Big Convention Now in Session Here.

With due regard for the importance officially received in the gally decorwelcome, particularly from the Wea-ther Man. About 300 of the visitors were at the opening session, but in the afternoon line attendance was somewhat lighter, the ball game and erally been regarded as historic, and characterizes them as merely a comsomewhat lighter the ball game and adjacent summer resonts having no little attraction. All the papers have been printed in took form for the convenience of each delegate. All will be there this morning as the selection of a place for the next convention will be the exciting topic.

That Toronto has earned a great remutation as a convention of the way

putation as a convention city was again asserted, when Fresident Dabney H. Maury of Feoria, Till, responded to the greeting extended by the mayor and commented upon the fact that their were so many water supplies adjacent to the other. supplies adjacent to this city. a man occupies is not theological question, but a moral one.

"There are some nowadays, who, while making much of preaching, apparently have lost confidence in the weapons of their warfare; and use them metely for entertainment—for desiring, they say, to keep pace with the times, they have changed the pulpit into a platform, and sermons into popular lectures, in which worldly questions of the day are discussed, while the momentous question, 'What must I do to be saved?' is left unanswered.

Maurry's address took a practical turn when he incorporated with it a paper on the "rates of water service," dealing with the lig question as to what were fair rates, whether the service was privately or municipally owned. He urged that waterworks under any sont of management should be dominated by business principles. There should be a reasonable silding scale for fire protection. He favored meter rates as against fixed rates.

DR. McLAUGHLIN'S ELECTRIC BELT

It gives lasting strength. Its cures are permanent, forever. Its touch h the touch of magnetism; it creates in a weakened body new life, surength, energy, courage, happiness and long life.

It is Wature's great Restorer, applied gently while you sleep. It will transform your weakened, pain-racking body into a paradise of health. Try it, you weak, debilitated man; eyou poor, weary and disheartened woman; feel the life blood warming your heart, the fire in your blood and the steel in your nerves. Let it cure you, The best argument which can be offered in praise of a curative remedy is the word of one who has tried it and says, "It cured me." Dr. McLaughlin:

Dear S.r.—I will say that I am perfectly satisfied with your treatment. I used your Belt as directed, and found it just as you represented it, and I can thank you alone for the cure it has given me! I have it yet, in just as good condition as ever. If I know anyone who needs a Beit fixe yours I will send them to you. Once again manking you for kind treatment and good advice, and wishing you and your Belt every success. I remain, with best wishes, Yours truly.

To those whose vitality is exhausted and who find themselves, young in years, broken down wrecks of what they ought to be, the Dr. McLaughlin Electric Belt is full of encouragement. It is the success of the age in elevating the condition of those suffering from a loss of vitality.

If it were not for the prejudice due to the great number of fakes in the land, I would not be able to handle the business that would come to me. The "Free Belt" fraud and the "Free Drug" scheme, which are not free at all, have made everyone sceptical, but I know that I have a good thing, and I'll hammer until you know it.

One thing every man ought to know is this: "Your body is a machine. It is run by the steam in your blood and nerves. When you begin to break down in any way you are out of steam. That's just what I want to give you back. If you are sceptical all I ask is reasonable security for the price of the
