

PARKE, DAVIS & CO.'S PRICE LIST.—We cannot deny that the highest praise is merited by the last edition of Parke, Davis & Co.'s Priced Catalogue. It was prepared in Canada, printed in Canada, and embodies an array of nearly five thousand preparations, every one of which is manufactured at the Walkerville Laboratory of this great house. Not alone does this list set forth formulæ and prices of each item in the twenty-nine extensive lines manufactured by Parke, Davis & Co., but it also contains in convenient form a vast fund of information which makes it permanently valuable for purposes of reference. Thirty-five pages are devoted to a most useful "property and dose list" of drugs from which Parke, Davis & Co. manufacture a fluid, solid, or powdered extract or concentration. Every paragraph in the eighteen pages on "Notes of Reference" is a valuable nugget of information. The list is compactly and handsomely printed, and is sent without charge to every physician who asks for a copy. Do not fail to write for one of these catalogues, and when you get it keep it within easy reach, for it will answer a thousand queries relating to drugs, their uses, doses, prices, and pharmaceutical preparations.

MULFORD'S NEW BROCHURE.—We are in receipt of a copy of Mulford Company's 1898 Antitoxin Brochure recently from the press. It is a great improvement on that of last year, for which there was an unexcelled demand, and is a valuable reference book for physicians. The subjects of antitoxin dosage, symptomatic treatment of cases seen later and immunization are the best and fullest ever given. There is a novel and valuable section on official reports on the use of antitoxin, which will be highly appreciated. The book is handsomely finished, and is easily without parallel in trade literature. It should be in every physician's office. The book will be mailed gratis upon receipt of request.

A TREATISE ON "UNRIPE" CATARACT. By William K. McKeown, M.D., M.Ch. Surgeon to the Ulster Eye, Ear and Throat Hospital, Belfast; member of the Senate of the Royal University of Ireland; Lecturer, etc., etc., Queen's College, Belfast. Illustrated with nine plates and sixty original drawings. 202 pages, 8vo. Price, 12s. 6d. net. London: H. K. Lewis, 136 Gower street, W.C.

We have received the A.K. Skelton Calendar for 1899. It is another of those interesting series of Skeleton Sketches by the late Dr. L. Crusins. Any physician who has not received one will have one forwarded on request to the Antikamnia Chemical Co., St. Louis, Mo.

E. B. Treat & Co. announce that, with the January, 1899, number, they become the sole owners of *Archives of Pediatrics*, having purchased the interest of its founder and former owner, William Perry Watson, M.D. The *Archives* completes its XVth Volume with 1898, and is today the leading journal devoted to pediatrics.
