THE CHRISTIAN BROTHERS SCHOOLS.

The following is the reply of his Excellency, Mgr. Conroy to the address delivered to him by the children of the Brothers school, on Wednesday the nineteenth:—

My DEAR CHILDREN,—I sincerely thank you for the hearty welcome and graceful address you have offered me. Since my arrival in Canada, I have already visited a large portion of your fine country; during my journey, what delighted me most was to observe not only here but everywhere, the youth being educated in heart, as well as mind.

Dear Children, you have welcomed in me the representative of His Holiness Pope Pius IX; it is in fact as representative of the Immortal Pontiff, whose glorious reign and long career astonish the whole world, that I am here; it is as representative of Pope Pius IX, that I will now give you his benediction.

PRACTICAL GUIDE FOR CONFESION AND COMMUNION. A short treatise on the Sacrament of Penance for the use of Schools and Colleges.

LANDRETH'S Seed Warehouse, PHILADELPHIA.

We wish to call attention to our Bloomsdale strains of ONION SEED. It has ever been our practice, owing to the force of climatic influences, to select the finest and largest size Onions called, the growth of the preceding year, and not direct from the seed proper; as a result in a long series of years, generations on generations of Onions, a habit has been confirmed and established of precocious budding; consequently (black) seed raised here in the southeastern corner of Pennsylvania, when transported northward carries with it, it is believed, the fixed habit of early ripening, and crops of large onions it is confidently predicted may be produced at the North from such seed in advance of the season, and free from the "stiff-neck" so abundantly produced by seed raised in a colder climate.

An experiment the present season, made with the Bloomsdale strain of Early Red Wisconsin, in latitude 44.8, (North of the most frequent site of Frost), gives the most surprising results; another with the same variety in Nebraska, latitude 41.8, excited the highest admiration—not a single stiff-neck was observed.

The facts are at least highly suggestive, and merit the examination of NORTHERN and NORTHWESTERN onion growers and dealers in seed. We especially commend the EARLY RED—it is incomparably superior to the "Wethersfield" or "New England Red." The "Early Red" is a true "Early Red" (unprecedentedly low) on application, 1600 ACRES IN SEEDS. Send for Catalogue.
