

## JOHN GIBSON GOT THERE!

The Commissioner of Crown Lands Elected by a Big Majority.

Dr. Coughlin Barely Carried His Own Township.

Mount Forest, Oct. 28.—The Liberals of Mount Forest are rejoicing over the splendid victory that has been won in East Wellington. The truth of the old saying that "nothing is so uncertain as a horse race, a cock-fight or an election" has been felt here during the past week, for though the Liberals felt pretty certain of victory, there were many Conservatives who seemed to consider the return of Dr. Coughlin more than a possibility, and their hopes gave an impetus to the party workers. If the riding had been the closest one in the province, neither side could have worked harder than they did, and on this account the Liberals are the more pleased with the victory. The cry that Mr. Gibson was an outsider and an out-cast from Hamilton had no particular effect. In Arthur township, near which Dr. Coughlin resided, the Conservatives counted on a majority of 150 through the use of these and other cries, but were rewarded with only 11.

Mr. Gibson's pleasing personality impressed itself very favorably upon the electors as he went through the riding, and this fact contributed largely to the satisfactory result achieved. East Wellington Liberals are feeling extremely pleased that they have been able, by returning Col. Gibson, to render a service to the party at large, to the government, and to the province. Following are the Associated Press figures:

## THE DREYFUS CASE

Opening of the Inquiry—Speculation as to the Result.

Paris, Oct. 28.—The court of cassation, which is to decide upon the question of reopening the case of Alfred Dreyfus, the prisoner of Devil's Island, who is alleged to have been falsely convicted of selling important military plans to agents of a foreign power, opened at noon yesterday. The hall was very full of people, but there was no demonstration around the palace of justice.

Reporter Bard opened the proceedings by referring to the excitement and scandal caused by the case, even before the appeal for a revision of the trial was lodged. He then reviewed the history of the case from the arrest of Dreyfus. Mr. Bard added that the appeal for revision was decided upon in consequence of the late Lieut.-Col. Henry's confession that he had forged a document in the case, but Bard said this forgery was committed in 1896, and could not be alone regarded as ground for a revision or for an annulment of the judgment rendered in 1894. Nevertheless, M. Bard then said, Lieut.-Col. Henry had committed forgery.

M. Bard concluded with expressing the belief that if the bordereau was the principal factor in the condemnation of Dreyfus on the testimony of experts his condemnation ought to be revoked.

The belief is general that the court of cassation will pronounce neither for revision nor for annulment of the decision in the Dreyfus case, as either course would entail awkward consequences. To avoid these, it is expected the court will decide that, as the affair now presents itself, there has been no treason, and that therefore the condemnation pronounced upon Captain Dreyfus by the court-martial cannot be upheld.

## Coughs That Stick.

You don't seem to be able to throw them off. All the ordinary remedies you've tried don't touch them. The cough remedy for you is Dr. Wood's Norway Pine Syrup. It loosens the phlegm, allays the irritation, heals and soothes the inflamed lung tissue.

Mr. Wm. Ferry, Blenheim, Ont., says: "I can recommend Dr. Wood's Norway Pine Syrup as the very best medicine for coughs and colds, sore throat and weak lungs."

**Dr. Wood's Norway Pine Syrup.**  
Never fails to Cure.

## THE FRENCH CABINET CRISIS

President Faure Calls on Dupuy for Assistance.

Opening of the Dreyfus Case—Paris Press Divided on the Matter.

Paris, Oct. 28.—President Faure, at 9 o'clock last evening, asked M. Dupuy to form a cabinet in succession to the Brisson ministry, which resigned on Tuesday.

It is thought that the new cabinet will be composed as follows: M. Dupuy, premier and minister of the interior; M. de Fréquent, minister of war; M. Constans, minister of justice; M. Delcasse, minister of foreign affairs; M. Ribot, minister of finance; M. Bourgeois, minister of public instruction.

THE WHY.

The Paris correspondent of the Daily News says: The Brisson cabinet was overtaken by a crisis because it failed to protect the army from slander. The real facts are that the ministers, constantly but vainly, urged the slandered staff officers to take proceedings against their slanderers. Gen. Chanvin's resignation was timed to prevent the civil power getting hold of the Dreyfus dossier. It was calculated that if he went out, slamming the door, the government would be beaten by a parliament afraid of having the army and people against it. The coup was fixed for Thursday, but M. de Roule's stinging provoked Chanvin to precipitate the matter. However, the desired object has been accomplished.

M. Brisson was unable during the suspension of the sitting of the chamber on Tuesday to obtain M. Faure's signature for the nomination of a new minister of war. Had he succeeded, the secret dossier would now be before the court of cassation; but M. Lockroy, as an ad interim war minister, cannot take the initiative. The custodians of the dossier can refuse to let him see it.

CABINET-MAKING.

Paris, Oct. 28.—M. Dupuy has secured the support of M. Ribot, Delcasse and Legues, and it is believed he will officially inform President Faure this afternoon that he is prepared to form a cabinet.

LOUIS NAPOLEON HEARD FROM.

London, Oct. 28.—The Rome correspondent of the Times says: I learn that Prince Louis Napoleon, who was supposed to have rejoined his regiment in Russia, is really at Geneva, where he has raised on special security a loan of such dimensions as excludes the hypothesis of its being required for private purposes. Prince Louis has long been the candidate of the Bonapartists for the French throne, in preference to his brother, Prince Victor.

CABLE NOTES.

The Ostend communal council has decided to impose an annual tax of \$100,000 and an additional one of \$20 for each member on all gambling establishments within the city.

With the consent of the Russian Government the estates of the German imperial chancellor, Prince Hohenlohe, in the province of Minsk, Russia, including about 150,000 acres, have been sold for 2,500,000 roubles. A St. Petersburg dispatch says: It is now recognized that the epidemic prevailing at Samarkand is the true plague. The mortality is high.

## IN PALESTINE

Arrival of Emperor William and His Party Escorted by Turks and Arabs.

Jaffa, Palestine, Oct. 28.—The Emperor and Empress of Germany were warmly welcomed on their arrival here yesterday, after a hot and tiring eight-hour drive from Haifa, by the German residents here. Their majesties will proceed today on horseback to the camp at Babel-Wad, and expect to reach Jerusalem on Saturday.

Emperor William and Empress Augusta Victoria, visited Caesarea and the Plain of Sharon on Wednesday. The German imperial party arrived here at 5 o'clock, escorted by a large cavalcade of Arabs and Turkish cavalry. They were accompanied also by the vail of Damascus and the governors of Jaffa and Jerusalem, with large suites. A multitude of natives came a considerable distance to meet them. The German squadron left Haifa simultaneously, and steamed towards Jaffa, in a parallel line with the royal advance by land, which was somewhat slow, owing to the nature of the country.

## MIDDLESEX MATTERS

Dwelling Burned at Glenoe—Wedding at Melbourne.

Glenoe business men are talking up a local board of trade.

On Wednesday afternoon fire started in the dwelling-house of Mr. Arch. McLellan, at the south end of Main street, Glenoe. Miss McLellan was upstairs in the house, and heard a cracking sound in the back kitchen. She came down to investigate, and found the kitchen full of smoke and flame. The heat, in fact, was so great that her hair was scorched before she could again close the door leading into the main part of the house. Running to the front door, she hailed a passer-by, who, with assistance, succeeded after a hard fight in putting out the fire. The floor and doors and windows of the kitchen were badly burned and the fire was rapidly making its way into the main dwelling. The wind, it appears, had blown a coal out of the stove into the wood-box, thus causing the fire.

A quiet wedding took place at the manse, Melbourne, on Tuesday afternoon. The contracting parties were Mr. Wm. J. Richards, merchant, and Miss Jennie E. daughter of John Campbell, all of Middlemiss. The happy couple will reside permanently at Middlemiss. They have the best wishes of a large circle of friends.

Fire has visited Lewis for the third time two weeks. C. Thiboutet was the owner of an extensive carriage factory on Fraser street, which was burned Wednesday. Loss, \$12,000; insurance \$3,500.

The remaining building at W. H. Tighe's evaporating factory at Chatham was burned on Wednesday, and was an industry employing 225 hands, is now only a heap of ashes. Total loss, \$12,000. Partial insurance.

## KITCHENER THE CONQUEROR

Greeted by Enthusiastic Crowds in England.

Frantically Cheered at Dover and Lionized in London.

Dover, England, Oct. 28.—Gen. Lord Kitchener, of Khartoum, arrived at Dover yesterday afternoon from Paris, and was frantically cheered by the enthusiastic crowds of people assembled to welcome him home. He was met at the landing-place by Major-General Sir William Francis Butler, the military commander of this district, and by the mayor, corporation and local functionaries. Later Gen. Kitchener was presented with an address of congratulation.

IN LONDON.

Gen. Kitchener arrived here last evening and was greeted by the commander-in-chief of the British forces, Gen. Lord Wolseley, and other high military officers.

The Grenadiers formed a guard of honor at the railroad station, and Gen. Kitchener received an ovation from the enormous throngs of people assembled to welcome him back from Egypt. The scene of enthusiasm was almost unprecedented. The crowds at the Victoria station of the London, Chatham and Dover Railroad was so dense that the police were unable to cope with them. The barriers and the police cordon were carried away together, and the multitude surged into the reserved portion of the station. As the sidar issued from the royal waiting room expecting to step into his carriage, he found himself confronted with an impenetrable mass, cheering, gesticulating and shouting "Bravo, Herbert! God bless you, my boy!" and "cheers for the 'Avenger of Gordon!'" and kindred cries. His face beamed with pleasure at the popular greeting. The police had to save him forcibly from the attentions of enthusiastic guardsmen, who desired to carry him on their shoulders through the throng. All attempts to clear a passage were futile. The sidar was forced to retire, and was finally smuggled out of the station through a distant corner of the building.

## CURRENT NEWS

A ministerial crisis seems imminent in Spain.

The storm on the lakes did \$1,500 damage to Chicago's lake front.

Col. Wm. J. Bryan continues quite ill of remittent fever at Savannah, Ga.

William Burt, an Ernestown farmer, was dragged by his runaway team and killed.

Ottawa Irish-Canadians will present the Governor-General and Lady Aberdeen with an address.

Mr. John R. Barber, the Reform member-elect for Halton, who carried the riding by a large majority, was unseated yesterday.

About 400 women will join in the Macabees this Friday afternoon at Detroit. Mrs. Frances E. Burns, grand commander, will officiate.

Clara Barton writes the president suggesting that if the government intends caring for the suffering in Cuba, the Red Cross people retire.

Jacob Heimer, a Kingston hotelkeeper, was shot in the face with a revolver by a masked man, who attacked him while he was looking up.

Small Pill. Small Dose. Small Price.

ed No. 1, Carlton House Terrace, London, for his daughter, Lady Curzon, of Kedleston, vicereine of India, for \$200,000. The locality is one of the most exclusive in London.

Nathaniel Childs, press agent of the "Way Down East Company," died Wednesday in a Philadelphia hospital. He had swallowed 45 grains of morphine, after which he shot himself in the head. Despondency.

Gregory Higgins, aged 16; Wm. Freeman, aged 17, and D. Daniel, aged 17, all living in the west end, Toronto, pleaded guilty to incendiarism. They only excuse was that they wanted to see the reels come out. Higgins was sent to the Penitentiary reformatory for three years; Freeman and Daniel were sent to penitentiary for five years each.

Mr. Burke, Canadian commercial agent in Jamaica, reports to the Dominion department of trade and commerce that the trade of the West Indian colony has been greatly benefited by the American-Spanish war. Since the suspension of hostilities the Jamaicans have been able to sell large quantities of general produce to Cuba.

## CORUNDUM IN ONTARIO

Paper Read at Buffalo by Mr. Archibald Blue.

Steps to Develop Deposits—The Value of the Metal.

Following is a summary of the paper on "Corundum in Ontario," read by Mr. Archibald Blue, director of the Provincial Bureau of Mines, at the meeting of the American Institute of Mining Engineers, held in Buffalo:

Just 100 years ago in a paper read before the Royal Society of London, and published in its transactions, Rt. Hon. Charles Greville established and named the mineral species corundum, and we have it on the authority of Prof. Judd in an appendix to Greville's paper the Count de Bournon correctly defined the crystallographic characters of the species. The names of its gem stone varieties, sapphire, ruby, topaz, emerald and amethyst, had been in use from a much earlier time.

In the western part of Asia Minor, and in some islands of the Grecian Archipelago, the crystalline limestone is interbedded with the schists and gneisses carries a blue corundum mixed with magnetite, which is the emery of commerce. The corundum occurs in smaller quantities as a constituent of granite and gneiss in Siberia, Australia and elsewhere in Europe; in a compact felspar rock in Piedmont; in dolomite with tourmaline at St. Gothard; and in crystalline limestone along with numerous other minerals in Orange county, New York, and Sussex county, New Jersey.

In Burma, which became a British province in 1886, ruby mines have been worked for a very long period. There the country rock is chiefly gneiss, with bands of crystalline limestone of varying thickness and many miles in length. The explorations of Barrington Brown appear to have satisfactorily established that in Burma the only rock in which rubies are found is place is crystalline limestone. Among other minerals found in the corundiferous limestone are pyrrhotite, hematite, apatite, graphite and spinel. In Ceylon, in the peninsula of India, and in the Red Cross people retire.

Clara Barton writes the president suggesting that if the government intends caring for the suffering in Cuba, the Red Cross people retire.

Jacob Heimer, a Kingston hotelkeeper, was shot in the face with a revolver by a masked man, who attacked him while he was looking up.

A cable received at Montreal states that Dr. Ireland, who disappeared some time ago, is not on the passenger list of the Scotsman.

the best authority that the mineral had been found to exist in Canada in any quantity, and that it was valuable as an abrasive material on account of its great hardness.

RECENT INVESTIGATIONS.

During the last two seasons Prof. W. G. Miller, of the Kingston School of Mining, has been employed by the Ontario Government to make a special report on the field. Last year he traced the corundum-bearing rocks from Carleton through Raglan and Lyndoch, to the shores of Clear Lake, near the eastern line of Sebastopol, a length of about 30 miles. This year Prof. Miller has proven the syenite band to run continuously through a length of about 75 miles, from the township of Glamorgan, in Haliburton, to the township of Sebastopol in Renfrew, besides tracing it to a considerably greater width over the region exposed last year. Corundum was found at a number of places in the western part of the belt, and a large and apparently rich deposit in a ridge of nepheline syenite near the middle of it in the township of Duganannon. The total area of the band is about 300 square miles, and as it lies in a free grant district, it is safe to say that the crown hold for disposal the minerals in at least 90 per cent of the length of the band.

Corundum has also been found in the township of Melhuish, in Peterborough county. The last week of September, Mr. Miller said, he had spent with Prof. Miller in going over the more northerly band from its eastern end to the village of Bancroft, on the Hastings road, on the line between Duganannon and Paraday. Only a few of the principal properties were visited, including the Block location in Brudenell, the Robillard location in Raglan, the Armstrong location in Carlow, and a recent discovery in Duganannon, not far from the York River. All these are large, easy of access, and favorably situated for mining.

Makers of aluminum assert that because of the presence of iron and other impurities, corundum is unsuited for the production of that metal. But Mr. Blue contended, it is safer to keep on open mind on problems of this nature. The processes of manufacture have already been so much improved that the price of aluminum has been reduced within 40 years from its weight in gold to 30 cents per pound or less, and one ought not therefore to assume that it is impossible to find a method of producing pure corundum at low cost, if not a process to make aluminum out of an impure ore. It will certainly add greatly to the value of the corundum deposits of Ontario if they can be used in producing aluminum as well as the material for abrasives. None of the discoveries made in Ontario encourage the hope that the gem varieties are to be found, though it is not impossible that further search for these in the crystalline limestones may be rewarded with success.

TO DEVELOP DEPOSITS.

In view of the extent and apparent richness of the corundum fields in the province, the government has taken steps aimed at developing the deposits and establishing a home industry. Regulations have been drawn up under which the mineral rights in lands lying within the two corundiferous belts have been withdrawn from sale or lease, and hereafter the mineral and mining rights in such lands can be acquired only under the leasehold system, the rental for the first year being 60 cents, and for subsequent years 15 cents per acre. Instead of allowing speculators to take up and hold lands with a view to sell out their interests to miners and capitalists at a large profit, it is proposed that the advantage of acquiring lands

upon the lowest terms shall go to the miner and manufacturer direct; and in the case of parties who will undertake to conduct mining and treating operations on the largest and complete scale, and who can furnish satisfactory assurance that they possess the requisite capital for the proposed operations—including separation of the ore from its gangue, milling for abrasive uses, manufacture of abrasive goods, and the production of aluminum—the government may concede a preference in the selection of mineral lands.

The Foundation of Health.

Medical journals endorse and physicians prescribe Abbe's Effervescent Salt. The daily use of this standard English preparation will keep you in good health. All druggists, at 90 cents a large bottle. Trial size, 25 cents.

New Zealand has 22 establishments for freezing meat for European markets. They can handle 4,000 sheep a year.

To Cure a Cold in One Day: Take Laxative Bromo-Quinine Tablets. All druggists refund the money if it fails to cure. 25 cents.

Capital, Capital, buys the rail and cars, but it takes Labor to keep the wheels moving, and the Fly Cigar to give pleasure and comfort to all.
