The case of Hunter v. the Brantford Telegram, was up in chambers before Master Dalton. The plaintiff is a constable at Brantfo.d, and sues the defendants for damages for libel in a letter published in one of their issues. The letter in question charges that Hunter in his capacity as constable, had not exerted himself diligently to procure the arrest of the man who is supposed to have murdered John B. Sage at Brantford in 1880, and also charges that he was negligent in his duties and unfit for office. The motion made was to strike out a portion of the statement of the defence put in, as being embarrassing to the plaintiff. Judgment reserved

NEXT WEEK AT THE ROYAL.

The Jolly Pathfinders open a four days engagement at the Royal on next Monday, April 3. The program presents almost endless variety, and if carried out, as fit doubtless will be, no one seeing Scraps will complain of monotony. The play will represent a jolly boating excursion party who find they are ahead of time in their return and resolve to devote a while to run of every kind. The Indianopolis Sentinel says "it is fully the equal of any thing in the travesty line ever placed upon the stare" and the Louisville Commercial "says, the performance is one of many phases, ami touches the risibles of the looker-on with count as drolleries and funny incidents."

The annual election in connection with University college literary and scientific society came off last night in Moss hall. Five hundred members were present and voted—the largest number on record. The best of feeling prevailed though the usual party spirit, incident in college politics, ran high. The vote for president closed at 2:30 this morning, the result being that Mr. Geo. Acheson, B.A., was elected over Rev. Father Teefy by a majority of 37. The vote stood, Acheson 261; Teefy 224. The usual speeches were made on the announcement of the result.

THE FISHERIES OF TORONTO.

The minister of marine and fisheries yesterday morning sent a telegram to the chief of police of Toronto empowering his officers to sieze any seine or gil-nets laid in Toronto or Ashbridge's bay or the Humber and Don rivers. The Inspector of Fisheries Carr has had a surveillance on the whole of the Prevince of Ontario, but the jurisdiction was too large for him and some time since Mr. Helliwell was appointed assistant. Despite of these two officers nets have have been repeatedly set in Ashbridge's bay, seine nets have been laid and drag nets have been used in all the bays, taking in all the different channels leading from the lake to the marsh. When the public understand pike, bass, perch and sunfish all make for the marsh and the little ponds in the marsh to spawn, they will readily understand that when nets are put in these channels they prevent the fish from spawning. It is understood that steps will be taken to more rigidly enforce violations of the fishery l.w.

WHAT IS CATARRH?

Attention is called to the advertisement in another column of this issue of Mr. A. H. Dixon, 307 King street west, Toronto, who claims to cure Catarrh absolutely and permanently, by a method peculiarly his own, in from one to three treatments. Mr. Dixon scouts the idea that Catarrh is caused by a cold in the head (as most people imagine) but claims that it is a parasitical disease (and therefore beyond the power of inhalants to cure) and treats it accordingly. He says that he has ueed his remedy successfully in thousands of cases in Canada and the United States, and has shown us many complimentary letof cases in Canada and the United States, and has shown us many complimentary letters and certificates of cures effected by him to verify his statement. Mr. Dixon sends a treatise on Catarrh free on receipt of stamp. Sufferers should give him a trial.—Advt.
