Chicago Cattle.

J. P. Bickell & Co. say at the close:

Wheat—Irregular, featureless market closing unchanged. Firm cables reflecting light Argentine offerings, and good demand for spot wheat. Receipts are light and cash demand fair. We call your attention to the fact that the market is still in a state of uncertainty. Buy and sell with care.

Wheat—There were excellent reasons in the news received for the strength with which the market closed, and none at all outside of chronic bearishness of the local crowd for the opening weakness. The most striking point in the situation as developed during the session was the effect the small receipts are beginning to have on domestic users of grain. The news should continue to be favorable for the owners of wheat, and we advise purchases on all breaks.

Ennis & Stoppard wired to J. L. Mitchell:

Wheat had rather a sharp break early, selling off nearly a cent, but recovered the loss in the late trading and closed unchanged. The bull leaders came to the support of the market and the decline was stopped. News of the day was favorable to the bulls.

Wheat had rather a fairly good demand by cash houses, with commission houses taking a fair amount.

Oats ruled strong on good demand by several large traders.

J. R. Heintz & Co. wired R. B. Holden as follows:

Wheat—The general news is rather bullish from our point of view, and we see nothing in the situation to change our views.

Corn—We believe that May should be bought on all soft spots.

Oats—This market was influenced some by the light receipts.
