Few Foreign Born Jail-Birds Have Been in the Country Longer.

Most instructive is the report just issued by S. A. Armstrong, provincial inspector of prisons and public charities for the year 1908. One of the most interesting sections is that devoted to the statistics of deortation. That the government au-

thorities are not sleeping in this matter is borne out by the fact that the number of persons deported has risen from 19 in 1906 to 263 in 1908.

sia, 1.8; and other countries, 8.0.

Of the foreign-born committals to jails during 1908, 35 per cent. came from England, 18.1 from Ireland, 13.4 from Scotland, 15.4 from the United States, 3.9 from Italy, 1.3 from Norway and Sweden, 4.4 from Russia, and 8.5 from other countries. In the central prison the percentages are England, 33.2; Ireland, 12.4; Scotland, 10.0; United States, 21.2; Italy, 7.3; Norway and Sweden, 1.9; Russia, 4.3; and other

ountries, 9.7.
Objection has been taken before to the statistics as unfavorable to for-eign countries, it being claimed that many of the foreign-born included had een in Canada for the greater part of their lives. This theory is disposed of by a chart which shows that 89.64 per ent. in the central prison and 70.68. in the gaols had been in the country

Buying was by shorts, commission houses on scale orders, and against downward indemnities, and a rally of %c took place.
