

# THE SECRET

of the success of the Safford Boiler is plainly evidenced by a glance at this interior view. If you are still like the "gentleman from Missouri," we are here to show you.

*The deep Fire Pot means added heating power, fuel economy, thoroughly burnt fuel, less attention.*

*The Cast Iron Nipple connection will last as long as the Boiler. No Rubber Gaskets to replace every few years*

*The absolutely even metal lines assures rapidity of circulation.*

*The wide flue openings and spaces lessen soot deposits, allow ease in cleaning and accelerates circulation in the upper sections as a result of higher temperatures in the gases.*

## Safford Boilers and Radiators

are absolutely guaranteed.
