LIVE STOCK MARKET

While everything at the Union Stock Yards yesterday indicated the near approach of spring, these conditions do not obtain at many points thruout the province, where heavy snowstorms in some localities and flood conditions in others held up a lot of the expected shipments to the market. The result was a light run, much lighter than everybody had looked for—about 700 cattle all told. This fact may have probably tended to strengthen the market, but it was not a lively market at that. There was no snap or ginger to it, and with one or two of the buyers there was no great activity.

The market was pretty well cleared up at the close and prices held steady in most cases, but it was as much as a bargain.

The list of representative sales, as published in The World, and by the way a pretty complete one, gives just about the very best possible idea of how values held and ought to be, and is carefully scanned by all the live stock men from one end of the country to the other.

Sheep, Lambs and Calves.

There was a good strong market for all the small stuff, with no particular price changes.

Hogs.

There was a light run of hogs, 1216 all told, and the price was steady to strong at 19¼c, fed and watered, with one or two lots of extra choice selling at $19.60, but the prevailing price was 19¼c, fed, and 19¾c, weighed off.

Initial Offering of Fidelity Mining and Development Co., Ltd., Shares

AFTER a thorough investigation of the properties owned and controlled by the above company, combined with our faith in the ability, integrity and experience of Mr. Thomas Tough, its President and Managing Director, who is one of the original discoverers of the well-known Tough-Oakes Mine in Kirkland Lake, we have contracted to underwrite a portion of the treasury stock to provide monies to be expended exclusively in development work.

The properties owned outright by this company comprise 24 claims of 40 acres each, which, together with interests in several others, aggregate over 1000 acres. The properties are located in Kirkland Lake Camp and in the townships of Teck, Skead, Alma, Turnbull and Morrissette and have been selected from an original holding of over 50 claims, of which only those of exceptional merit have been retained. These acquisitions are the result of several years of prospecting and the expenditure of much time and money.

The properties in the township of Teck adjoin the LaBelle Kirkland, on which it is estimated ore to the value of $500,000 has been developed. The Fidelity claims have the identical geological features of the LaBelle Kirkland. The shaft on this property has been sunk to a depth of 40 feet and shows ore assaying $6 to $7 to the ton in a vein of strong and true characteristics. Two other properties are situated in the heart of the Kirkland Lake district.

Holdings in the township of Skead comprise 12 claims. A vein on this property has been opened up to a depth of 15 feet carrying spectacular showings of free gold, The immediate operations of the company are to be confined to the mining and shipping of this rich ore of which a very considerable quantity is indicated.

In addition, good surface values have been obtained from properties in the townships of Grenfell, Alma and Turnbull, while ore of very rich value is showing on the surface of the properties in Morrissette township.

In our opinion, the properties owned by the company have possibilities for the making of several mines.

The authorized capitalization of the company is $2,000,000, divided into shares of a par value of $1 each, fully-paid and non-assessable, of which 930,000 shares are still in the treasury. Development work is to be carried on under the supervision of expert mining men who are pioneers of this district. This will insure an economical expenditure of the company's funds.

The three necessary essentials: good properties, efficient management and proper financing, are here in evidence to an extent justifying us in recommending the purchase of the shares to our clients and friends. Prospectus and maps showing the company's holdings in the various townships may be had upon request.

Our present offering is limited to **100,000** shares at the special price of **20** cents per share, a portion of which has already been subscribed. We anticipate that this allotment will be quickly taken up and suggest that you place your order with us immediately.
