More About Our Annual Mid-Winter Sale

The time to buy a piano or an organ at a saving worth while, is at our Annual Mid-Winter Sale. Included are Pianos and Organs that are slightly used, new, manufacturers' samples, and some that are new, but have been left off this season's catalogue.

Every Piano or Organ is worthy and dependable, else it would not be here included, in this sale.

This is why our Annual Mid-Winter Sales grow larger and greater each year, why people wait for them, and it is one of the reasons why new friends for these houses are yearly made throughout the Province.

If you intend buying either a piano or an organ this year, it is really worth your while buying it here and now, for a better opportunity will not present itself to you.

Do not fail to write or call for full particulars.

The W. H. Johnson Co., Ltd.

7 Market Square, St. John
Also Halifax, Sydney and New Glasgow

WENT INSANE WHILE AT SEA
A Fisherman Bites His Own Thumb Off While Mentally Deranged.
ATLANTIC CITY, N. J., March 2.—Going suddenly insane while twenty miles at sea yesterday in a fishing schooner, Edward Anderson, one of the sailors became vicious in his desperation bit off his own thumb. He also attempted to throw other members of the crew overboard. Anderson was overpowered and tied with ropes to the floor in the cabin. With superhuman strength he got one arm free and bit off his thumb.
His shrieks of pain terrified the other sailors. When the schooner was docked, Anderson was taken charge by the police officials and placed in a padded cell.

PLEASANT VISIT TO FAIRVILLE A. O. H.
Members of Division No. 1, A. O. H., and of the Ladies' Auxiliary, paid a visit to No. 5 Division in Rose's Hall, Milford, last evening and some hours were very pleasantly spent. About 250 in all assembled with William Terry presiding.
There were speeches by Wm. L. Williams, county president; John C. Ferguson, president of No. 1; the president and treasurer of the ladies' auxiliary, songs by Miss Lottie McKinnon, Charles McKinnon and Kitty Butler, club auxiliary, songs by T. Gleason, step dancing by Humphrey Brothers and a sketch by Messrs. Toole and Murphy.
The committee in charge was composed of Richard Kane, Charles McKinnon, John

KITCHENER'S BORDER WAR HAS ENDED IN VICTORY

British Soldiers Punished Rebellious Tribesmen in India in Short Order.

CALCUTTA, March 2.—The British expedition under Major General Sir James Willcocks, which has been engaged in the Bazar Valley in punishing the Zakkahlehs, powerful tribe of Afridis, has come to an end. The troops have vacated the Bazar Valley and are expected to reach Peshawar soon. More than a hundred high tribesmen petitioned the British government to spare the Zakkahlehs, promising to punish the offenders in the recent raids, because of which the government sent out its punitive expedition.

The tribesmen already have suffered severely for in a remarkably short campaign they have been scattered and broken up so their force have been destroyed and many of them have been killed. They have now made the fullest submission and General Willcocks has accepted the terms on behalf of the government.

Lord Kitchener's frontier war in the Bazar Valley against the Zakkahlehs tribesmen made rapid progress. The British force under Major General Willcocks entered the Zakkahlehs country early in February and at once became engaged in fighting with the tribesmen. The expedition numbered about 9,000 English and native troops, with an additional brigade in reserve. The Afridis are one of the most warlike tribes of the northern part of India, but so determined was the advance of the British that they were unable to withstand it. General Willcocks employed up to date methods and advanced his troops into the enemy's country in open order. In this way the British were able to do great damage to the tribesmen and to escape at all times anything like severe losses.

Recent despatches from the frontier said that the rebellious natives were likely to yield at any time, because of their heavy casualties, the overwhelming force of the British and the refusal of other tribes to join the uprising, which discouraged the rank and file. Less than a week after the expedition was sent out it succeeded in surprising the Zakkahlehs and sending them to their strongest position near Wala, and since then it has severely punished the insurgents.

CONCILIATION BOARD MEETS
Consideration of the Dispute at Glace Bay Mines Commenced This Morning.
GLACE BAY, March 2.—(Special)—The conciliation board held its sessions at 10:45 today. Prof. Alfred Short, is chairman, J. Dix, Fraser, company representative and Dr. A. S. Kendall, men's representative. John Moffat, grand secretary and S. B. McNeil, grand master P. W. A. and Sylvanus Nicholson are following the case for the men. Superintendent Charles Fergie and District Superintendent Christensen and McKenzie are for the Dominion Coal Co. The meetings are practically private as the press are not allowed the privilege of reporting the proceedings. This afternoon the board will visit Collierie two and a half miles themselves with underground conditions at first hand.

HE SHOT HIMSELF THROUGH THE HEAD
Fatal Ending to a Quarrel Between Two Young Men at Dedham, Mass.
DEDHAM, Mass., March 2.—Chasing a boy named John Crossen with whom he had quarrelled and at whom he had fired several shots from a revolver while both were on the ice of the Charles River, yesterday, Raffale Calibre, aged 22 years, fell into the water of the river and immediately after fired a shot into his own head, dying almost instantly. It is believed the man thought he was going to drown, although the water where he fell in was but two or three feet deep.

Crossen, who is 17 years old, and Calibre, who lived at 13 Eastern ave., and was employed in the car shops at Dedham, had a quarrel on the ice over the sale of a bicycle recently. During the quarrel it is claimed Crossen struck Calibre with a stick on Calibre's face after the boy and pursued him for some 100 yards on the ice. Crossen was shot and Calibre drew a revolver and fired several shots at the fleeing boy. In his pursuit the Italian failed to notice a dangerous place in the ice, despite the shouts of skaters and he broke through and went into the water up to his waist. Almost at the same time Calibre was seen to draw his revolver again, point it at his own head and fire.

ELECTIONS IN FREDERICTON
C. Fred Chestnut is Elected Mayor by Acclamation.
Fredericton, March 2.—C. Fred Chestnut is now mayor of Fredericton, having been elected to that office today by acclamation. He is one of Fredericton's most public-spirited citizens and has had sufficient experience in civic politics to qualify him for the mayoralty. Joseph Walker and W. E. Farrel were elected aldermen for Carleton ward by acclamation. The candidates nominated in other wards are as follows:
Wellington—Ald. Hooper, Ald. Oldham, Ald. Mitchell.
St. Anne—Ald. Everett, A. B. Kitchen, Ald. Kelly.
Queens—Ald. Moore, Ald. Jewett, D. E. Crowe, D. J. Shaw.
Kings—Ald. Dougherty, W. G. Clark, J. J. F. Winslow.

All indications go to show that the council to be chosen next week will be a decided improvement on the present body.
Rev. Dr. R. W. Williams, vicar of Willesley (Eng.), who came out with the emigrants under the auspices of the C. E. S., returned to England in the steamer Lake Manitoba on Saturday. During his visit to the city he delivered a powerful and heart-stirring address to men in the Seamen's Institute on the Degradation of Manhood. It was listened to with rapt attention and will not soon be forgotten by those who heard him. Dr. Williams is fairly well known in England as a mission preacher; he is also a very keen and active member of the A. O. of F. and A. M., holding high grand lodge rank.

THOS. WANAMAKER DEAD
PARIS, March 2.—Thomas B. Wanamaker, of Philadelphia, son of former Postmaster General John Wanamaker, died suddenly at the Hotel Liverpool here today.
Mr. Wanamaker arrived Thursday from Egypt, where he had been on a tour with his mother in search of health.

STEAMER COAMO ASHORE.
NEW YORK, March 2.—The New York and Porto Rico Steamship Co. received a wireless message today announcing that its passenger steamer Coamo is ashore on the coast near New York, but the message did not disclose the exact location. The Coamo was bound from San Juan, Porto Rico, to New York.

AN EATING ULCER.

Ulcers are a skin disease, and are more or less directly occasioned by a bad state of the blood, which produces acrid humors and corrupts the secretions.

No one can expect to have a skin free from disease when the blood is in a disordered condition and the stomach and bowels acting feebly in consequence.

Through its wonderful cleansing, purifying powers on the blood, and its renovating action on the entire system, Burdock Blood Bitters has made thousands of cures of different skin diseases during the past thirty years it has been on the market.

Mrs. Joseph Robinson, Hallerton, Que., writes: "I had an eating ulcer on my ankle. I took two bottles of Burdock Blood Bitters and it worked like a charm, cleaning out all the impurities from my system and improving my appetite. While taking the B.B.B. internally I used it externally to cleanse the sore, and it helped a lot."

CUT HIS THROAT WHEN ARRESTED

John Eastland Committed Suicide Rather Than Face Assault Charge.
NEW YORK, March 2.—John Eastland, an iron worker, killed himself in a saloon in Williamsburg last night by cutting his throat. On Saturday Mrs. Eastland swore out a warrant for her husband's arrest on a charge of assault and a policeman was sent to the saloon, after being informed by Mrs. Eastland that her husband was there. When he told Eastland that he was under arrest the latter said: "If you take me it will be my dead body." He whipped out a razor and running to the rear room in which there were many persons, cut his throat before the policeman could interfere.

FOE OF TREES AND TOURISTS
The Brown Tail Moth a Pest to Be Exterminated—The Work in New England.
Dr. O. L. Howard, chief of the bureau of entomology, told the house committee on agriculture at Washington the other day that the work of exterminating the brown-tail moth insects, which have been extremely successful. In the course of his examination Dr. Howard said the brown-tail moth interfered with the summer tourists.

"Do they attack the tourists?" asked Representative Hawley of Oregon, in a surprised tone.
"They do, really," replied Dr. Howard. "The brown-tail moth has been in the sweat pores and produce an intense irritation, and the summer tourists have not gone to the first resort. In New Hampshire the brown-tail moth is to be found."
As indicating the success of the scientific crusade of extermination, Dr. Howard said: "Those people who went through New England three years ago and went through it again last summer must have been struck with the extraordinary change of affairs as regards the foliage of the trees. In the country about Boston and toward Cape Cod and toward Manchester, the whole country is practically free from these insects, whereas it was a scene of desolation three summers ago. The work has been so effective that it is almost impossible to find the pest while in the country. The appropriation of last year, and other years, have been used to continue the extermination of last year, and let us see whether the parasite importation will not hold the thing practically in check."
The appropriation made last year to prevent the spread of these insects was \$150,000. The secretary of agriculture has asked for the same amount this year. Most of the money appropriated by congress has been used to destroy the caterpillars to clear up the pest. In the time of the caterpillars, the caterpillars were used to clear up the pest. In the time of the caterpillars, the caterpillars were used to clear up the pest. In the time of the caterpillars, the caterpillars were used to clear up the pest.

THOUSANDS VIEWED DEAD PRIEST'S BODY
New Serum Has Been Discovered for the Treatment of Scarlet Fever.
PATERSON, N. J., Mar. 1.—Ten thousand persons today looked upon the face of Rev. Father Leo Heinrichs, O. F. M., at St. Bonaventura's Monastery of which he was for 22 years the pastor. The body of the priest, killed in a fire in a state from noon until 11 o'clock tonight and during the nine hours an unbroken procession of mourners passed the bier. So great was the throng that a detail of fifty police was required to maintain the lines. Notwithstanding a succession of snow, sleet and rain storms, parishioners stood for hours outside the monastery, patiently awaiting their turn. There was no untoward demonstration. Because of failing health, Father Leo was transferred last September to a convent, where, at the annual fall of St. Elizabeth's church last Sunday, he was shot and killed by the alleged anarchist, Alo.

AFRAID OF SENTIMENT
Ontario Bank Directors Ask That Their Case Be Tried Without a Jury.
TORONTO, Ont., Mar. 2.—(Special)—Effort to have the suit of the Ontario Bank against the former directors transferred from the jury to the non-jury court is being made by the defendants, George R. W. Cockburn, R. W. Perry, Richard Harcourt, Rufus Grass, Thomas Wainwright and John Fleet. The affidavit was filed in Osgoode Hall Saturday setting forth that false public sentiment has been aroused in the case and it would be impossible to secure a fair trial by jury.

RISKED HIS LIFE TO SAVE BULLDOG
NEW YORK, March 2.—Robert Walker, twenty years old, a silk worker of Paterson, N. J., risked his life yesterday to save the life of a bulldog. The dog became marooned on an ice floe fifty feet from shore in the Pacific Falls Basin. The animal had been there for 18 hours and was pretty well exhausted.

Walker climbed down the eighty feet of almost sheer drop, tied a rope around the dog and dragged the animal to safety.
A weak Stomach, means weak Stomach nerves, always. And this is also true of the heart and kidneys. It's a pity that sick ones continue to drug the Stomach or stimulate the Heart and Kidneys. The weak nerves, not the organs themselves, need the help. This explains why Dr. Sloop's Restorative has, and is promptly helping so many sick ones. It goes direct to the cause of these diseases. Test this vital truth, and see. Sold by all Drug-gists.

PRESS GALLERY DINNER
OTTAWA, Ont., Mar. 2.—(Special)—The annual dinner of the parliamentary press gallery took place on Saturday evening. Sir Wilfrid Laurier and R. L. Borden and Speaker Sutherland were guests of honor. Among other guests who were present were Hon. Geo. E. Foster, M. P., Mr. E. M. MacDonald, M. P., Mr. Duncan Ross, M. P., Armand Lavigne, M. P., A. A. LeFevre, M. P., and a large number of others. The event passed off very pleasantly, notwithstanding the dead-lock in the house of commons upstairs.

Telephone 887.

HENNER EGG
Shipped from our own henneries in Sussex (daily). Put up in boxes holding 1 dozen.
THE WHITE DAIRY, 38 Sydney St.

THE LOST HOLE.
"Just before things burstled last fall," said the Pittsburgh man, "I was in New York city and I dropped into a downtown office to see a fellow who was advertising a Western silver mine. I had seen the ad in the papers half a dozen times, and the stock of that mine seemed to be just what I was looking for. He gave me a

red-hot welcome and made full explanations. The ore assayed so much to the ton; there were so many tons in sight; the dividends would be so much on the dollar; the stock was being sold at ground-floor prices, but was bound to go over par within the next month. I will give you it looked as good as a hot mine pie on a cold winter's morning."
"And you were fool enough to invest?" was asked.

"I had some loose money at home, and I told him that he would see me again within a week. It didn't look to me like a fool's investment. On the contrary, it was a gold-plated opportunity to make fifty thousand out of ten thousand. It was the panic came on and knocked things sideways. Well, I was in the city again the other day and I went down to see the same man. He sat with his feet cocked up on his desk and was a jonesome-looking object. He remembered me and greeted me with a faint smile.
"How's things, I asked."
"Slow, I'm smoking three-for-fives," "And about that mine?"
"Nothing doing."
"Has the President destroyed public confidence in it?"
"Well, no, I can hardly say that. You see, I had a beautiful state map of Montana and a hole marked on it to represent my mine, and what did the scrub woman do a few weeks ago but take the map down and burn it up. I've sent for another, but it hasn't come."
Until I get it and can find that lost hole again there will be nothing doing in the gold-mines. Please come in another day. Perhaps next week I may be able to remember whereabouts in Texas I've got an oil well, and if so, I'll divide a good thing with you."

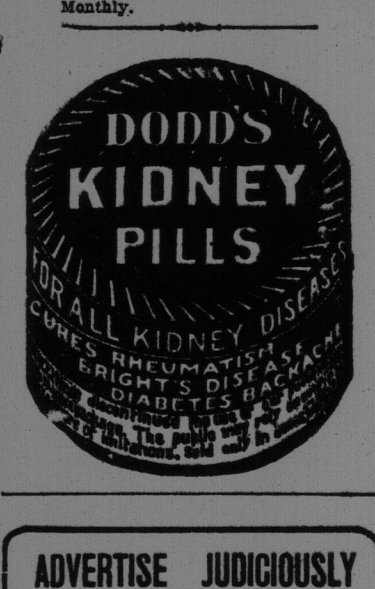

JOE KERR.
Getting to Sleep
If you are troubled with insomnia some of the following ideas are worth trying out, as they are certain to accomplish what seems impossible of achievement, wowing sleep successfully: A warm bath before retiring—not a cold one, for the latter will wake you. Drink a cup of cool, not iced, water, and this will bring good repose. Sleep with your windows open at the top and bottom, be it ever so small a space, so you can just feel a breeze on your face. Put in your bath a little bag containing dried clover tops and lavender flowers, and as the water cools there will be a delightful odor arising from it. It is thus medicated and slightly perfumed and a sure cure for insomnia.

ATTACKS BRITAIN AS UNSCRUPULOUS
ST. PETERSBURG, Feb. 29.—The councillor of the German embassy, wishing to quiet public opinion, made the following statement today to the Novoye Vremya: "I categorically affirm that Germany only knew of Aehrenthal's plan at the same time as Russia. As we are taking no active part in Balkan events, Baron Marshall von Bieberstein personally occupies a preponderant position on the Bosphorus, but it is untrue to say that Germany directs Turkish affairs. Her role is that of the neutral observer, recommending reforms. Russian accusations against Germany are unjust and unfounded but have been cleverly raised and propagated by another and unscrupulous diplomacy. As soon as the storm is over the truth will be known."
The declaration, clearly insinuating that British diplomacy has acted unscrupulously, has produced a great impression on public opinion and is diversely commented upon.

Rent and Poverty

Men connected with charity organizations in the big cities have discovered that there is the closest connection with the raising of a family and the rent paid by the same. In other words, if a family is found applying for help which pays about \$5 or \$6 monthly for rent, at which price only the poorest apartments of very few rooms can be secured, they are found invariably to be shiftless and on a very low plane of living. On the other hand, if they have been paying about \$15 a month they prove to be thrifty and self-respecting and their need of assistance to be due to temporary hard luck.

A SUNNET
A little while before the fall was done a day came when the trail year passed and said:
"Behold a little time and I am dead; With thou not choose of all the old dreams, what?"
Then dwell I in a garden, where the sun shines always, and the roses all are red, Far off the great sea ship, and overland Among the robins matins had begun.
And I knew not at all it was a dream Only, and that the year was near its close; Garden and sunshines, robin-song and rose, The half-heard murmur and the distant gleam.
Of all the sunset sea, a little space Were as a mist above the Autumn's face.—
F. M. Sherman in The University Monthly.

ADVERTISE JUDICIOUSLY
All Good Things Come to Him Who Advertises Judiciously—Your Ad. in "THE TIMES" Shows Sound Business Judgment

COAL FOR THE KITCHEN
A very nice Hard Coal for cooking stoves or ranges is the large size American Chestnut we are now offering.
We can deliver this coal in bulk or in bags, put in the bin. It is thoroughly screened and free from dust and dirt, kindles easily, burns freely and lasts well.
Ask for No. 1 American Chestnut, from GIBBON & CO., Smythe street (near North wharf), and 6-12 Charlotte St. Phone, Main 678. The Charlotte street office is open in the evenings.
