

DOYLE'S HOME RUNS IN THE FIRST CAUSED THE PIRATES DEFEAT

When It Scored Bescher and Ended the Longest Baseball Contest Staged in Forbes Field This Season—It Was a Pitching Duel, Marquard vs. Adams.

PITTSBURGH, Pa., July 17.—Bescher's single, and a home run by Doyle, gave New York a 3 to 1 victory in a twenty-one-inning duel between Marquard and Adams today. From the close of the third inning until the twenty-first inning, neither team was able to score, effective was the pitching and sharp hitting which characterized the work of both sides. The work of Burns, Fletcher, Kelly and Burns was brilliant. In the first inning, Burns hit a three-bagger when two were out. He did not score in their hands the Pirates scored the first run, when Nelson was hit by the first ball pitched by Marquard, and went to second on Marquard's sacrifice, and scored on a three-base hit by Wagner. The visitors tied the score in the third on singles by Bescher and Doyle, and Burns' out. During the next seven innings each team often got men on the bases, but no runs resulted. Bescher singled in the twenty-first, after two were out. He stole second. Doyle then sent the Pirates scored the winning run, when Marquard pitched to center, scoring himself and Bescher. Adams did not give a base on balls, and struck out six men. Marquard walked two men, and struck out two. Manager Clarke and Player McCarthy of the local team were out of the field for disputing a decision. Score:

NINETY-TWO RINKS IN W.O.B.A. TOURNEY

Entry List is Largest One in Recent Years.

GREENS IN FINE SHAPE

Trophy Winners of Past Two Years Are Drawn Against Each Other.

Ninety-two rinks, 28 of which are London rinks, were entered in the W. O. B. A. tourney and figure in the draw which was published yesterday afternoon. This is pretty nearly a record for the W. O. B. A. tourney. It is away beyond the fifties, and the number of the London Rink Club, never looked prettier. The arrangements for the tournament are complete.

Trophy Winners Meet.
The draw is a good one and should be satisfactory to every rink. The trophy winners of the last two years are drawn against each other. The trophy winners of the last two years are drawn against each other. The trophy winners of the last two years are drawn against each other.

"Please, Mister, Some One Stole Our Clothes!"

Pest Has Invaded the District Around Norwich and Drumbo.

[Special to The Advertiser.]
WOODSTOCK, July 17.—G. R. Green, of the agricultural department, here, arrived in the city about 8 o'clock tonight, after spending the day in the Norwich district, fighting the army worms, and on his arrival received a hurry-up call from Drumbo, notifying him that another outbreak had occurred on Mr. Mitchell's farm, which is situated a couple of miles out of that village. This is the fourth outbreak of the worms in the county today, and each one comes from a different section. At Mr. Mitchell's place they have cleaned up his pasture field, and are raiding a barley field. There are about 20 men fighting the worms in the Norwich district. These men have been working all day under the supervision of Mr. Green, and have the worms practically in check now, as the fields where they are in have been encircled by a deep trench. The farmers of this district, and, in fact, all over the county, are pretty well worked up over the matter, and are keeping a close watch on their pastures, in order to prevent them from getting a big start. According to reports that have reached here today, this outbreak has caused the farmers heavy loss, and will no doubt cost a great many more before the pest is eradicated. The farmers will have trouble finding pasture for their herds, which will mean a great additional loss to them.

Flood Worms Out.
On the Beattie farm the farmers built a dam across the creek and flooded the worms out. Mr. Green stated to The Advertiser that the worms were on the march near Vandaeur, in Oxford County, again. In this place the worms were first discovered in this county, and for the last few days it was thought they had been exterminated there, but from all reports from that district today they are very numerous. MILLIONS OF THEM FOUND NEAR PARIS.

[Special to The Advertiser.]
PARIS, July 17.—The army worms were discovered in millions tonight in fields along the Nile near here.

Farmers in the vicinity are greatly alarmed, fearing heavy damage to their crops. The worms are on the march near Vandaeur, in Oxford County, again. In this place the worms were first discovered in this county, and for the last few days it was thought they had been exterminated there, but from all reports from that district today they are very numerous. The farmers of this district, and, in fact, all over the county, are pretty well worked up over the matter, and are keeping a close watch on their pastures, in order to prevent them from getting a big start. The farmers will have trouble finding pasture for their herds, which will mean a great additional loss to them.

NONE IN KENT YET.
[Special to The Advertiser.]
CHICHESTER, July 17.—The farmers of Kent have been greatly interested in the dispatches in The Advertiser telling of the ravages of the army worm in the eastern counties. A great many of them have become very vigilant in inspecting their fields, and find that so far there is no trace of the army worm in Kent County.

There are other pests that are troubling the farmers of Kent, and of great extent. The scab on the apples is a little more prevalent than ever this year, and this form of scourge is doing more harm in Kent than the San Jose scale, which has caused such a serious effect upon the orchards during recent years. To make up for the apple crop, however, the other fruits are looking better than ever this year. Peaches and plums will be a bumper crop this season.

WATERLOO FREE SO FAR.
GALT, July 17.—According to J. S. Knapp, district representative of the Dominion Government, who has just completed a fairly extensive tour of the county, Waterloo is free from the dreaded army worm, which has caused much damage to crops in the counties of Oxford to the west, and Brant to the south. While there is no sign of the pest in this district up to the present, a sharp lookout is being kept by the farmers, and prompt and vigorous action will be taken if the necessity arises.

U. S. HOPES FOR MEXICAN PEACE.
End of the Great Revolution Is Now Believed To Be at Hand.

[Canadian Press.]
WASHINGTON, July 17.—Every influence and diplomatic agency at the disposal of the United States Government was working today for immediate peace in Mexico.

The Washington administration is convinced that with the termination of the Huerta revolution, the United States will be quickly drawn toward aid in this, and assure restoration of normal conditions without further bloodshed. The United States Government is using its influence through friends of Zapata to bring him into harmony with the peace program, and an emissary from Gen. Carranza is now on his way to confer with Zapata.

ALL EYES ON ZAPATA.
These activities on the part of the United States Government result from a desire that when the Constitutional Convention is installed in Mexico City, the country will be in a state of peace. Carranza has been informed that he must conduct his triumph temperately, and that there ought to be no excesses when the army takes control of Mexico City and other important centers; that there should be no revenges, but that an amnesty for political offenders should be declared, and the rights of the clergy and other foreigners who have suffered, especially the Spaniards, be given due respect.

RECOGNITION OF ALL POWERS.
Through John R. Silliman, personal representative of President Wilson, the United States Government is rendering its support to the suggestions from Washington, it has been pointed out, means recognition by the Powers of the whole world, a circumstance, which would contribute not only to immediate stability, but would enable the new administration to rehabilitate the financial situation.
