The World's Telephone Call is 523. MONDAY MORNING, APRIL 19, 1886.

Intest on the Fishery Dispute. The Ottawa correspondent of an American paper is informed that on the afternoon of

Thursday last the Secretary of State and ster of Marine and Fisheries were in the Min onsultation with Sir John (at the latter's esidence) over a despatch just received om the English Colonial Secretary on the nestion of the fishery troubles, in which it intimated that, while the Canadian Govnment is justified in excluding American els from fishing within the threemile limit, it is not warranted, either by the treaty of 1818 or the usages of English-American marine practice, to prevent Amervessels from landing at Canadian ports and procuring fuel, water and other needed supplies. The dispatch, it is thought, is the result of a strong remonstrance sent to the British Foreign Minister by the United States Secretary of State, at the instance of President Cleve-land's Cabinet, complaining of the Cana-dian Order in Council touching the matters here the secretary of the Cana-dian Order in Council touching the matters here to be derived from the absorption of the cana-dian Order in Council touching the matters past.

question. Investigation made shows

this such a despatch has been received, but has exact contains of it are, of course, any haves. Some changes in the Canadian fisharyle-squalations may, however, be looked for at once.
That the American Government will take it a British basile.
The New York Harald suggests that for each other day, is to be expected. In the House of Ray is to be expected. In the House of Ray is to be expected. In the House of Ray is the other or solution of enquiry to bring the statistic calling on the President for information of enquiry to bring the statistic of Congress and the country to be in unvertised and unfriendly course of the Canadian antorities in endeavoring to prevent that fashing researed to admit, has an occurred to the unvertises and but free describes and the country to be in a majoring commercial privileges freely conceded to have their fashing researed in damit, which must be a diager to conditation of the Greer models in American ports.
It is reported that there is likely to be a first own of the Greer of Bagland. It is the first mean of a solution of the output of the table of the research and the country to be in any the transmant has statistican and the analysis in fact that the fighting provides and the free statistican ports the fighting are and and infriendly course of the Canadian ports.
