SPECIAL REMEDY
-FOR-

Hear the voice of the people of Glencoe, and others too numerous to mention. It has been rumoured that

PROFESSOR A. H. WESLEY

of the Village of Glencoe, was summoned by the Doctors
NEVERTHELESS IT IS TRUE.

I will call your attention to the evidence of Mrs. McEachern, of Glencoe, who swears that Prof. Wesley did only sell her remedies that did her good, and would have done her more good had she persisted in the use of them longer. Her trouble was a bad case of Liver Complaint and General Weakness.

Also, Mr. Hector McFarlane, Clerk of the Township of Ekfrid, near Glencoe, who swears that his daughter had been ailing for nearly five years when she began to use the Professor's medicine, and that it did her so much good that she persisted in the use of it several months. Her case was pronounced Consumption by the most eminent physicians.

Also, Mr. James Mitchel, of Glencoe, who swears that he had been treated by nine different Physicians, and three of the most eminent of the nine said he had Consumption. He afterwards could not walk twenty rods, and by the persistent use of Prof. Wesley's Archangel Herb Remedy for four months, he was well and able to work. Also, he used it successfully in a bad case of Catarrh.

Also, Mr. Frank Siddall, a prominent farmer near Glencoe, who swears that his daughter, after being treated by several physicians, was cured of a bad Cancerous Sore Mouth and Catarrh of the Throat in a few weeks by using Prof. Wesley's Archangel Herb Remedy.

There were several other evidences in favor of the Professor and his Archangel Herb Remedy, but they were not called up, for the simple reason that the Magistrate refused to write them down. His reason was that it was giving the Professor a free advertisement. But he accepted the evidence of the Detective, who is hired by the Medical Association for the purpose of looking after any person that cures people and charges for it. The Detective acknowledged under oath that he had lied to the Professor.

The Professor particularly calls the reader's attention to the fact that he does not charge for curing and does not practice, but he charges for his Herb Remedies that are especially adapted to cure all Inherited and Chronic Diseases that are supposed to be incurable in their first and second stages.

It has been mentioned that there were several other evidences in the Professor's behalf. I will now call your attention to a few of them:—

Mrs. W. M. Clarke, of Dutton, who was cured of Inflammatory and Sciatic Rheumatism.

Miss Lena Graham, of Wallacetown, who was drawn all out of shape by a bad case of Rheumatism, was cured in a few weeks by the use of Prof. Wesley's Archangel Herb Remedy.

Mrs. Peter McCracken, of Glencoe, who was cured of a Cancerous Sore Mouth, General Debility and Headache.

Mr. Wm. Siddall has used it successfully thus far for general use.

Mrs. Charles Hurley, near Glencoe, used it successfully in a bad case of Salt Rheum of long standing.

Mrs. E. McNabb finds it a grand remedy for Nervous Headache, and also to prevent Colds and keep off the La Grippe.

Mrs. Robert Tully, of Oakdale P. O., found it a grand remedy for Liver Complaint, Headache and Catarrh.

Mr. James Dobbyn, of Shetland, has used it successfully in a bad case of Liver and Kidney Complaint, and a bad case of Sciatic Rheumatism.

Miss Jane McNabb, Glencoe, has used it thus far successfully in a bad case of Catarrh and Asthma.

Mrs. Charles Armstrong, of Mosside P. O., used it successfully in a bad case of Blood Poisoning and Erysipelas caused by a bruise, which formed a sore, and the Erysipelas and Blood Poisoning set in. This was after the use of several medicines for about a year, also a prominent physician of London advised that she would have to go to the hospital for treatment. But by the persistent use of the Archangel Herb Remedy for one month, she considered herself perfectly cured.

I will not tire the reader by too much unnecessary reading, for this is enough to convince any sceptical person that the Archangel Herb Remedy is an infallible and never-failing medicine for increasing the value of the blood in the human body, for restoring the purity and vitality, thereby imparting to the brain, nerves and the whole system, tone, vigor and perfect health. It is unnecessary to enumerate the different complaints that it can be used for, as there are five different preparations of this remedy. It would be well in all Chronic and Hereditary Diseases, those that are pronounced incurable by the physician who uses the Chemical Compounds, to try the Archangel Remedies, for they are purely vegetable, hence are nature's remedies, and will remove the cause, and nature will work her own cure for all diseases coming from an unhealthy state of the system.

It might be mentioned right here that the Professor has been brought up by his mother, a doctor, and his aunt, a German midwife and nurse and physician. During this time he had the privilege of using the remedies and nursing the sick. In the meantime he was accustomed to gather the herbs, roots, gums, barks, seeds and berries, and has all his lifetime and since been using these remedies which have been used among his people for over three generations, and may be called the German secret of remedies.

There are two ways of selling remedies.

There are some people who take great pleasure in telling what good the Archangel Herb Remedy has done for them. This is told for the benefit of suffering humanity. And there are some who have doctored with the most eminent physicians and used patent medicines until disgusted, and say they are through taking trash.

They would rejoice in getting some remedy that would cure them, but they would like to have it unknown until cured.

Such persons can procure the remedy by addressing all private letters to Box 246, Glencoe. Medicines delivered free of charge. Also, for further information, call at Mr. Wm. Siddall's, one mile southeast of Glencoe, where all the medicines can be procured by box or bottle. AGENTS WANTED.
