The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. It thereby destroys the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, O. THE STREET RAILWAY

To the Editor of The Times:

Sir:—Last season you frequently drew attention to the necessity of having the street cars run to East St. John, and double you, in common with the residents of that thriving locality, concluded that the line was built as far as Mt. Pleasant street for the purpose of operating cars thereon and accommodating a very large and daily-increasing number of people who now walk to town rather than use the present bungle system, running the cars where no one lives.

Will you please inform me if there was not an agreement made between the Street Railway Company and a committee of the county council whereby the company were bound to operate the line to Mt. Pleasant street by the 15th of last August?

Is it also true that the company, not on the company if they did not carry out such agreement?

JOHN W. CHURCHILL OF HANTSPORE DEAD

John Wiley Churchill died at his home "The Cedars" Hantsport, N. S., on Saturday. He was a very prominent citizen. He was a son of the late Ears Churchill, one of the pioneers of the shipbuilding industry, building a large number of vessels in the days gone when Hants County's wooden fleet was a valuable asset in the business of Nova Scotia.

When the father died shipbuilding was carried on by the two sons George and John W., under the firm name of E. Churchill and Sons, until the period arrived when wooden shipbuilding could no longer be carried on with profit.

Mr. Churchill was twice married, first to Miss Emily Burgess, of Kingston, who lived only a short time after her marriage, and about forty years ago to Miss Mary Messenger, also of Kingston, who survives her husband. The members of the family are Laura, wife of Dr. W. Rice, of Sydney, Violet, Willey, Fred and Gordon. A brother, George, died eight years ago.

The sisters are Mrs. Schoff, Toronto; Mrs. J. B. Black, Windsor; Mrs. Gordon Reil, and Mrs. John Woolver, Hantsport.

In Time of War Prepare For More War

(Prepared by G. F. HOBART, MANAGER, Hamilton Advertisers' Agency, Limited, Hamilton, Canada.)

WHEN the treaty of peace is signed in Berlin, a new and freed Germany will arise from the ashes. As a business competitor it will be more aggressive than the Germany of the Hohenzollerns.

After the war of 1870 France paid her billion-dollar war indemnity to Germany with a shrug of the shoulders and became one of the great creditor nations of the world. Will Germany do less? Is it not probable that with its enormous and efficient industrial system it will do even better?

Germany must gain its revival from its exports. It must produce for other nations and pay its debts in manufactured products. The "Made in Germany" label is not popular in Canada at the present time. How long will that sentiment last? What is the usual course in analogous cases?

A brutal criminal is not popular. He might be in danger of lynch law were indignant citizens able to lay hands on him. After his trial and conviction, however, our tenderly sympathetic people send comforts and luxuries to his cell and sign petitions for a commutation of his sentence, while the less emotional members of the community simply forget. This kindly human spirit that occasionally is misdirected denotes a tendency that it is well to note.

A favorite trick of some salesmen is to insult a prospective customer and then abjectly ask his pardon. In the fulness of his forgiveness, and to demonstrate that there is no ill-will, the unsuspecting prospect signs the dotted line on the order blank.

"Made in Germany" will not continue to be unpopular. The danger is that it may become too popular; that our sympathy for

the "poor Germans" may affect our better judgment and our sense of justice towards the Canadian manufacturers, who have been ever true and faithful to British interests.

It is well to face frankly the peculiarities of popular sentiment. In fact, it is essential that this should be done by those who depend upon public approval for the sale of their goods. It requires only a slight knowledge of human nature to anticipate the indifference that will follow the present outburst of patriotic fervor.

Now is the time, when imports are discontinued, to get the Canadian people to acquire the habit of asking for Canadian brands; not because they are Canadian, but because the goods are right and the prices fair. Undue emphasis on the Canadian-made feature is apt to be ephemeral in its appeal. The present passionate patriotism is too intense to be abiding; but an acquired habit is more than second nature—it IS nature. On the other hand, when the Empire is no longer in danger we will return to our old thoughtless ways. We will resume our criticisms of the tariff. We will do our best as individuals to buy in the cheapest market and sell in the dearest.

Now is the time to prepare and to give Canadian business an impetus that will carry it through the period of reaction, and overcome the sentimentalism of newly-awakened sympathies. A brand thoroughly established in public esteem on its merits and by its publicity is proof against the ebb and flow of the tide of impulsiveness or the stagnation of indifference.

Now is the time to entrench a business against the possibility of successful assault. Now is the time to prepare for more war, a war of aggressive competition, that will be quite as vital to our commercial interests as is the clash of arms in Europe.
