

MOTORING TOGS EXPLOIT NOVELTY

Practicability and Attraction Main Features of Outing Costume.

SILK MOTOR WRAPS

In Plaid and Striped Effects Are Favored by the Devotee.

Week-end motor trips call for smart, practical and attractive outing togs—clothes that will stand a drenching in a June thunderstorm and still look presentable. The outside wrap, of course, is the all-important item, and the very latest motor wraps feature waterproof silks and fabrics which are also splendid dusters, protecting a smart costume from dust and damp and at the same time giving a chic appearance.

The Balmacaan is prime favorite. Its loose, roomy construction, good lines and mannish tailored effect are features that prove most attractive. High rolling collars, big patch pockets, and cuffs that extend half way to the elbow, lend modishness to the most exclusive models, while belts and huge saucer buttons are quite fascinating.

The very brightest of colors are employed in fashioning these stunning sports coats. Bright silks—yellow in an absolutely brilliant hue, is a favorite—are considered in excellent taste, and plaid and striped effects used to a great extent. Rajas, heavy wash silks and pretty taffetas rival the gold and other cloth materials, while corded effects are in great demand. Smart little sports hats and bewitching motor bonnets in harmonizing silks are worn, and practical high boots and heavy kid gloves.

AN OPPORTUNE TIME TO LEND ASSISTANCE

Secours National Will Benefit by All Who Visit "Benvenuto" on Thursday.

An opportunity open to all is that of going to "Benvenuto" on Thursday afternoon of this week, and by so doing see the delightful gardens and grounds of Sir William and Lady Mackenzie and at the same time help on the good work of the Secours National.

Anyone who has walked under the spreading trees or looked upon the lovely Italian flower plots will welcome the chance of seeing them again. Those not yet so fortunate have a treat in store.

All know by this time what the Secours National stands for and what it means to the allies in northern France. This garden party at "Benvenuto" is only one of the various methods that have been suggested themselves to the enthusiastic committee for the purpose of raising funds for the destitute French.

Fifty cents is not a great deal, but fifty cents multiplied a couple of thousand times or more would do a good deal in the way of assisting those for whom the Secours National works. Don't miss this double opportunity.

The Best Treatment For Constipation

The Experience of One Who Knows and Places Dr. Chase's Kidney Liver Pills First.

It is not difficult to secure a medicine that will effect movement of the bowels. No cure constipation and the complications which arise from it is another matter.

Constipation of the bowels is usually preceded by torpid action of the liver. Hence it follows that if constipation is to be cured the liver must be set right. And here lies the secret of the success of Dr. Chase's Kidney-Liver Pills. They awaken the action of the liver and insure a good flow of bile, which is nature's cathartic. The liver, kidneys and bowels are invigorated and regulated and the troubles with the digestive system disappear.

Mr. H. M. Bell, Inglewood, Alta., writes: "For some considerable time I have been using Dr. Chase's Kidney-Liver Pills, which I have obtained through your firm. I suppose during my life I have used nearly all the best-known pills, as I have been sub-

Notes of Women's World

Principal McKay has arranged a tour of inspection of the new technical school for the lecture committee of the Women's Art Association this afternoon. Dr. McKay will speak on the proposed work of the school, and will conduct the members thru the building at 3.30 p.m. Entrance on Lippincott street.

The last military euvre of the season to be given by the Women's Conservative Club will be held this afternoon in the club rooms, 1974 Simcoe street, at 8 o'clock. The proceeds will be in aid of the soldiers' sock fund of the club. Members are asked to bring their friends.

Miss Constance Boulton will address the High Park Soldiers' Aid Class on Thursday at 3 p.m. in the High Park Presbyterian Church.

The last of the series of Red Cross luncheons will take place today in the Little Blue Tea Rooms, 97 Yonge street.

Beginning Monday, June 21, the Patriotic League will open a large work room to volunteer helpers for the remainder of the summer. In spite of the fact that so many Red Cross circles are closing for the holiday months the work and need of supplies continues urgent. Materials will be furnished and all willing to give some time are urged to attend.

Mrs. H. D. Warren reports that the doll department at P. L. headquarters is in need of more materials—silks, laces, velvets and satins for doll clothes, and materials for making hospital shoes. Tweeds, flannels and old pieces of awnings and other coarse materials will be accepted.

On the doll department of the Toronto Women's Patriotic League, reports that money is very badly needed to buy food for the Belgians. The proceeds of the play, "D.D.D." given for the Belgian soldiers, have been forwarded to Mrs. Agar Adamson for distribution.

The Toronto Women's Patriotic League has received 50 pairs of socks for the soldiers from 27 Ross avenue, Toronto, all knitted by Mrs. MacDonald, 51 years of age, from the Town of Stornaway, Scotland.

Tomorrow the last of the Red Cross luncheons which Mrs. Piper has been giving for the Toronto Women's Patriotic League will be held at the Little Blue Tea Rooms, 97 Yonge street.

On Friday afternoon the Sunshine Circle will meet in the physics building to make bandages for the University Base Hospital.

The Sunshine Circle will meet every Tuesday in the physics building to make bandages for the University Base Hospital.

Plants Suitable for Borders (Continued).

Little Blue Lobelia and English Daisy. And do we forget lobelia, a very popular and easily grown plant of blossoms, almost true blue (save for its staining white eye), and deep, dark green delicate foliage.

You will remember, my gardeners, that during scarlet blossom week, we spoke of the cardinal flower, which is our own native red lobelia, not a dwarf as blue lobelia is.

Blue lobelia is not a native, and therefore, has to be raised as an annual from seed every year. And this is the way you will have to obtain the plants, either by sowing seed very early or by purchasing plants from the florist already for your transplanting.

While the plant is rather of diffuse habit, straggling along some six or eight inches, in some varieties, there is the stiff little dwarf kind that grows in a sturdy dense little upright bush covered with dark, true-blue blossoms, whose alert white seems always on the watch for something. This was the plant in very popular with gardeners who want a border that will stay "put," and not go sprawling all over the lawn, the character of its prim habit, therefore, makes it a good plant for formal beds.

To me, blue lobelia never has appealed the way, for instance, myosotis. Myosotis is so lovable because it is so loving. It just simply winds its tender sprays round your heart so closely that you can never for a moment forget it. It is the very perfection of human love displayed as only a flower can display it. On the other hand, blue lobelia, while striving to reach the perfection of true blue blossoms, will never, never do so until it is closely guarded by the hand of a gardener.

Don't you believe it? Well, just plant a row of blue lobelias, and then see how comfortable you feel with their judging eyes forever on the lookout for something to do, and so lobelia will not grow as well for me as those of any kind.

The blossoms last well into the fall, but because of their very short stems, are not very suitable for bouquets of any kind.

Now here's the English daisy, one of the most neglected of border plants because to many gardeners will not take the trouble to study its very simple needs. Daisy, being one of our "surface rooters," needs a point I have tried constantly to press in your mind. It has no long root or roots going deeply for water to sustain it thru two or three days of very hot sun. One day's hot sun will make daisy very thirsty.

Give daisy a good cooling drink in the morning as well as the night before. Constant cultivating around its bunch of thready roots will do much to withstand the intensive rays of a direct sun.

The sturdy little inch-wide pink or white close-set rosettes of fine petals come singly on the ends of three or four-inch high stems, and one single root will produce from ten to a dozen blossoms at the same time, and all summer and fall long, given care which means water, water, and more water. The wide broad leaves, two inches one way and four the other make a delightful dark green shining underground show when the flowering blossoms lift themselves. Try English daisy.

(Continued.)

GRADUATING EXERCISES WERE HELD LAST NIGHT

Successful Students of Moulton College Given Certificates at Closing in McMaster Hall.

Moulton College held its twenty-seventh graduation exercises last night in the recital hall of the McMaster University. Belle Beveridge, Hilda Beatrice Chalmers, Annie Gordon, and Dorothy Stanton Harby obtained their matriculation certificates, and Kathleen Holby Penton and Xenia Knechtke the diploma of matriculation.

Chancellor McCrimmon of McMaster University, presented the diplomas. Miss Ellis, principal of the College, gave an address on the school year.

Dr. Helen McMurchy gave a very fitting address on patriotism. Miss Smart directed a girl's chorus of about fifty voices in several selections.

SUNDAY GOLF IS AGAIN CONDEMNED

Committee Censures Desecration of Sabbath by Various Amusements.

DIGNITY OF MINISTRY

Objection to Preachers Wearing Gray Suits and Colored Ties.

Sunday amusements were severely censured by the Toronto Methodist Conference at Elm Street Church yesterday.

Sunday baseball was condemned by the Sabbath observance committee in their report, which stated that in some parts of northern Ontario teams play league games on Sunday with no charge made, but with a collection taken. This, the committee believed, was a violation of the spirit if not the letter of the law.

The report scored the playing of Sunday golf and said: "In our condemnation of Sunday amusements, we must include private golf links, where individuals who are able to afford it are able to gratify their desires in this direction, and yet do not contravene the letter of the Lord's Day Act."

"We urge the adoption of Lord's Day week being from Easter Sunday over the Sunday following."

Desecrating Sunday. "We believe that the growing desecration of the Lord's Day is seriously affecting church and Sunday school attendance, and that it is detrimental to the development of that Christian character which is the vital bulwark of our church and nation. We have no hesitation in stating that the fact that many of our people are positively drifting into the sin of Sunday desecration, in work at home, and in pleasure, who, if the serious nature of the habit and its effect upon home, church and state, were brought to their attention, would desist and become constant observers of the holy day."

Dr. Griffin, in the course of an appeal for support of the superannuation fund, spoke of the dignity of the ministry. He declared, however, that preachers who went about wearing gray suits and colored ties gave rise to the assumption that they were seeking to hide the identity of their calling.

An addition to the report of the committee on temperance was made by the adoption of a resolution giving "thanks to God for the Christian example set by the King in abolishing liquor from his table and that the czar has dealt the monster such a telling blow."

The conference passed a resolution of regret that 35 circuits reported not a single convert during the year.

A. R. CLARKE BETTER. G. B. Clarke of 72 Roxboro street, who had booked passage on the St. Paul for England, returned from New York yesterday. His father has been seriously ill in England, having been given up three times by the doctors. His mother cabled there was no necessity to come as the father was improving.

ROYAL COLONIAL INSTITUTE.

LONDON, June 15.—The following Canadians have been elected to the Royal Colonial Institute: Claude P. Evans, Brandon, Man.; Lieut. Burritt H. Kelly, M.B., Peterboro; Henry A. Powell, K.C., St. John, N.B.

BEAUTY DOCTOR TELLS SECRET

Detroit Beauty Doctor Gives Simple Recipe to Darken Gray Hair and Promote Its Growth.

Miss Alice Whitney, a well-known beauty doctor of Detroit, Mich., recently gave out the following statement: "Anyone can prepare a simple mixture at home, at very little cost, that will darken gray hair, promote its growth and make it soft and glossy. To a half pint of water add 1 oz. of bay rum, a small amount of Orlean Compound and 1-4 oz. of glycerine. These ingredients can be bought at any drug store at very little cost. Apply to the hair twice a week until the desired shade is obtained. This will make a gray-haired person look twenty years younger. It is also fine to promote the growth of the hair, relieve itching and scalp disease and is excellent for dandruff and falling hair."

WOMEN'S SUFFRAGE UNDER DISCUSSION

First Annual Meeting of Societies Held With Enthusiasm.

WILL TAKE NO ACTION

Prohibition of Pictures Not Uppermost, But Burlesque is Opposed.

Questions covering a wide range of territory were discussed at the first annual meeting of the National Union of Women's Suffrage Societies which met yesterday at 60 Bond street.

Unmistakable evidence of inner interests was given by the bright yellow pennants with the motto, "Votes for women," which blazoned the doorposts and pointed the way to the place of meeting.

Enthusiasm and satisfaction were notes in the address of the president, Mrs. L. A. Hamilton, who stated that Gen. French, who had been an anti-suffragist, had been converted by the splendid work of the women. Recognition was being given by Great Britain to Dr. Garrett Anderson and her daughter, pioneer women of England.

The political situation in England was looked upon as something for which to be thankful. "We, too, are seeking coalition," said the president.

Social service work of every description was laid down as a platform of action, and a telling point was scored when Mrs. Hamilton stated that "if ever again I have the honor to be appointed to an industrial institution, I will ask that two or three of the hungry men themselves be placed on the committee as well."

It was decided to take no action regarding the prohibition of the suffrage picture film at present in Montreal, entitled, "Your Girl and Mine," but the executive have entered protest against the burlesque on suffrage presented last year in the Midway of the National Exhibition.

The hope that in the future Mothers' Day may be used for extensive propaganda work in suffrage was expressed by the recording secretary, Mrs. Lang, who also told of the dissemination of suffrage literature thru the Dominion.

During the year Ontario and Quebec, with 12 individual societies, have become affiliated. It was also reported that hope of the members had attended The Hague Conference, the suffrage work in Ontario had been taken up by the executive.

The wrap, an exquisite creation in white and pink, is now on exhibition at Murray-Kay's, and those wishing to make a face-simile may learn the secret at the cost of a dollar a lesson, illustrating the proverb of killing two birds with one stone. They get their knowledge and give their aid. Mrs. McIntosh hopes for a big class.

TORONTO REGIMENTS STRONG.

Have Given 6077 Men for Overseas Service and Recruiting is Over.

Toronto infantry regiments have given 6077 men for overseas service. Taking the various branches of the service over 12,000 men and officers have been raised. The Q. O. R. have counted 2000, 48th Highlanders 1523, Royal Grenadiers 900, 108th Rangers 460, 86th Foot 600, 12th York Rangers 600. The establishment of the strength of these regiments is 2846, but at present it exceeds this number with a total of 4156 men.

MANUFACTURERS SHOULD DISREGARD FAKE AGENTS

Dealings With Governments Ought to Be Done Directly, Doing Away With "Parasites."

Aemilius Jarvis, who has just returned from Russia and England, stated in the course of an interview yesterday, that the war has developed a class of men who can be termed as "four-flushing parasites." "They represent themselves as exclusive agents thru whom business with army officials or factories must be done," said Mr. Jarvis. "The fact is that Canadian manufacturers who seek war contracts should, and can, deal direct with government officials both in Russia and Great Britain."

He said that the Canadian soldiers were now rated in England as high as the guards of the British army as a result of their grand showing in action. Their fine example of tenacity and efficiency had done much to wipe out the stigma of unbusiness-like methods of which certain Canadian manufacturers have been guilty since war began.

ONE OTHER MANNER IN WHICH TO HELP SAVED LITTLE GIRL ON BOARD LUSITANIA

Learn to Make This Wrap and Fee Goes to Red Cross Society.

That necessity is the mother of invention was never better exemplified than at present when so many plans for helping the patriotic cause are suggesting themselves on every hand.

Among the pretty things from which money may be obtained to help the cause, is the teaching to girls and women wishing to learn, the making of a most beautiful and cosy evening wrap, the fee of the teacher to go to the funds of the Red Cross.

Mrs. A. K. McIntosh of 53 Pacific avenue has designed the "Rose Adelaide," a combination of knitting and crocheting, the materials used being Shetland flax, ivory and satin ribbon, and the completed evolution a piece of expert work from deft and artistic fingers. Mrs. McIntosh has taken pains for her productions at the "Dominion Exhibition," which means that her instruction is of value.

The wrap, an exquisite creation in white and pink, is now on exhibition at Murray-Kay's, and those wishing to make a face-simile may learn the secret at the cost of a dollar a lesson, illustrating the proverb of killing two birds with one stone. They get their knowledge and give their aid. Mrs. McIntosh hopes for a big class.

Little concern is showed by Londoners, he said, to the Zepplin raid. Although the authorities have given instructions to the citizens to take to their cellars when the airships are sighted the people get out with night glasses and treat the whole matter as a novelty.
