## LABOR LEADER ARRESTED FOR COMPLICITY IN DYNAMITING

Sequel to Destruction of Los Angeles Times on Oct. 1—Explosives and All the Material for Infernal Machines Found in Headquarters of International Union—President of Union Claims It Was a "Plant."

STORY OF AN EXCITING TRAIL BY DETECTIVE

INDIANAPOLIS, Ind., April 22.—After months of investigation, directed by William J. Burns, the San Francisco graft investigator, now head of a detective agency, John J. McNamara, international secretary of the Bridge and Structural Iron Workers of America, the headquarters of which are in Indianapolis, was arrested here late to-day charged with complicity in the dynamiting of the Los Angeles Times, on October 1st, 1910, and the plant of the Llewellyn Iron Works in Los Angeles.

Four hours after McNamara was arrested, detectives found two quarts of nitro-glycerine and seventeen sticks of dynamite in a barn three-quarters of a mile west of Indianapolis. The barn, the detectives say, was rented by McNamara from T. H. Jones, the owner.

A later investigation of the international offices of the union disclosed, in a storeroom, in the basement of the building, 64 sticks of dynamite, 200 feet of fuse, 500 dynamite caps, one dozen small alarm clocks and a leather case made to carry a ten-pound can of nitro-glycerine. Detective Burns took possession of all the explosives.

Question papers from the governor of California, having been signed by Governor Marshall, before the arrest of McNamara, he was arrested immediately before Judge Collins in police court.

Rushed Out of City in Auto. Twenty minutes after McNamara had been seized in the association headquarters in the American Central Life building, where a meeting of the executive board of the organization was just adjourning, he was taken from the city by four detectives, in an auto. It is supposed it was the object of the officers to get McNamara out of reach before his friends had a chance to fight the requisition.

Soon after the prisoner had been hurried into the awaiting automobile, Detective Burns ran for another automobile and rode to the American Central Life building, where M. Ryan, president of the association, and six members of the executive board were being held by the police, pending an investigation. Doors of the room were guarded with a squad of police.

Immediately after the officers of the union were searched, Detective Burns said a search in the basement of the barn west of Indianapolis, where the explosives were unearthed. The detectives then returned to the city when a search in the basement of the headquarters revealed more explosives. Claims it is a "Plant."

President Ryan said to-night that he had been connected with a union labor for several years, and had never heard of a case similar to the one charged to McNamara, but he had known of cases where "plants" had been made by enemies of labor organizations, and that if explosives were found to-night they had been placed by enemies of the organization.

The custodian of the building where the offices of the union are, said that McNamara had come to him six months ago and asked for a store room and that the request had been granted. He added that he had never seen McNamara or his companions carry anything to the store room.

Burns says Otto Mankig, who was arrested in Detroit, told him where these explosives could be found, and it was upon this information that the search was made to-night. The dynamite and nitro-glycerine were found buried under sawdust in the barn. Jones, the owner of the barn, is also a structural iron worker. He said the explosives were placed there last January, and that McNamara and other men made various trips to the barn with suit cases, but he did not know the purpose of their visits. Jones says that McNamara rented the barn and paid him \$25 a month for its use. It is situated about three-quarters of a mile west of the city.

Detectives on the Trail. CHICAGO, April 22.—Officials of the agency with which Wm. J. Burns is connected, to-night told of the events leading up to the capture of the men charged with the dynamiting at Los Angeles. Burns was in Los Angeles at the time of the explosion and attended a conference with Mayor Alexander, the chief of police and the Merchants and Manufacturers' Association. For a while he worked under the supervision of the Los Angeles authorities, and then, following a misunderstanding, took up the work on his own responsibility.

He turned to his evidence gained of an attempt to dynamite a bridge in Peoria, Ill., in Sept., 1910, where an infernal machine, planted near the bridge, had failed to explode. The conditions in Peoria coincided so closely with the evidence following the Times explosion that the detective decided both explosions had been the work of the same men. The detective already had suspicions that the Peoria work had been done by Orville E. McGinley of Chicago, a structural iron worker.

## More Arrests to Follow

LOS ANGELES, Cal., April 23.—The arrest at Indianapolis to-night of John J. McNamara, secretary and treasurer of the International Bridge and Structural Iron Workers, for alleged complicity in the dynamiting of the Los Angeles Times building on Oct. 1, 1910, and the consequent loss of 21 lives, was made on instructions from the district attorney of Los Angeles County. These arrests are the first that have been made since the grand jury, after several weeks of investigation and examination of many witnesses, returned 23 indictments against persons alleged to have been concerned in the disaster. District attorney Fredricks stated that other arrests involving prominent labor leaders will follow, and that the theory of the prosecution in the case will be that the explosion was the result of a conspiracy formed for the purpose of retaliating upon the newspaper for the stand it had taken in a strike of the structural iron and brewery trades, and for its attitude toward union labor.

## GOLDEN JUBILEE FOR ST. STEPHEN'S RECTOR

Eulogistic Words Spoken of Rev. Canon Broughall's Ministry—Talent, Coupled With Humility.

Fifty years of loyal, faithful, helpful ministrations on the part of Rev. Canon Broughall was celebrated by congregations which taxed the capacity of St. Stephen's Church yesterday. A large number of ex-members of the congregation were present at both services.

Bishop Sweeney preached at the morning service, choosing his subject from Paul's farewell address to the leaders of the church. During the course of his sermon the bishop referred especially to the rector's continuous pastoral dispensations and spoke of him not only as a pastor, but a father. Coupled with that his activity was characterized by humility and ambition. Continuing, Bishop Sweeney pointed out that during the fifty years of Canon Broughall's ministry, 4,145 persons had been baptized, 2,200 confirmed, and 1,281 marriages had been performed. For over twenty-five years

REV. CANON BROUGHALL

he had been examining chaplain, and during that time examined 222 candidates for deacon's orders, and 183 for priest's orders. At the evening service Rev. W. E. Graham spoke. The words of his text were "If Christ, who is our life, shall appear, then we shall also appear with Him in glory." Suiting his remarks to the occasion, Mr. Graham referred to the time when he himself was a student at University College, and attended at St. Stephen's. Referring to his impressions of that time he said he had never been at a service at St. Stephen's church, but he went away disappointed, and wishing he had gone somewhere else. The rector's personality was evident in every word he spoke from the pulpit, and he was known among his brethren as a man whose great work and gifts were found hand in hand with even greater humility.

The approaching his 75th birthday, Canon Broughall is hale and hearty. A slight indisposition prevented his attendance at the service yesterday, but he was much improved towards evening and will be around again this week.

## POLICE HAVE CONFESSION

One of Men Arrested Tells How Los Angeles Times Was Dynamited.

CHICAGO, April 22.—Capt. Stephen Wood, chief of the Chicago detective bureau, said to-night that a full confession had been obtained from one of the men arrested in Detroit in connection with the dynamiting of the Los Angeles Times Building. Detective Burns has already stated that he had got information of the whereabouts of the dynamite in Indianapolis from McGinley, covers ninety typewritten pages, and describes in detail the dynamiting of buildings, railroad trains and factories, entailing the loss of many lives and two million dollars worth of property.

## A RECIPROCIITY PATCH NEEDED

MR. TAFT: How about it, Mr. Cobbler? Can you fix 'em up?

## ST. GEORGE'S SOCIETY HONORS PATRON SAINT

Canon Abbott of Hamilton Preaches Eloquent Sermon in St. James' Cathedral.

The memory of St. George, the patron saint of England, was honored in St. James' Cathedral last evening, the occasion being marked by the singing of special hymns and prayers, and an eloquent sermon by Rev. Canon Alton Abbott, M.A., rector of Christ Church Cathedral, Hamilton. Special services were reserved for the members of the Sons of England Society, who all wore roses in their button holes, and did the honor boys on their six-pointed hats, and the boys on their six-pointed hats, and the boys on their six-pointed hats.

Some of us are born to a business life, and profession, some of us may be born to a life of study, some to work certain hours a day for a certain remuneration, some to art, to some music is the mistress, and others have literature for their creed. "Not one is without its value as an absorbing passion of life; not one is insensible enough to overflow an eternal soul."

Canon Abbott showed that to grow more like Christ each day should be the sole purpose of each one's existence. "We commend to-day, my brothers," said the canon, "the feast of St. George. We men of British blood are gathered together in this loyal City of Toronto, in this grand cathedral, to do honor to the memory of the saint of our motherland. We are members of an empire so far reaching that at any given time twilful never gathers a source of envy to the other republics and monarchies of the world. We are proud of our language, of our Anglo-Saxon name, of our British institutions, England, the home of arts, the seat of government, where legislative chambers of elevated tone control the safeguard of the empire; the three blessed mother of us all."

"We must grasp a higher patriotism," concluded the preacher, "we must be pure and prayerful, unselfish, manifest the heroism that praises unknown men simply because it is heroism and done in humility. We will lay hold of a pure and spiritual Dominion among hearts of men from the Nazarene, not territorial, not martial, the vision of a moral and spiritual Dominion among scale orders to the height of 200 feet to bring her down."

A TIME TO PREACH LOYALTY. OTTAWA, April 22.—Rev. Walter M. Loucks, rector of St. Matthew's Church, made a strong appeal to the members of St. George's Society to-night, in his annual sermon, for the preservation in Canada of the English language and loyalty to the British crown.

Teachers Are Back. The Toronto school teachers returned to Toronto from their visit to New York on Saturday at 9 p.m., arriving on time.

## REVOLVER DRAWN AT LITTLE ITALY WEDDING

Jealous Suitor's Dramatic Interruption Leads Him in Gals.

The loves and passions of Little Italy came once more to head when Giuseppe Saguto, of 33 Agnes-st., was arrested by P. C. Matthews (07) charged with attempting to shoot Carmelo Esposito, of the same address. The address, by the way, is next door to the board game house where the murder and general free fight occurred last Good Friday. As in the former cases, the dark-skinned fair sex was the cause of the trouble. Carmelo, the man who had the complaint, was the principal in a pretty Italian wedding. When the wedding ceremony started on Sunday afternoon, pleasant liquids began to flow smoothly and easily, and most of the family and friends began to feel in a good humor. However, there was one on whom the liquor had added to the flames of a jealous heart. After a sufficient quantity of the wet material had been imbibed, the flame broke loose. According to record, this was about 4 o'clock. Giuseppe, former lover of the bride, and rival of Carmelo, pulled out a revolver and prepared to make unceremonious work of a rival who had hoped for. Friends, however, grabbed the would-be murderer and held his hands until the bedrooom bled off to the police station, and complained of his rival's attitude. The policeman then came along and ripped up the wedding of a young bride and groom in the bud.

## THIRTY-TWO KILLED IN SOUTH AFRICAN WRECK

Train Plunged to Destruction Into Gorge 250 Feet Deep—Heart-rending Work of Rescue.

GRAHAMSTOWN, Cape Colony, April 22.—According to the latest estimates, 32 persons were killed in the wreck of a passenger train on the Kowie Railway, when it plunged to destruction into a gorge, 250 feet deep thru the collapse of the Blaauwbaan bridge yesterday. In addition many were injured, some of them fatally. It was the worst wreck in the history of South African railways. The rescue work involved heart-rending experiences, and the extraction of the injured from the debris was accompanied by terrible groans and cries. A large mass of wreckage lodged on a ledge 120 feet down, and it was many hours before all were removed from the different crags and hoisted in sacks to the lip of the gorge. One little girl had a miraculous escape. She was caught in a fork of the bridge and held by one foot over the ravine. The rescuers had to scale cliffs to the height of 200 feet to bring her down.

## CHURCH NEARED CRISIS BUT NOW IS ALL SERENE

Congregation of Victoria Presbyterian Had to Raise \$2100 and Did It.

In response to an appeal from Rev. Dr. T. L. McKerrill, pastor of Victoria Presbyterian Church, West Toronto, who asked for a contribution of \$2100 to meet a payment on the church, coming due on May 1, the congregation at yesterday's services gave \$2100, making the occasion one of congratulatory. Ten years ago the church borrowed \$25,000, of which \$4000 was to be paid in three instalments of \$1000, \$1000 and \$1000, the last named to come due in May next. Owing to the interim between the appointment of Rev. Dr. Edgerton to Westminster Hall, Vancouver, and the installation of the present pastor, very little more than was necessary for the running expenses of the church was contributed, but a fund was later started, netting \$900 and leaving \$2100 to be raised last Sunday. The morning service brought \$1000 and the evening one \$800. There is still \$300 to be raised.

## ANNIE JOHNSON DEAD

Woman Who Fell into Basement Succumbs to Fractured Skull.

After having regained consciousness for nearly 24 hours, Annie Johnston of 22 Alice-street, who fell into the engine room of Osgoode Hall on Friday afternoon last, died in St. Michael's Hospital at about midnight Saturday. Her skull was fractured, and it was feared that she might have some internal injuries, and when first brought to the hospital the doctors cherished no hopes for her life. When she came to consciousness early Saturday morning, however, it was thought that there might be a chance for recovery. Able to converse somewhat, her mind retained no impression of the accident. Her pulse failed all afternoon and, after relapsing into unconsciousness at about 11 o'clock, she soon passed away. The accident occurred on Friday afternoon, when she was talking to two men. She apparently lost her balance and fell thru the windows to the floor of the new boiler room, a distance of 19 feet. Dr. Lyon will open an inquest into her death to-day.

## WAITING FOR THE CENSUS

Hon. Sydney Fisher Says No Election Till After Redistribution.

MONTREAL, April 22.—The campaign on behalf of the government's reciprocity measure was carried into Westport, on Saturday evening, when about 500 people gathered in Victoria Hall to hear Hon. Sidney Fisher, Minister of Agriculture, and Hugh Guthrie, M.P. (South Wellington), take up the case for closer trade relations. One element of the attendance was in a heeling mood, of which the minister of agriculture was the chief voice. In answer to one question put to him as to why the government did not put the question to the electors, Mr. Fisher replied: "Just as soon as you want it you shall have the chance, but we do not propose to disfranchise a great number of people, who after the census will have votes. We don't think that the present distribution represents fairly the whole country. It would be a national crime for the government to dissolve and go to the country just in the face of a census and redistribution."

## HIGHER STANDARD FOR ENTRANCE TO VARSITY

Senate Considers Change That Will Vitalize Schools of Province—First-Year Classes at University Too Crowded to Permit of Effective Work.

If the strongly expressed desire of President Falconer as laid before the senate of the University of Toronto are carried out the standard of entrance to that institution at present the passing of the junior matriculation, will be raised to that of the senior matriculation, an important change.

It has been known that the president favored a higher standard of qualification, but this is the first definite move in that direction. In doing so he stated that his desire was that the senate should begin to consider this matter, inasmuch as, in his judgment, steps should be taken towards this end.

A statement issued under the authority of the senate indicates sympathy with the president's views, but the senate will not take action until next fall. If the principle is approved, it will be sent to the various departments of the university, for consideration. Affects Schools of Province. The statement issued by the senate says: "Such a change in entrance requirements demands the most careful consideration, inasmuch as it affects not only the university but the schools of the province, moreover, it should be examined as carefully by every department of the university. It is hoped that the other universities of the province will agree to introduce the same standard, and that the schools of the province will recognize that it is for their advantage, and for that of the students' advantage."

Classroom Too Crowded. The pressure in the past course of the first year is becoming very heavy. The classes are too large for effective work. It would be an advantage for most of these students to remain a year longer at school, where they would have the attention of the teachers who know their individual needs, and where they would spend another year at school than to come to the university and take work here that might be done at school. The senate would benefit the scholars would raise the standard of the school, and would be a great help to the student in giving him a higher grade of work. It would benefit the various committees of the province, and would be a decided step in the way of promoting a higher standard of education throughout the province.

Degree in Three Years. Those schools that are at present unable to prepare pupils beyond the standard of junior matriculation, until they are able to reach this standard, send their pupils to the nearest collegiate institute or high school. If this change were effected the degree in the general course might be obtained in three years, while the degree in any of the honor courses would require four years. The subjects of the general course being eliminated from the first year in the honor courses. At the autumn meeting of the senate the matter will again be brought up for discussion, and if the principle is approved, it will then be sent to the various departments of the university for consideration.

Universities in Conference. The meeting of the senate on Friday night followed a conference of the representatives of the Ontario universities, when matters relating to junior matriculation were under discussion. Queen's University was represented by Prof. Baker and G. Y. Crown; McMaster by Prof. Warner and Prof. McLaughlin; and the Western University by Prof. James.

Among the subjects discussed the more important were, a scale of values for the subjects of matriculation, and a plan to aid the student who is unable to attend the regular sessions of a secondary school. The values recommended, which were approved subsequently by the senate of the university, are as follows: English, Latin and mathematics, each, 200; French, German, Greek and experimental science, each, 200; History, 150.

It has been deemed advisable to give such values in view of the fact that the new regulations call for a minimum of 40 per cent. on each paper, with an average in 1911 of 50 per cent., and in 1912 of 60 per cent.

Smothered to Learning. During the last few years there have been an increasing number of students engaged in industrial and financial occupation, desirous of proceeding to a university degree. The conference recommended, and the senate adopted a report, under the terms of which a

## THE SPRING HAT GAME

The spring hat game is not limited altogether to the feminine end of the human family. His highness, the lord and master, has some rights when it comes to spring hats. This season the Dineen Company is showing an exceptional line of new English and American fashions for men, which are up-to-date in fashion and of great quality.
