Delegates from Mr. Robb's congregation were next heard, and after realing a written statement of reasons against the translation, they severally addressed the Preshytery, earnestly deprecating the removal of Mr Robb. PRESBYTERY OF HAMILTON.

(To the Editor of the Record.)

Dunnes, 4th Feb'y, 1847.

Dean Sin,-There was not any business of much interest before the Presbytery of Hamilton shorily. at its meeting in January, unless that which was connected with the Missionary department. Some interesting statements were made by the members present in regard to the various fields of labour the Record would have been restored to its ordinary within the extensive bounds of the Presbytery, aging reports were given in by Missionaries, upon. the irregularity will terminate with the publication showing the rapidly improving condition of preaching stations as well as of congregations in con-

we have not as yet been able to publish the outline desirous of being organised, which are rising up of the Model Trust Deed. The delay has been over the country, and the increasing zeal of the occasioned by the deficulty of procuring its satis. Presbyterian population adhering to our Synod factory revision by legal counsel. We have reason in making exertions, to the sacrifice of worldly to believe that it will be in readiness for our next, considerations, to support the ministration of word and ordinance among them. The great subject of painful regret to the Presbytery was, that they had it in their power to do so little to answer the many and urgent demands made upon them, and it seems most accided to increase it upon minds of our people not only in a those whom God in his providence hash fixoured should assist their more needy brethren in regard to spiritual things, but that even the most helpless should exert themselves to the armost in putting the means at the disposal of the Presbytery to obtain as great a number of missionaries as possible, and to extend the sphere and increase the amount of the Mieentering at some length into the state and prospects, sionary surprise. I no field is most extensive and the calls upon us most pressing, and it is only by in affecting terms, his attachment to his present the former can be in any adequate measure occuractive co-operation on the past of our people that pied and cultivated, or the bater sati factorily an-wered. It is, however, encouraging and delightful to think that there is an increasing desire after the ministration of word and ordinance extending used over the land; for, though it is painful not to be able to meet it, it gives ground to troit that He was and created the appellic. will grast what to needful to sausty it. They who are truly hungering and thirting after righteousness shall assuredly be filled. I may mention, for the colouis can of your reasers, within the bounds of our Presh terv, that the meetings of our Home Mission Committee are held in Knox's Church, Hamilton, on the first Monday of every month, at noon-that missionaries are enjoined to forward monthly reports of their labours to the Convener, and likewise that all communications in regard to Missionary supplies are to be a dressed to me, at Dunda.

The Hor e Missor Committee met last Monday, and the existing appoinments which it may be well to notice are as follows --
