HIGHEST PRICE EVER PAID BASEBALL CLUB MANAGER

Frank Chance Will Get It If He Goes to the New York Highlanders.

CHICAGO, Dec. 27.—Frank Chance will not manage the New York American League Club unless he receives the salary he demands, and a percentage of the club's profits. The salary, he says, is the largest ever demanded by a manager of a ball club.

In a letter today to Charles Williams, treasurer of the Chicago National League, Chance gave the first authentic news of his negotiations with Frank Farrell, owner of the New York Club. Chance wrote that he had intended to retire from baseball, but since given the opportunity to manage the Highlanders, "he wants enough money to make it worth while."

"I do not think I will get what I have asked for," writes Chance. "The salary is steep. In fact, the biggest ever demanded by a manager, but I intended to quit the game, and now I want to make it worth while. It is a good bet, though, that I will be right out here on my ranch next summer, instead of on a ball field. It is paying me better than ever, and I am contented. Still, should Farrell grant me what I want, the probabilities are that I will go."

Chance added that he will not go east to discuss the situation with Farrell until the latter agrees to his terms.

The work of Vezina in goal saved a good many scores against us last night. The one point in which Toronto made mistakes was in changing their players too often. If they had played right thru with the team they started with, the score would never have been anything like 3-4.
