then with renewed strength they hastened on to where they heard the sound of voices. Hardly had they gone more than two hundred yards, when they discovered a pond, in which 75 100 people were standing. Here

they found protection. The vastness of the north country, the wide area destroyed by the num-erous bodies of water into which men have plunged, the flames and the number of prospectors, miners and labor-ers scattered in all directions, makes the task of listing the dead an impossible one, say refugees, who shudder as they tell of the dangers thru

which they have passed. "There are bodies lying at the bottom of Porcupine Lake, which no one was razed to the ground. Nearly knows of," said E. R. Henderson, proprietor of the Lyric Theatre, at Golden City, to The World last evening on his arrival in Toronto.

whom were from South Percupine and Golden City. Their escimation of the number of dead was at least 500. They had been searching around the West Dome mine and here they discovered sixteen charred bodies. Just Monday, Tuesday and Wednesday was unustrally rough and the wind that stirred up the blaze also roused the waters. Many a person took to the water and in doing so merely saved their lives for an hour or so and changed the form of death from fire to that of drowning.

One Hundred Drowned in the sood many to Golden City and thus many lives were saved.

"to add to the horror of the fire and smoke, a car of dynamite on the rail-road track suddenly exploded, and I saw one man's arm blown clean off and hurled a considerable distance. We attended to him as best, we could, but he suffered intense agony, and I do not know whether he lived or not.

GUIDE TO FEDERAL POLITICS

Within a few weeks Canada will be in the thick of a political fight. You'll need to brush up your knowledge of political affairs, and to assist you The Sunday World presents this week the first of a series of guide maps. Ontario is the first, and the 86 ridings are colored according to their representation in parliament, Con-servative in blue, Liberal in red. Below is given the key to the map, and a discussion of some of the features of the political situation.

Next week the Province of Quebec will be given and the following week the other provinces of the Dominion. Get this guide to federal politics in Ontario. It will help you to understand the situation.

upon us with deadly fury and speed,

'I saw six bodies lying burned in the Mr. Henderson was in company with city, and helped some men drag eight a friend named William Whittam, both bodies from the lake. I picked up some bones from the ground and found out afterwards that they had belonged out afterwards that they had belonged to a poor unfortunate man who had been caught by the oncoming rush of the fire. We stayed in the lake three and a half hours, and many suffered intensely from the smoke. Fortunate-ly there were seven gasoline launches near at hand which were able to take

Both Mr. Henderson and Mr. Whittam were of the opinion that at least one hundred people had perished in Porcupine Lake alone. They said at least 60 went down in full view of their own eyes.

It appeared that the fire had been raging near South Porcupine and Pottsville on Sunday and Monday the wind rose and without a moment's notice carried the sparks from the wood to the rear of South Porcupine over to flew to the water, and I saw a huge black bear make for the lake as tast

tice carried the sparks from the wood to the rear of South Porcupine over to the waterfront, setting the buildings there on fire. The inhabitants, in less than five minutes, were hemmed in by fire on all sides.

When does not be different trails and they could not possibly escape the onrush of the flames. The inhabitants in less than five minutes, were hemmed in by fire on all sides.

MIMICO TURNS DOWN HYDRO-ELECTRIC OFFER

Will Make Three Year Contract With Erindale Power Co. For Exclusive Lighting Franchise.

At a special meeting of the Mimico council held last night, it was decided to stick with the Erindale Power Co. for house and street lighting, and reject lan estimate furnished by the Hydro-Electric Power Commission. A representative of the Erindale Power Co. was present, who produced a diagram of the proposed lighting system and agreed to meet the hydro-electric rates in Toronto if the commany were rates in Toronto if the company were given the exclusive franchise for supplying power in the village.

In a letter read to the meeting, the company explained that it had pur-chased a block of 1000 h.p. and offered

a 6 cent flat rate for house lighting; or, as an alternative, 4 cents per 100 square feet plus 5 cents per k.w. hour.
If this offer is accepted, the rates will
be retroactive and those having five
year contracts, will receive a proportional hopefit.

tional benefit.

The estimate of the hydro-electric commission involved a plant costing \$7500 with a 29-25 hp. load, with a capacity for 50 street lights and 40 houses. The voltage would be 2200. In addition, the commission offered to act as purchasing agents for the municipality.

as purchasing agents for the municipality.

On motion of the reeve, seconded by Councillor Worden, a special meeting between the parties will be arranged to draw up a three year contract.

Speaking to The World last night.

W. W. Pope, secretary of the hydroelectric commission, said that a request for 2000 h.p. had been received from the Erindale Power Co., which had been declined, as the commission had laid down the principle that the was inadvisable to sell power to private complaines for distributing purposes, thereby creating competition with the municipalities.

the reciprocity and the Democratic tariff measures. The final votes will not be taken on the bills named until the dates fixed, but amendments can be disposed of from time to time.

The Bristow amendment to the Canadian reciprocity bill, proposing a reduction of the sugar tariff and the abolishment of the "duties standard" basis of assessing tariff on imported sugar, was defeated this afternoon 28 to 8, after Senator Bristow had made an exhaustive speech on the subject Senators Bourne, Bristow, Brown

Further, in this particular case, the commission had adopted the view that Mimico was properly within the Toronto district, and it was only a question of time when these places would be incorporated in the city and consumers would receive the benefit of the duty on distributing system.

Cummins, Clapp, Dixon, Ground and Separator Cummins introduced additional amendments to the bill, one providing for a reduction of the duty on steel beams, girders and like products, and the other for a reduction of the duty on oilcloth and linoleum. With the fate of reciprocity pre-de-termined in favor of that measure, termined in favor of that measure, a mandamus to compel the city to Senators already are speculating on supply the Mt. Padding His Votc.

A doctor in England told a friend before an election that he had sixteen votes which he was going to poll. He was asked to explain. "Oh, I have two votes myself," he replied, "and I have fourteen patients of the wrong party who will not be well enough to go out until after election."

TAMILTON APPENINGS

Hamilton Citizen Applies For a grand Mandamus-Complaints About Wentworth Car Service.

HAMILTON, July 14.—(Special)—For several months the residents of Mt Hamilton have had to put up with a very irregular water service. A short time ago Martin Malone, a local bar-rister, threatened to bring action agginst the city in the matter, and this morning he made good his threat, when he applied to the high court for to other sections of the city. The lawyer's act also includes an application for a mandamus to compel the next the waterworks to the payment of intedest on debentures issued for waterworks construction. Injunctions are also applied for to restrain the city from selling water outside the city

lone, and the conditions leading up to "Just a few lines in a great hurry of state that we managed to save the uccess camps. We have been work."

It has been ununated that if continuity points of the municipal power and it was been seized upon by the option of the municipal power and it was been seized upon by the option of the municipal power and it was been seized upon by the option of the municipal power and it was been seized upon by the option of the municipal power and it was been seized upon by the option of the municipal power and it was been seized upon by the option of the municipal power and it was been seized upon by the option of the municipal power and it was been seized upon by the option of the municipal power and it was been seized upon by the option of the municipal power and it was been seized upon by the option of the municipal power and it was been seized upon by the option of the municipal power and it was been seized upon by the option of the municipal power and it was been seized upon by the option of the municipal power and it was been seized upon by the option of the municipal power and it was been seized upon by the option of the municipal power and it was been seized upon by the option of the municipal power and it was been seized upon by the option of the municipal power and it was been seized upon by the option of the municipal power and it was been seized upon by the option of the municipal power and it was been seized upon by the option of the municipal power and it was been seized upon by the option of the municipal power and it was been seized upon by the option of the municipal power and it was been seized upon by the option of the municipal power and it was been seized upon by the option of the municipal power and it was been seized upon by the option of the municipal power and it was been seized upon by the option of the municipal power and it was been seized upon by the option of the municipal power and it was been seized upon by the option of the municipal power and it was been seized upon by the option of the ation of the session for further tariff Malone is acting in the interests of the citizens of Mt. Hamilton, it has been suggested that he go after the Hamilton Street Railway Company and make an effort to get something like a decent street car service on Wentworth-street, which line is supposed to

be operated for the benefit of residents of the mountain and the southeast section of the city. While the accommodation provided by the street railway in other parts of the city is bad enough, the alleged service of Wentworth-street is a joke. The s hedule is supposed to provide a car James every twelve minutes, but it is no unommon thing for half an hour to elapse without one of the dinky little suffocating boxes, called street cars, tumbling up the line.

is in a hurry he will usually have time by walking. Two cars are supposed to make trips on this line after II o'clock at night, but if a passenger gets south of King-street op one of them he is lucky.

The "service" provided for the residents who use the Wentworth-street car line is a myth. The only real real
