well looked after, Mr. Withrow mentioned that one of the auditors was a city auditor. The debt is now reduced to \$5000, and in the last ten years they have erected nearly \$100.000 worth of buildings. While he admitted the statement that the association had been fairly treated, he also wanted to say that the City Council had been fairly treated. Mr. Withrow urged the necessity of new stabling and increased accommodation. In the management for the last ten years the Exhibition association has never taken one cent of the taxes of the city to help it, because it had been so arranged that the proceeds of certain lands set apart for the purpose form the city's contribution. In the past they have been misunderstood and now is the time to clear it up. As to the statement that members of the association are pretty well paid for their services all he had to say was that they got just as much as the aldermen. They get no fees and no expenses. In conclusion he moved the adoption of the report, seconded by Vice-President McMaster.

"Too Much For Our Whistle." Mr. Booth suggested that the report be discussed, and Mr. Nieholls asked for an explanation of the fact that the expense acexpanation of the fact that the expense account for 1888 was \$37,000, being \$10,000 more than 1887 and double that of 1886. The report stated that the gate receipts had also increased in proportion to the expense, but the ratio of increase was nearly the same as

the expense and he thought they were paying too much for their whistle.

The President said that part of the big expenses was \$1669 for law suits, and Mr. Ridout, chairman of the special attractions committee, said that while last year much more more head here expects than prayingly more money had been spent than previously on such attractions he did not think that this item was to be blamed for the extra expense. They did not seek alone to give amusements, but went in for new matters in science. The policy was to bring the crowd and thus bring the manufacturers and other exhibitors.

speedy settlement of the renewal of the lease would be the best thing for the success of the association. The report was adopted.

A communication from the Toronto Trades and Labor Council was read asking to be allowed three representatives in the association. It will come up before the new board, which will report to the next annual meeting on a special bylaw as provided for in the charter.

Never during the ten years of its existence is the Industrial Exhibition Association of Toronto held a more important annual meeting than that which was held yesterday aftering on in the City Council Chamber. Generally these meetings have been very tame and everything has been passed without much disturbing has been passed without much disturbed here were several warm discussions, particularly on the relations between the City Council and the Association. President J. J. Withrow was in the chair and presided over a meeting composed of half the association.

"It Takes Meney to Make Money."

Manager Hill then arose and proceeded to explain the increase in the items on the theory that it takes money to make money and last year the profits were \$13,000. He contended that the policy of having new special attractions every year was a good one and in this he was backed up by Mr. G. B. Smith, M. P.P.

Ald. Boustead, Prof. McLelian of the Educational Department, Mr. J. P. Bull, Mr. A.

Russell and Mr. J. B. Gould, spoke favorably of the way matters had been conducted. Treasurer McGee spoke strongly in defence of the association, and in vigorous language distributed among the Irish churches. The Osservatore Romano says the Pope's exceptional affection for Ireland is shown by the large share of costly jubilee gifts which he distributed among the Irish churches. Treasurer McGee spoke strongly in defence of the association, and in vigorous language asid that the increased expenditure was justified by the yearly increasing attendance and revenue and the enormous advantage to the mercantile community.

MESSES. HERING AND GRAY SEND IN THEIR REPORT ON THE SEN AGE AND WATERWORKS.

forded them in the prosecution of their task.

The Conclusions Arrived At.

In effect Messrs. Hering and Gray declare themselves against taking the water supply from the Ridge lakes because of the inferior quality of the water and the limited supply, against the Lake Simcoe scheme on the ground of expense, and also because the water, though much better then that in the Ridge lakes, was still inferior in quality to that of Lake Ontario. The report continues:

Without hesitation, therefore, we advise you to adhere to Lake Ontario, not only as the best source, but also as the one from which at all times you can have an unlimited supply at the least expense.

In the matter of sewage, the experts decide sgainst the irrigation plan on the ground of expense. They advise discharging the sewage near Victoria Park after collecting it by intercepting sewers, as proposed by the City Engineer.

In future the cast from rule is to be adopted that reports of committees will have to be printed before they are considered. The members of the Legislation Committee succeeded in knocking out West Toronto Junction's scheme to annex the property west of High Park yesterday in the Private Bills Com-Corporation men in repairing the Garrison Creek sewer found two live dogs in it, which had been thrown in by some hard-hearted wretch.
