recommendations Are  
Made By Various Committees  
On Public Health.

Ottawa, Oct. 15.—Details of the reports of the various committees named in connection with the conference on public health, called at the instance of a public mission on conservation, were given out yesterday by the secretary of the commission. The committee on pollution of waterways recommends a law prohibiting and penalizing the deposition of raw sewage in the waterways of Canada, and submit a draft bill, with the request that the provinces give effect to it, so that there shall be no conflict of jurisdiction between the Dominion and Provincial Governments.

The committee recommends that the Legislatures be asked to insert a clause in their various health acts providing that no bylaw for the raising of money for the construction of sewers or waterworks shall be submitted to the vote of the council of any municipality until it has received the approval of the commissioner of public health or of the provincial board of health.

**Confer With States.**

The Government is asked to consider the necessity of conferring with the Government of the United States, with a view to preventing any further pollution of international waters.

The report of the committee on tuberculosis recommends that the Dominion Government should be urged to give substantial assistance to encourage the establishment of sanatoriums and hospitals for consumptives.

The committee also recommends that the commission on conservation take early steps to secure areas of crown land in localities recognized as being climatically favorable for the cure of tuberculosis, to be set apart for colonies of tuberculous persons and their families, to be settled under such conditions as may prove practicable.

In respect to federal aid, it is suggested that the Dominion Government vote a certain sum of money each year for the suppression of tuberculosis, the money to be spent by the commission on conservation, under the direction of the conference.

The committee on harmonizing of health laws asserts that definite action cannot be taken until it is in possession of specific information regarding the provincial and federal laws now in force. The work of collecting this information will be persisted in. The committee recommends that all the provinces adopt a standardized plan of statistics on the lines adopted by Ontario and Manitoba.

**Council of Health.**

The committee on a central council and national laboratory recommends the establishment of a permanent National Council of Health, under the commission on conservation, and also that a national public health laboratory be established. It is proposed that the council of health should consist of an officer representing each branch of a federal department engaged in public health work, and a representative from the public health service of each province or territory.

It is proposed that the national laboratory shall manufacture vaccines, toxins, anti-toxins, and analogous products, and also supervise the manufacture, importation and sale of them throughout the Dominion.

The committee further recommends that the commission on conservation send an officer to study and report upon the work and expenses of such laboratories in the United States.

## BOY SCOUTS MEET

Arrangements Made for an Outing at  
the Valley.

A meeting of the Boy Scout Patrol Leaders and Scout masters was held at the Cove ranges on Saturday, when the following were present: Scout Masters Robinson and Johnson, Patrol Leaders Brownlee, Boyle, Hayman, Merkle, Keyes, Fox, Graves, Southam, McMurtry, James, Taylor, Campbell, Cole, Corporals Shaver and Curtis, Scouts Stewart and Taylor.

After drill some new knots were tied—handcuff knot and hangman's knot. Then a few moments were devoted to the "Scout's Own Song."

Reports were received on the progress of the Scouts in signalling and first aid. Arrangements were made for an outing at the valley at Maitland street and the north branch of the river.

**MAINTAINING FAITH WITH THE BUYING PUBLIC**

One reason why "PROGRESS BRAND" Clothing keeps its hold on the public, is because it keeps its faith with the public.

When a man sees the "PROGRESS BRAND" label in Suit or Overcoat, he knows that he is going to get honest value for his money.

The "PROGRESS BRAND" label has always stood for satisfaction. And it means more to-day than ever before.

It is a guarantee of satisfaction. It is the guide to good clothes. It means fair play prices.

Make this a maxim—look for the "PROGRESS BRAND" trademark in every suit and overcoat you buy.

When you find it, you will find honest clothes, honestly made, at honest prices.
