WEDNESDAY, NOVEMBER 15th 1922

MINERALS AND MINING ON C. N. R.

Minerals and Mining on the Canadian National Railways is the title of an excellent and comprehensive pamphlet issued by the Industrial and Resources Department of the Railway.

It opens up to the general reader a very good idea of the mineral resources of Canada. This is a subject understood only in a very general way and often not fully appreciated in regions where the resources are by no means small.

In directing attention to the matter the Railway Department is making not only a good business move but also a patriotic and national one which should be followed up by all possible means.

The future prosperity of the National Railways and their importance as a going financial concern is wrapped up to a very marked extent with the development of mining industries in Canada and not the interests of the Railway alone, but the interests of all Canada in developing latent resources and by so doing becoming independent of outside sources which now obtain good Canadian money which would be better spent in the increase of our national prosperity at home.

To take a first and outstanding instance, that of coal. The mineable coal reserves in Canada are estimated at 1,334,269,310,000 tons, a tremendous figure, fuel for a very large number of generations yet unborn. Nevertheless Canada buys over half her coal from the United States. There are doubtless economic reasons for some of this purchasing, but not by any means for all. Any disabilities which the industry carries must some time in the future be removed. This is of special importance to Nova Scotia.

Canada supplies over eighty per cent of the world's supply of asbestos found mostly in Quebec.

Arsenic is chiefly derived in Ontario from ores in the Cobalt district and is recovered in the refining works at Deloro, Thorold and Willard.

Building stone of all kinds, large deposits of the finest kinds of marble exist, yet the greater part used for monumental and decorative purposes comes from the United States.

It might be mentioned just here that splendid granite and building stone in large quantities is found at Nictaux and development work has been and is being carried on to some extent.

At Bronson in Ontario is found the finest body of marble on the Continent of America. China clay of high quality is found near Huberdeau in Quebec Province.

An important potential source of potash is found in feldspar deposits showing 12% to 14%. Attempts to extract it are yet experimental, but doubtless ultimate success will come.

Gold mining has languished in Nova Scotia, but the great cheapening of modes of extraction are directing attention again to this industry.

Hallinger Mine in Porcupine is perhaps today the greatest operating

gold mine in the world. Canada is the world's third largest producer of gypsum, yet the imports a large amount of finished product from the United States. The quality of gypsum found in Canada is very high grade and it occurs very largely in Nova Scotia, Peninsula and in Cape Breton.

Regarding iron, one of our most important minerals. It may be said that the further development of this industry is of the utmost importance and will become more so, for it is computed at the present rate of consumption the Lake Superior region of the U. S. will be nearing exhaustion in twenty-five years.

It has been pointed out that "the expenditure on labor and supplies necessary for the production of the ore and the profits to be derived from its transportation would repay the country many times, whatever the form of assistance given entailed."

The salt industry is being developed at Malagash in Nova Scotia and has flourished for many years in Ontario.

Silver production is most important in British Columbia and in Ontario.

Tungsten is found in quantities in Nova Scotia.

The above refers to only some of the most important minerals. Persons interested in getting a full resume can obtain full particulars from the Industrial and Resources Department.

CANCER PREVENTION

The public gathering this evening at Primrose Theatre will, it is hoped, be well attended. The speakers are all authorities on the various subjects treated and the campaign week on Cancer Control is timely and necessary.

Great progress has been made in the control and treatment of tuberculosis and while Nova Scotia still has an unenviable record in this disease, recent statistics show a marked lessening of this scourge of civilization. This must be attributed to the work of the public health department and the general awakening of the public on matters of this kind.

Cancer, however, is on the increase in the Province. Medical science has demonstrated the fact that both consumption and cancer can be cured in the early stages of the diseases. Public awakening to these facts should lead to the same results in cancer treatment that are now attending efforts to control and lessen consumption. The safe plan when symptoms are discovered is to see your physician. Nowhere can the old adage a stitch in time saves nine be better applied than to the control of deadly diseases. The work of the Red Cross will also form subjects of address. Its splendid efforts through physicians and public health nurses are appreciated by many and the more information as to their work the greater the measure of public approval and support.

CLEMENTSPORT

"THE QUEEN OF THE BASIN"

The Municipal Election is over and Capt. Elias Rawding again takes his seat at the Council table. We congratulate him on the wonderful opportunities that lie before him. He represents a district of coming great developments. The tourist Paradise of Deep Brook and the Queen of the Basin, and he represents the whole district, those who voted against him as well as those who put him in power. This is both the beauty and the irony of it. The work of the contest was exacting and exciting, but it is nothing to be compared to the work that lies in the immediate future if the Council is to do its duty.

Urgent are the demands. Here are a few: Our bridges in the village are half repaired and need immediate attention; our roads are insufficiently protected in dangerous spots with no rails, or rotten ones; the Highway Board will not post danger red lights where the law demands. Get after them Mr. Councilor, in the name of the community you represent. Our assessment should have immediate attention. If a man wants to borrow \$100 at 6% and give real estate security, at least \$200 value is demanded. Do you know that Clark Bros. Pulp Mill plant is assessed \$15,000, while they are raising \$600,000 prior lien bonds on their holdings. See to it that your assessors get busy and assess \$500,000. Let the company protest if they desire and things will get finally straightened out. If the total assessment is higher the rate of taxation will be lower, and that is the one way to do it. There is lots of work for you, Sir, and we will back you in it, and always remember this district is important and its interests should not be sidetracked for any cause whatsoever without a protest from you. We wish you a prosperous, active and fruitful term of office.

Armistice day was kept largely on Sunday, the 11th inst. Throughout St. Clement's Parish, in the Anglican Church the memory of "those who died that we might live" was honored. In the morning at St. John's Church in the greatest memorial service in the world held in loving obedience to Him who said "This do in remembrance of Me". The boys who sleep in Flanders field we included in the "communion of Saints". At the services at St. Matthew's and St. Edward's they were brought to remembrance in the sermons. The red poppies were extensively worn both on Saturday and Sunday. While the "Angelus" was well kept by the thoughtful throughout the land. Flags were floating in the breeze, and every where there was evidence of thankful and reverent remembrance of those who so bravely fought and nobly died.—R. I. P.

Mrs. Colin LeCain is seriously ill at her daughter's, Mrs. Willard Henshaw, Deep Brook. She was stricken with severe pain on Tuesday night, November 7th, and has suffered ever since. Some months ago she underwent an operation in the hospital at Halifax, and was feeling quite recovered, when she was taken suddenly down this time. Her many friends trust she may soon regain her health and strength.

The veteran Capt. Amos Burns tells us that he regards the following as an excellent example of quick despatch:—The schooner Bertha M. Capt. Gardner, arrived in Clementsport at 9 a.m., the 3rd inst., took in part cargo of apples and produce and proceeded to Deep Brook at noon of following day, completed cargo and proceeded to sea on same tide for Clarke's Harbor.

The body of Mrs. Burrill, mother of Mrs. Levina Barns, of Clementsport, was brought from the United States on the noon train on Thursday, November 9th, and was interred in the cemetery at Clementsville, the Rev. I. J. Little officiating.

Miss Margaret Roop, of Halifax, spent Thanksgiving day with her parents, Mr. and Mrs. Joseph Roop. She returned on Tuesday, 7th inst., accompanied by Miss Grace Burns, who is going to make a visit to the Capital City.

Capt. John Roop, of the steamer "Canadian Planter", has been home for a few days, after a trip to Australia, lasting several months. He was up on Sunday, 5th inst., to see his aged father, Joseph Roop.

Mr. Ainsie Brown, who is working at Lawrence town, was home seeing his father and sister, on Friday, 10th inst., returning on the 11th inst.

Miss Hattie Hoyt, of Bridgetown, who has been visiting Mrs. W. H. Horstall, Upper Clements, is now with her sister, Mrs. W. S. Abbott.

Miss LeCain, Round Hill, and Mrs. Layton, Annapolis Royal, spent the week-end with their sister, Mrs. Stewart Roop.

We regret to learn that Mr. Joseph Roop is on the sick list. Trust he may soon recover.

The schooner "Eskimo", Capt. Wm. Burrill, arrived in Lynn on Saturday, 11th inst.

Miss Hanes, of Boston, is visiting Mr. and Mrs. Herbert Hicks.

The Canadian Order of Foresters, with the courts from Smith's Cove and Clementsville, will hold a parade service to the Methodist Church at 3 p.m. Sunday, November 19th. The Rev. Mr. McIntosh will hold the service and give the address.

The energy of the moose hunters does not seem to wane and probably will only cease with the termination of the season. Mr. L. V. Shaw, Mr. Owen Balcom, and Mr. Lee Long went into the Big Lake district on Thursday evening, Nov. 9th. We are expecting great things from them this time.

The body of Mrs. Burrill, mother of Mrs. Levina Barns, of Clementsport, was brought from the United States on the noon train on Thursday, November 9th, and was interred in the cemetery at Clementsville, the Rev. I. J. Little officiating.

Miss Margaret Roop, of Halifax, spent Thanksgiving day with her parents, Mr. and Mrs. Joseph Roop. She returned on Tuesday, 7th inst., accompanied by Miss Grace Burns, who is going to make a visit to the Capital City.

Capt. John Roop, of the steamer "Canadian Planter", has been home for a few days, after a trip to Australia, lasting several months. He was up on Sunday, 5th inst., to see his aged father, Joseph Roop.

We regret to learn that Mr. Joseph Roop is on the sick list. Trust he may soon recover.

The schooner "Eskimo", Capt. Wm. Burrill, arrived in Lynn on Saturday, 11th inst.

Miss Hanes, of Boston, is visiting Mr. and Mrs. Herbert Hicks.

A good grooming costs no money and is equal to two quarts of oats. Stop the holes in the barn. Water the horses several times daily. A horse's stomach is small. Don't fail to use a blanket when the horses become heated. It may save a veterinary bill. Give your stock warm beds. Bedding is cheaper than feed.
