MONTREAL, QUE.

THE DAY OF JUDGMENT IS COME AFTER ALL

And the jury have unanimously agreed that all the manufacturers in Canada who are looking out for their interests, are duty bound to protect themselves by using "SYRACUSE BABBITT METAL" only, the manufacturers to decide what grade of babbitt they want to purchase.

For high speed and heavy pressure machinery they may choose such as Aluminum Genuine, Government Genuine, Hard Genuine and Dynamo; for medium speed Special, Manganese, Car Box and Extra: for slow speed No. 1, 2, 3, and 4.

The Syracuse Smelting Works shall have their name on every bar as a guarantee for the quality. Price is to be the lowest in Canada. Also every plumber or manufacturer who has any use whatever for any kind of solder must use the Syracuse Smelting Works' for their own protection.

THE VERDICT.

Everybody who is not using "Syracuse" Babbitt Metal or Solder, in fact any metals they manufacture, is working against their own interests. A word to the wise is sufficient.
