He did not know what the Dominion was prepared to do, but it would be liberal to the Exhibition, he had no doubt. Personally, he could not say that he knew what the province was prepared to do. (Laughter.) He could not say that he had any authority to speak on behalf of the province. What he could say was that the province never allowed itself to fall behind, especially in reference to agricultural matters, so long as that department was under the able suddance of an experienced Minister of Agriculture. Ontario always insisted upon standing in the very front rank in everything pertaining to the development and encouragement of the agricultural, and industrial interests, and all that clusters around them. He need not, therefore, make very specific

which every branch of industry re-ceived from the competition excited by comparisons between goods, which stood side by side. The final analysis, brings success and tells who is entitled to be called number one in his special business or occupation. That pro-gress had been made in nearly every department is evident, and that progress had been made in nearly every department is evident, and that progress had been largely stimulated by the competition which is produced by Exhibitions, such as the Industrial, where agriculture and labor stood shoulder to shoulder in development of the country. He referred to the School of Technology and the Ontario Agricultural College, and the excellent work being done by them in educating the people, and in passing gave a word of praise to the Dominion Experimental Farms. In conclusion, he expressed the hope that success would continue to attend the Industrial Exhibition.

Hon. J. W. Longley also briefly spoke, and on behalf of the Province of Nova Scotia conveyed friendly greetings and wishes of continued prosperity to the Province of Ontaric

Exhibition goers cannot fail to be imported by the process of the control of the Christie, Brown & Co. The display extends along about 25 feet of the wall on the west end of the building and stands about 12 feet high. In this exhibit may be seen every conceivable kind of biscuit. Since last year's Exhibition many new biscuits have been manufactured by this energetic local firm, so that now their assortment is perhaps as varied and numerous as any manufactured at the present day.

Hon. Mr. Hardy, in reply, thanked the Mayor and council for the address appreciated it as such. He had been very much interested in the working of the municipal institutions of Toronto as being the largest municipality in the province. He had watched with increased and growing interest the de through which our municipal system is passing, as illustrated in the workings of the Municipal Council of Toronto. He could hardly hope, being in the position, in connection with municipal legislation, always to have views identical with the council, but experience had shown that conference and interviews and discussion, and learning the wishes of the council and the Government, that they had been able on the whole to arrive at conclusions agreeable to all. He looked upon the aldermante body in this respect as one hrough which our municipal system and the last council, and no doubt as the municipal institution becomes riper they would find the council keeping pace with public opinion and with the necessities of the administration of the municipal system, as illustrated by the Toronto Council.

CHANGES IN THE SCHOOLS

Business Transacted in Connection With the Separate Board Last Evening. the Separate Board Last Evening.

The Separate School Board met last night at De La Salle Institute. Vicar-General McCann presided, and the members present were: Rev. Fathers Rohleder, Hand, McEntee, Cruise and Carbery, and Messrs. W. Ray and D. A. Carey.

The report of the Committee on Management and Supplies was adopted. Pupils from rooms 5 and 6 in the De La Salle Institute will be transferred to classrooms in the west building on George-street.

Sundry repairs were recommended by the Sites and Buildings Committee, and its report was carried.

There Will be an Investigation. There Will be an Investigation.

In reference to the recent charges of neglect and carelessness regarding three patients at the General Hospital. Mr. Walter S. Lee, chairman of the Hospital Board, told a World reporter yesterday that as yet the committee of the Trades and Labor Council had not waited upon the bard regarding the Worr case. In this, as well as the other two cases, Mr. Lee says that the charges made are absurd and groundless. Mr. Lee looks upon the trouble in the last two cases as originating with the disciples of Aesculapius, and that a pubble between the advocates of homeopathy and allopathy is the cause of it. The board will rully investigate the matter.

Schools East of the City Limits. The East Toronto Public Schools opened yesterday, with nearly a full attendance. New pupils number some 25. Mr. J. Morrison, formerly of Hamilton, has been placed in charge of the class next to that taught by the principal, and there has been a general shuffle among the other teachers. Miss Grace Milligan has received six months' leave of absence to quaitly for a second-class certificate.

Dr. O'Donnell's Address.

Dr. O'Donnell, in the course of his address upon taking the chair, especially welcomed the delegates from the United States, Canada and Australia, whose presence in the convention proved the unity of the Irish race in Ireland's cause. Referring to the report of the commission on the innancial relations existing between Great Britain and Ireland, he said the report showed how Ireland was being despoiled and revealed enough to reawaken the whole Irish question. Speaking in regard to the disunion of the Nationalist party, Dr. O'Donnell aroused intense enthusiasm on the part of his hearers by declaring that no man, nor any set of mon, ought to place themselves into competition with the cause of Ireland.

with the cause of Ireland.

Father Kyan of Torente.

Mr. Alfred Webb Dublin and Father Ryan of Toronto moved a series of resolutions favoring the fusion of the Irish parties, halling with satisfaction the recent release of Irish political prisoners from British prisons, and declaring that the Irish Land Act could not be accepted as a final settlement of the Irish question.

Mr. Justin McCarthy spoke upon the subject of reunion of the parties, and in the course of his remarks said he believed that the assembling of this convention was the result of a general acceptance of the principle of the rule of the majority. Father O'Callaghan of Boston and Dean Harris of St. Catharines appealed to the convention in favor of party unity.

Mr. P. F. Cronin, the secretaries teacher vively of the United States and Canadian delegations, was handed about among the delegates. The circular, it was claimed, was issued in the name of all the foreign delegates, and protested against the attacks of the Parnellite press. It was stated that the foreigners came over at their expense, that they were absolutely unpledged, and that they were not committed for any opinion in regard to the merits of the defunct factions. On this ground, the circular concluded, the foreign delegates claimed that they had the right of courteous treatment upon the part of every newspaper professing to advocate Home Rule for Ireland. ively of the U
