

same privilege be accorded by such examining board or institution to those holding certificates in Quebec. Provided, also, that it shall be *optional* for the Provincial Medical Board to admit to registration all such persons as are duly registered in the medical register of Great Britain, or are otherwise authorized to practice medicine, surgery and midwifery in the United Kingdom of Great Britain and Ireland, upon such terms as the Provincial Medical Board may deem expedient.

That the "Provincial Medical Board:—

(1). Shall from time to time, as occasion may require, make rules and regulations for the guidance of the "Examiners," and may prescribe the subjects and mode of the examinations, the time and place of holding the same, and generally may make all such rules and regulations in respect of such examinations not contrary to the provisions of this act, as they make them expedient and necessary,

(2). It shall regulate the study of Medicine, Surgery and Midwifery by making rules with regard to the preliminary qualifications, duration of study, and curriculum of studies to be followed by the students.

Provided always that such rules shall not be contrary to the provisions of this act,—and that any change in the curriculum of studies fixed by the Board shall not come into effect until one year after such change is made.

8th. That the Provincial Medical Board shall have the power to fix by law the salary or fees to be paid to the "Officers," and to the "Examiners" appointed by the said Board; as well, also, the fees to be paid by all candidates entering on the study of medicine, as also by all candidates for the license to practice medicine, surgery and midwifery, as well as the fee to be paid for registration; and the said Board may dispose of all fees received in whatever manner they may think most conducive to the interests of the College.

[These amendments were considered by the Board of Governors of the Collège at their Semi-Annual meeting, held in Montreal, on the 10th of May. We have only time to say that in the main all the amendments received the endorsement of the Board. It was decided, however, that that portion of the 4th clause should be altered, so as not to specify the numbers of examiners, as regards nationality—simply that there

shall be nine examiners. It was likewise decided not to exclude Governors of the College from being named examiners—but, if such appointment should be accepted by them, they would be required to resign their Governorship; a committee was named to draft a bill founded on the above amendments, and to be ready to report at the October meeting of the Governors.—*Editor Record.*]

PERSONAL.

Dr. R. A. Kennedy, of Montreal, who has passed the winter at Canon City, Colorado returned to Montreal on the 5th of May. His friends will be glad to know that his health has greatly improved, and that there is every reason to hope that his restoration is complete. We hope shortly to publish from his pen, some interesting papers on Colorado, as a resort for invalids.
