ONE CENT MORNING PAPER.

THE BATTLE OF GLENCOE. We thought our Canadian volunteers were about to engage in actual, stern warfare, but the chances are they will be disappointed. The expedition to South Africa ooks as if it will be more of a holiday trip than a warlike mission. The Boers in reality are not the awful fighters that imagination pictures them. If yesterday's battle had been a victory for the Boers it would have been accepted as a matter of course. It would not have had much significance. But a victory for the British at this early stage of the war was unexpected. It is full of significance. The Boers

were at their best when they gave battle to the British at Glencoe. The British were at their worst. Henceforth the strength and fighting capacity of the Boers will be a diminishing factor, while that of the British will be on the increase. If the Boers cannot hold their own against the limited number of British troops now in South Africa, how in the world will they be able to face the army corps on its way to the Transvaal? The defeat of the Boers yesterday ought to have a great moral effect upon the future of the war. Another such defeat as that sustained at Glencoe.

The Boers cannot hold their own against the charges are to be pushed vigorously, not only against the original offenders but also against anyone repeating the libelious statements. The move of the Mutual Reserve Fund will commend itself to all honest men and all who are interested in the Association. It is a move that should have been made long ago. Too long have blatant mouths been permitted with impunity to say and write any foul slander against the Association, here were repeated to various New York newspapers, until one was found willing to give them publicity.

Col. E. C. James, an eminent attorney in New York, is acting for the Association, and and the charges are to be pushed vigorously, not only against the original offenders but also against anyone repeating the Association, and and the charges are to be pushed vigorously, not only against the original offenders but also against anyone repeating the Mound and the charges are to be pushed vigorously, not only against the original offenders but also against anyone repeating the Association. the street of th certainly a dubious quantity. At any rate it was not in harmony with the sentiment established that Mr. Tarte did not represent the people of Canada in insisting that Great Britain should bear the expense of the Canadian contingent. What, then, is The Globe complaining of? Mr. Tarte has

> "Please Smile Look Pleasant."

When a woman says "I am racked with pain," the word "racked" recalls the days when they stretched the tender bodies of women on the rack with rope and pulley until the very joints cracked. Fancy an attendant saying to the tortured woman, "Please smile and look

pleasant."
And yet the woman "racked with pain," is expected to smile through her agony and to make home happy. She can't do it. It is against nature. Generally speaking, the racking pains of ill-health such as headache, backache and "bearing down pains" are related to derangements or disorders of the organs distinctly feminine. When this condition is removed the general health is restored. is removed the general health is restored, and with health comes back the smile

Any woman may regain her health at home without offensive questionings or examinations by the use of Dr. Pierce's Favorite Prescription. It cures per-fectly all diseases and derangements peculiar to women. Sick women may consult Dr. Pierce by letter free of charge. Such letters are treated as sacredly confidential.

"I was a great sufferer for four years from displacement and ulceration," writes Mrs. Mary Pickering, of Ollie, Keokuk Co., Jowa. "At the time I began using Dr. Pierce's Favorite Prescription I was not able to sit up in bed. I took eight bottles and got to be a stout woman. Any doubting this can write to me, enclosing a stamp, and I will answer."

HOW LA PRESSE STRIKES BACK

When Charges Are Made That the

French-Canadians Are

Not Loyal.

Montreal, Oct. 20.—(Special.)—La Presse
has a very moderate article to-day regarding the formatives: "We know," says La Presse, "that the Conservatives of the sister province can be depended upon, bat the position of The Toronto News is a strange one. It would make little difference if The News was an isolated sheet, but it is the vand make and the antecedents of that paper are well.

They were treated with undue leniency when they developed enmity to Great Bri tain. The result of Gladstone's too con illatory policy towards the Boers is the should have been taken in hand when the symptoms of hostility to Great Britain were first developed. There should have been no conciliation, no compromising with them. Similarly to-day there should be no ompromising with Mr. Tarte. He mus e given to understand that this is a British country, and that more than negative loyalty is expected of its citizens, especially of those representing the Government.

A MOVE IN THE RIGHT DIRECTION.

The Mutual Reserve Fund Life Associ tion has commenced proceedings against certain former officers and employes for circulating false and libellous charges against the Association. The charges were first made with the New York Insurance Department, and when it was found that the Department ignored them in its exhaustive report upon
