LAUD LONDON C. OF C. PLEA

Name Committee To Prepare Resolution Indorsing "Blue Sky Law" Plea.

WOODSTOCK, Jan. 19.-Several weighty matters came up for consideration at the opening session of the fourth annual meeting of the Western Ontario United Boards of Trade, which opened in the council chamber here Thursday afternoon. Delegates were present from Stratford, Brantford, St. Thomas, Windsor, Ridgetown, Strathroy, London and other places. Gordon Philip, secre-tary of the London Chamber of Commerce; D. McArthur and Major merce: D. McArtnur and Major Greenlees were the spokesmen of the London delegation. T. J. Hannigan of Guelph, president of the associa-tion, occupied the chair when the session opened. An address of wel-come from the City of Woodstock and the heard of trade was delivered. and the board of trade was delivered by Fred W. Bean, vice-president of the Woodstock Board of Trade.

The report of the executive committee dealt with many phases of the activity of the association, and particularly with its efforts to bring suitable immigrants from the British Isles to Western Ontario. Owing to the prevalence of unemploythis is not being pressed hard at the present time, but the new executive will give it thorough attention during the year. The asso-ciation is not yet satisfied with the provisions for townplanning, and this matter will be strenuously

Thanked By Governors. The executive reported that the united boards had been tendered the sincere thanks of the board of gov-ernors for Western University for for their assistance in securing furtheir assistance in securing furversity from the provincial govern-The chief activity which is proposed for the future is in connection with the establishment of British branch industries in Canada, and a campaign for this purpose is to be undertaken in connection the Dominion Department of Trade

and Commerce Gordon Philip of London, secretary of united boards, presented the financial report, which, although it showed a slight deficit, was regarded as very satisfactory, as several cities have yet to pay their dues for the year. He was congratulated on services by the chairman, and Bean of Woodstock were appointed extended a cordial vote of thanks

Want Investors Safe. Invitations for the next annual meet ng were extended by the chamber of ommerce of St. Thomas and Brant-

The first resolution was presented by the London Chamber of Commerce, and advocated that the provincial government be urged to pass legislation to protect investors from being led into putting money into "wildcat" schemes and unproductive securities. The resolu-tion was introduced by B. McArthur who, in an able address, put forwar the reasons for the resolution. He said had been found in London icinity that many people were being pursuaded to buy securities that were worthless, and he urged that a "blue sky" law of some kind should be adopted. He quoted figures to show teed. Even if you have never dyed be-that in some of the states of the other fore, you can put a new, rich, fadeless ide of the border, the blue sky laws color into your worn, shabby dre

were operating splendidly.

O. E. Flemming, K.C., of Windsor, put forward the case for the Border Cities. following the simple directions in every the said he was heartily in accord with the London resolution, but that he believed that the Dominion government should be asked to call a conference with the various provincial governments for the various provincial governments for Diamond Dyes never streak, spot, fade, the purpose of having uniform company or run. acts for the whole Dominion.
Supports London Move.

Norman Harris, financial editor of the Toronto Saturday Night, spoke strongly in support of the London resolution, and said the London Chamber of Commorce have the honor of being the first public body in Canada to put forward a plea for a "blue sky" law. The result of the discussion was that Mr. McArthur, Mr. Flemming and Mr. Harris were appointed a committee to frame a resolution embodying all the resolutions and present it at a later session.

A resolution from the Brantford hamber of Commerce, introduced by Major H. W. Woods, asked the provincial government to bring in legislation to prohibit the entry into Canada of carnival companies and carnival attractions. Mr. Woods claimed that these carnivals took large sums of money out of the communities in which they played, and that they had a bad effect on the morals of the community. Major Greenlees of London seconded the

resolution. The resolution was carried unanimously. A resolution asking the provincial government to take steps to equalize the rates paid under the workmen's compensation act, so that industries which spend money in putting expensive devices to prevent accidents should have the benefit, and also to make some regulation which would prevent workmen from drawing benefits after they are fit for work, was introduced by J. R. Brogue of Strathroy, who gave concrete examples of the hardship which the present regulations were to manu-

Want Fees Reduced O. E. Flemming supported the resolution and showed by statistics that many manufacturers were paying in thousands of dollars each year in excess of the benefits received by workmen in their industries. Fred Bean of Woodstock concurred in his remarks, and the resolution was passed unanimously with a rider added, to the effect that a copy of the resolution be sent to the Ontario Branch of the Canadian Manufacturers' Association. Major H. W. Woods of Brantford introduced a Woods of Branton introductor resolution asking the federal minister of finance to make provision for a reduction of the fees paid to boards of trade and chambers of commerce by individuals and institutions in naking their income tax returns
