HOW THE ENGINE WAS CHANGED.

Witness: I visited the engine's office and found a book relating to the coal imported by Burns from April 1882 to August 1883.

The journal was in the handwriting of Knight, who was in Johnson's office. I have seen that journal since March 24.

Witness: I have made any search for that book since?

Mr. Foster: You must search for that journal and find it if possible.

Witness: If the journal is any place it might be here.

Mr. Foster: Where is it? Perhaps it is in your office, Mr. Foster?

Mr. Foster: It is not.

Mr. Bigelow: The file was there you know, and only for the Mayor we would have known nothing about it.

Mr. John Inglis was also recalled and examined as to the changes made from the Martin to the Corlies engine.

Witness: I have not seen the original drawings submitted. The original drawings show a Martin engine and a Corlies engine.

Mr. Foster: Were tenders asked from others than yourself?

Witness: Tenders were open to all, and no particular design was mentioned.

Mr. Bigelow: The engine founded their report upon a Martin engine and Martin pump.

Witness: I have not seen the original drawings submitted. The original drawings show a Martin engine and a Corlies engine.
