was tired of the old winter toat she was wearing, and he'd decided that a new one was absolutely necessary to make the rest of the winter bearable. It's worth trying this scheme, isn't it, when such coats as these we mention below are selling for

A collection of broken lines, some of best selling styles of Women's Winter Coats, made in a great variety of styles and trimmed with buttons, velvet or self strappings. Some are in plain tailored style, collars are in the fashionable effects, materials are good quality medium weight beaver cloths, in black, navy or myrtle; also of imported tweeds, in mixtures or stripe effects of brown, green or grey tones. Anyone requiring a general purpose coat for a ridiculously low price can have the opportunity at 8 o'clock to-morrow morning, as these will then be on sale at \$3.95.

The Great White Sale

Do You Realize What it Actually Is?

In all probability you have seen it advertised; have heard it favorably spoken of; are aware in a general and vague kind of way that January is the most advantageous time to purchase White Goods for yourself and your household.

But are you sufficiently alive to the fact that it represents the outcome of twelve months' thought and work on our part whereby we are enabled to offer you white goods in all branches at prices lower than at any other time of the year, and that a whole year has been spent by an expert staff ransacking the markets in order that the quality of these goods may be superior to anything else on the market. Then these goods are examined, piece by piece, classified and arranged so that you, the purchaser, may find exactly what you want with the minimum amount of search, worry and fuss, in the various departments, devoted to white goods. Now to-morrow is THE day on which it will pay you to pay our great whitewear sale a visit, or another visit, and we may safely presume that you will not be disappointed or regret any purchase you may make.
