Messrs The Watrous Engine Works Co
Brantford
Gents

Your favor of the 29th June duly received, and we have much pleasure in stating that the new improved "Allis" Band Mill we purchased from you last Fall and placed in our mill this Spring is giving us the utmost satisfaction. We are averaging about 7000 feet per day more lumber than we cut with the Circular rig and the lumber is smoother and looks better in every respect, besides we are getting fifteen per cent more out of the log than we could get with the circular owing to the great saving in sawdust. We consider it the best Band ^{mill} on the market at present wishing you success

Yours Truly
HUNTSVILLE LUMBER CO. Ltd.
