The following are the morning sales:—40 Montreal at 145; 18 do at 145; 5 do at 145; 10 do at 145; 25 Ontario at 84; 25 do at 84; 75 do at 84; 50 do at 85; 50 Jacques Cartier, 75; 25 do at 84; 50 do at 85; 50 Jacques Cartier, 75; 25 do at 76; 25 do at 76; 25 do at 100; 25 do at 114; 25 do at 115; 30 do at 110; 10 City Bas at 134; 15 do at 135; 30 do at 135; 35 do at 134; 30 do at 135; 30 do at 135; 30 do at 134; 30 do at 135

This afternoon the market continued strong. This afternoon the market continued strong, though haidly so excited as this morning. Montreal and Ontario were steady, with sales at the highest figures reached this morning. Molsons' sold at 93, an advance of 2 per cent. compared with the last sale which occurred on the 20th of July. Merchants' sold at 102 this afternoon, an advance of 1 per cent. over the highest figure reached this morning. At the close 1013 was offered, 1021 asked. Commerce sold up to 2 per cent. to 1243. Other stocks about steady, Richelieu being, if anything, slightly weaker.

COMMERCIAL.

WHOLESALE PRICES.

WHOLESALE PRICES.

PLOUR.—Receipts 3.795.barrels. The market is very weak and quiet. Sales were mostly at inside figures, and, in most instances, below what would have been accepted yesterday. 150 bols Superior Extra at \$5.70; 200 do Extra Superine at \$5.60; 100 do Spring Extra, \$5.70; 150 do Superine at \$5.60; 100 do Spring Extra, \$5.70; 150 do Superine at \$5.55.½; 200 Ontario Bags at \$2.20. The following are the quotations which are not quotably lower than those of yesterday: Superior Extra, \$5.65 to 5.76; Extra Superine \$6.50 to 5.70; Superine, \$5.25 to 5.50; Strong Bakers' \$6.00 to 6.50; Fine, \$4.65 to 4.75; Middlings, \$4.15 to 4.30; Pollarda, \$3.70 to 3.90; Ontario Bags, per 100 lbs., \$2.80 to 2.90; City Bags (delivered), \$3.10 to 3.15.

MEALS -Ontario Oatmeal, \$4.40 to 4.50 per bbl; Cornmeal, \$2.50 to 2.60 per bbl, Cornmeal, \$2.50 to 2.60 per bbl.

Darry Produce.—Butter, receipts 1,215 packages. The market is quiet and weak. Dealers have been purchasing at prices here which, though warranted by special orders, was above the general market price based upon English prices, and the consequence is that they have withdrawn from the market at present. The consequence is that Western is being offered at 161c to 17c. Brockville and Morrisburg at 17tc to 181c, and Eastern Townships at 21c to 211c, without finding buyers. It is also known that low and medium qualities, especially of latter, are accumulating in the country, as 15.000 to 16 000 packages of Western are in two or three hands in the country. Cheese, receipts, 2,073 boxes. The market is very quiet. July make is being marketed at from 91c to 10c per 1b. The English market is nearly 53s per cwt. EGGS are quiet at 121c to 13c per doz. Hog Produce unchanged, Ashes Pots, \$4.50 to \$4.55 per 100 lbs.

WHOLESALE PROVISION MARKET.

There is a tendency to ease in the butter market and every appearances of a serious break." Free offerings of Eastern Townships are said to have been made at 20c to 21c, while Morrisburg has been placed at 18c and 18jc without inducing a bid. The supply of Western butter both in the country and in the city warehouses is now said to be much larger than previously dreamt of by many in the trade, and 16c cannot now be obtained for fine parcels of this grade. Oreamery is nominally 23c to 24c, although lower rates may now be accepted. In the absence of business, due to the difference in the views of buyers and sellers, we cannot safely repeat quotations to-day. Cheese was steady and quiet at 99c to 10jc. The English market as reported by cable from Liverpool is unchanged at 53s per cwt. Eggs are only in moderate demand at 12jc to 18c. Pork and lard were firmer in Chicago, but unchanged here. We quote: Canada heavy mess pork, \$17.50; thin do, \$16.50; Chicago, \$17 to \$17.50. Fairbank's lard, 11c: Canadian do, 10jc. Hams 12c to 12jc for uncovered; canvassed, 12j to 18c. The Belleville, Ont., cheese market on Saturday was firm and one factory contracted for the season at 11jc. Prices offered for July cheese were 10j to 10j, and a factory sold at 10j. At Little Falls the latest sales were at 10c to 10j, and at Utica prices ranged from 9j to 10j. WHOLESALE PROVISION MARKET.

CITY RETAIL MARKETS.

The splendid weather of this morning was probably in part responsible for the large attendance of sellers and the unusually fine assortment of fruit and vegetables to be seen at both these markets. The supply of apples was larger than it has yet been this season, and prices were lower, sales being made of American fruit at \$\frac{3}{2}\$ upwards, and of Canadian from \$\frac{3}{2}\$1.25, the barrel in the latter case being larger. The receipts of Saguenay blueberries by boat today were the largest yet—2,000 boxes—and sales were at 600 to 750. Lemons were being unloaded from the mail steamer Sarmatian, and in consequence of the increased supply, prices were down to \$6.50 and \$7.50 per case. Peaches from Grimsby and Hamilton, Ont., found slow sale at \$1 to \$1.25 per basket. Bartlett pears were not plentiful, and were held at \$10 per bbl.; bell-shaped pears from Rochester, N. Y., declined to \$4.50 per bbl. The supply of meal and grain was large and fully equal to the demand. FLOUR, MEAL AND GRAIN.—Flour, per 100 lbs, \$3.00 to 3.20: Buokwheat flour, dc, \$2.00 : Oat-maeal. dc, \$2.25 to 2.40; Cornmeal, yellow, do, \$1.25; white, do, 1.30; Moulile, do, 1.20 to 1.40; bran, 80; barley, per bush, 65c to 75c; oats, per bag, 90c to \$1; peas, per bush, 90c to \$1.10; buokwheat, per bush, 60c.

TORONTO MARKETS.

CATTLE MARKETS.

MONTREAL, August 2.

Eleven or twelve carloads of cattle were received at St. Gabriel's market to-day, a good portion of which consisted of fair shipping stock. On export account several lots of fine steers changed hands at 5 ic to 5 ic per 1b. live weight, the range being from 4 ic to 5 ic. Butchers paid from 3 c to 4 c per 1b. live weight for medium to good grades. Inferior cattle sold at lower figures. Drovers complain that farmers expect them to pay the same prices in the country as are quoted grades. Interior cattle sold at lower ligures. Drovers complain that farmers expect them to pay the same prices in the country as are quoted on this market. The drovers have themselves only to blame for that, as they have frequently gone into the country straight from this market aud bought at the same price they reported their own sales at, and farmers have very naturally concluded that if they can do that kind of thing once and make a profit, they can afford to do it all the time. This is the result of giving sales at figures below the market for the sake of facilitating further purchases in the country. Hogs sold at \$6 per 100 lbs, J. Elliott selling 13 head at that figure. Sheep are quuted at 4½ to 4½ c per lb, and lambs at \$2.50 to \$3.50 each. The receipts of live stock at Point St. Charles last week were \$3 carloads of cattle. 72 carloads of sheep, 5 carloads of bogs and 4 horses. The shipments from this port to Great Britain for the month of July last were 4,657 cattle, 32,812 sheep and 576 hogs.

THE HORSE MARKET.

THE HORSE MARKET.

Montreal, August 2.

The horse market has been exceedingly dull during the past week, very few sales having transpired either on export or local account. There were signs, however, of improvement to day, nine American buyers having put in their appearance, which is more than has been seen in this market for some time past. Several sales were made to day, among which were reported one brown horse, six years old, weighing 1,100 lbs, at \$95; one bay mare, six years old, standing 16 hands 3 inches, for \$9, and one bay horse, seven years old, weighing 1,050 ibs, for \$105. Mr. James Maguire sold three common horses only at the College street market during the past week, at \$96, \$35 and \$29 respectively. One of our local dealers has just returned from the country with five animals, and he complains of the difficulty he experienced in securing them, the farmers being too busy in getting in their crops to turn their attention to horse trading. The shipments from this city to the United States during the week ending Saturday, July 31st, were 35 horses, costing \$2,244 for the week previous. The average price paid during the week was \$95.80 per head. To-day 17 horses were shipped to the states, costing \$1,726, or about \$101.50 each. The following were the parties who shipped horses from this city since our last report:—James McFarley, Green Island, N. Y.; H. L. Smith, Providence, R. I.; Thomas Turney, St. Albans, Vt.; S. Wilkerson, Rhinebeck, N. Y.; C. F. Butters, Lowell, Mass.; M. Hicks, Holyoak, Mass. The following were the shipments of horses from Montreal for week ending Saturday, July 31st.—July 25th, 6 horses, \$815.50.

A report of the Alvany market on Saturday last says:—The trade rules quiet, and we can only note the Alvany market on Saturday last says:—The trade rules quiet, and we can MONTREAL, August 2.

A report o' the Alvany market on Saturday last says:—The trade rules quiet, and we can only note the following sales, as reported by P. L. Eastman:—One worker at \$125; one do. at \$10; one do. at \$110; one pair do. at \$325; nine others, workers and drivers, on p. t.

THE HAY MARKET.

Montreal, August 2. Montreal, August 2.

Although the receipts of hay during the past week were not large, amounting to about 250 loads, they have been ample for all requirements, and prices are about as we quoted them a week ago. Bales ranged to-day from \$5.50 to \$7.50 per 100 bundles, most of the transactions being reported at \$7 for good timothy. A few straggling loads of old hay are brought to market, for which there is ccarcely any enquiry, and latest sales of such were made at \$8. The quality of the new hay, generally, is very good. Straw was in fair supply at \$2.50 to \$4 as to quality.

AGRICULTURAL.

AGRICULTURAL.

Sowing Wheat.—When wheat follows oats, the cat stubble should be plowed as soon as the crop is removed from the field, otherwise the dry weather, that so frequently comes in early autumn, win mak the soil dry and hard, and it then can only be worked with difficulty. Wheat requires a fine, mellow soil, and if any clods remain after the first harrowing, the work of pulverizing the soil should be continued until all clods are reduced to a fine state. The roller and the Disk harrow are both excellent implements in briging the soil into a proper condition. Drilling is by far. the best method of sowing: it secures uniformity in depth, and saves seed by putting all the grains in a proper place for growth. Fiveor six pecks of grain is sufficient seed per acre when the drill is used. Of late some farmers are testing the value of cultivating wheat, and their results are most uniformly in favor of the practice. In sowing, the alternate spouts of the grain drill are closed, and the seed sown in rows about 16 inches apart, It is not difficult to construct a cultivator that will work between these rows by means of which the soil may be keptioose and free from weeds. Much depends upon the variety of wheat sown. Of the several kinds now "in the field," the Clawson takes very high rank, and is the one found to be generally preferred in the wheat regions we have recently visited. Early sowing is best except when there is danger from the Hessian fly, when the late sowing is preferred, but owing to the poor growth made in autumn only an average crop may be expected from sowing late to escape the fly—it is a choice between two evils, the lesser of which is sowing the seed late.

Rye is not so valuable a crop as wheat; but it has the advantage over wheat of doing well on a poorer soil. It should be borne in mind that a soil that is not rich enough to grow a good crop of rye can, by a dressing of 250 to 300 pounds of fertillizer, be made to produce a much more profitable crop of wheat. If the rye is grown for the straw

farm animals. Winter Oats have succeeded in some parts of the South, but are not a safe crop for the North. The seed is sown next mouth, but the preparation for it is now made, and the more thorough

Muck.—This valuable material for the barnyard, stable, an compost beap, can be dug with greatest ease and profit at this season. It may be drawn out into a heap; near by, with a team and a dump soraper, where it can get dried out, and afterwards be drawn to the place where it is to be used.

The attention of the public is respectfully called to the me-Spiral Lock-Spring Mattress which for durability, cleanliness, elasticity and cheapness, surpasses anything of the kind now in the market. The Lock-Spring is warranted to be of the best of steel wire, and it requires only a twenty-five pound mattress to make the meet comfortable bed in use, Thousands are trying it and all pronounce it a great success. The spring is so constructed that a person weighing 200 pounds and a child weighing 50 pounds do not suffer any inconvenience by lying side by side. Unlike other mattresses, the LOCK-SPRING never runs into ridges, but preserves its uniformity, no matter how much or how little pressure it may be subjected to. It is noi-cless, and is the only spring in use that possesses that quality. Nothing so good for Howpitals, Hotels or Ships has ever been invented.

Springs given on trial to parties residing in the city, and money refunded if the Springs made to fit all sizes of beds on short notice, but if made for bedsteads not of the ordinary size, the springs cannot be taken back.
