Staggering Cost of Modern War

Britain Paying \$29,000,000 a Day — U. S. Refuses Germany's Peace Proposals — British Troops Make Progress

Andrew Bonar Law, chancellor of the exchequer, announced in the house of commons yesterday that the average daily expenditure of Great Britain is now £5,790,000. He said the total expenditure since the beginning of the war was £4,200,000,000 or \$21,000,000,000. At the end of the current year, he said, the national debt would stand between £3,800,000,000 and £3,900,000,000. Advances to allies and dominions would be approximately £200,000,000. The amount asked for, Mr. Law said, would enable the government to meet expenses until the end of May. On the last vote of credit there had been an unexpended balance of \$70,000,000.

The United States has rejected Germany's offer to discuss differences between the two nations, until the ruthless submarine campaign, now in progress, is stopped.

An official report from the British headquarters in France yesterday told of further progress north of the Ancre, in the neighborhood of the Beaucourt-Paisieux road. The report said that British troops had occupied some 600 yards of hostile trenches, and in addition took a few prisoners. An enemy attack, south of Serre Hill, was repulsed. South of Arras a raiding party blew up a hostile ammunition dump and captured a few prisoners.

Only six steamers were sunk by German submarines in the last two days and the prevailing opinion is that the campaign will be a failure. Four of the British steamers were shelled without warning and, as the men took to their boats, the Huns continued to fire on them recklessly.

Imperial Feature Proves Sensational

A Pictured Temperance Lecture Dramatically Presented by Strong Vitaphone Cast.

Some of the Imperial's many patrons yesterday were of the opinion that the anti-booze story "The Enemy" was a little too strong, but the overwhelming majority went so far as to shower applause upon the Vitaphone Co. for its wonderful lesson. Truly indeed no temperance lecture, or sermon ever voiced from a St. John platform published in this town, has ever struck so staggering a blow to the liquor evil as this moving picture seems to do. It is not the old-time worn argument either, but an up-to-the-minute exposition of truth and human life such as is found in some of the best homes not only in St. John but in all parts of Canada and the United States.

"The Enemy" is whiskey. Charles Kent as Harrison Stewarts, the greatest structural engineer in whiskey's prize industry. Billy Lane, an engineer of the younger generation, is shown towards a drunkard's career, when he stumbles into the old man in a slum barroom. Being of the opinion that the engineering profession, the old man interests the young contractor who takes the home to his house, washes him, clothes him and for months afterwards enjoys his wonderful advice and co-operation in his work. Then the search for the missing wife and daughter of the old man is instituted, a love affair springs up in which Billy is interested. How that fight is waged through business affairs, love affairs and among the most sacred things to the heart of a normal being will fill every watcher with the deepest possible emotion. Tears started in the eyes of hundreds who saw it yesterday. The Vitaphone Company have never presented a more powerful story.

The scenes in Florence, Italy, in the Thève Valley in France and also in the Swiss Alps as well as patriotic pictures in Pathé's British Gazette conclude a programme of moral, educational and inspirational value par excellence. Tomorrow and Thursday that pretty little human doll, Marguerite Clark, will be seen in one of her best efforts, Miss George Washington Jr., the dainty and laughable tale of a bright little busy-body who couldn't tell truth from lies. Dresses will be seen in another of their inimitable comedies entitled "The Count of Ten." There will be magazine pictures as well.

THE VICTIMS OF LA GRIPPE

Every winter la grippe sweeps over Canada like a scourge, leaving behind hundreds of health-wrecked victims. Ask any of those who have been attacked by la grippe what their present condition of health is and most of them will answer: "Since I had the grip I have never been well." This trouble leaves behind a persistent weakness of the limbs, bad digestion, shortness of breath, and palpitation of the heart, caused by the thin-blooded condition in which grippe often leaves its victims after the fever and influenza have subsided. They are at the mercy of relapses and complications, often very serious. This condition will continue until the blood is built up again, and for this purpose nothing can equal a fair treatment of Dr. Williams' Pink Pills. From first to last do these pills make new, rich, red blood, which reaches every organ and every nerve in the body. Thus the lingering germs are driven from the body, and the weak, despondent victims of la grippe are transformed into cheerful, healthy, happy men and women.

Dr. Williams' Pink Pills are sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Major I. P. D. Tilley, provincial director of national service, has resigned. The Best for Soldiers

Lieutenant Colonel F. H. Deacon of Toronto, inspector of supplies for eastern Canada, arrived in the city last night from Halifax. In speaking of the supplies that are being bought, he said that "only the highest quality of food on the market is being purchased for the soldiers now." He is here to enquire into the military accounts and contracts in this city. He is accompanied by Captain Campbell, his staff.

A Fighting Family

Among the soldiers returning on the steamer which arrived here Sunday was Private Judson Bette, son of Mr. and Mrs. J. W. Bette, of Passages, who was wounded in the left arm. His brother, Daniel, returned four months ago after suffering the loss of his arm. Both belonged to the 28th Battalion. Another brother enlisted with the 118th but was forced to retire through illness. A fourth, who resides in Lynn (Mass.), has seen service with the U. S. army in Mexico.

General Lesard

Major General Lesard will visit St. John some time this week. He is inspector general for eastern Canada, and while here will inspect thoroughly the units quartered in this city.
