THE object of this Institution is so thoroughly prepare young men for the actual business pursents of life, to impart to them such a knowledge that when called upon to try the stern realities of every day duty they can be performed with regularity and success. To accomplish this perfectly I combine Theory and Fractice; a short time if Theory (three weeks) and you pass to the Practical Department where you buy, self, barter, ship, discount, draw dratts bills of exchange notes, checks, make deposits, &c. The system is conducted on setual business and scientific principles, so that owing to the deep interest taken by young men in this actual trade it is surprising how much is accomplished in a few months.
