## BETTER FEELING IN INDUSTRY IS NOTED

Confidence in Coming Heavy  
Demand for Various  
Commodities.

In its summary of the iron, steel, metal and machinery markets, Canadian Machinery and Manufacturing News, Toronto, makes the following comment in its Jan. 10 issue:

While the last week, with the effect of the holiday and year-end activities still in evidence, could not be taken as an indication of the future of business, there is evident in industry a feeling of confidence, and an apparent assurance that the coming weeks will bring a heavy demand for metal commodities of all kinds. This view is to some extent justified by the fact that stocks in the hands of manufacturers are very light. The policy of the last several months has been to hold back buying. It is confidently predicted that the metal working industry will experience a brisk season of activity.

The iron sales of the week were in small lots for quick shipment and at unchanged prices. No. 1 and malleable iron is quoted at \$20.95 at Montreal and \$21.15 at Toronto. Whereas there is an optimistic feeling in the trade, there is nothing sufficiently tangible as yet in evidence to act as a guide to the trend of prices. The iron market is strong, despite the dearth of sales, and a further advance in price is not improbable. The railways have commenced to place contracts for rails, fastenings, etc., and the Dominion Iron and Steel Company has received an order for 15,000 tons of rails from the Canadian National Railway. The order, it is reported, calls for delivery in March, and rolling at the plant will start early this month. No. 8 blast furnace of the Algoma

Steel Corporation was blown in on Friday of last week. With the lighting of No. 4 furnace, there will be three blast furnaces in operation at the plant, No. 2 having been kept running during the slack period. No. 4 furnace, which is now being relined, will be blown in about the middle of February. No. 1 open hearth shop will commence operations immediately, with No. 2 shop following. Rolling will commence on Monday, January 14.

Due in part to the effect of the new sales tax regulations and partly to the stronger tone of the metal markets, many commodities have registered advances in price during the week. The bar base in warehouse, both at Toronto and Montreal, advanced from 15c to 15c Canadian mills found it necessary to alter shafting prices, quoting squares, hexagons and flats on a basis 25c higher than rounds.

## The Theatre of the Home

The stage is set, the performers ready. Your mood this evening calls for the inspiring strains of Verdi. Suddenly you hear Caruso singing "Celeste Aida"—(Heavenly Aida)—clear, sweet, vibrant, real as life itself. For the moment you sit in an orchestra seat at the opera—with all its pomp and pageantry.

Then perhaps you long for the sweet strains of "The Last Rose of Summer"—and as the soft clear notes of Elman's violin sound in your ears, you can all but see him draw his bow across the magic strings.

But whether it be Caruso, or Elman, or the boom of Sousa's band, or the latest happy-go-lucky dance hit—"HIS MASTER'S VOICE" Victrola and "HIS MASTER'S VOICE" VICTOR Records prove their superiority by making you forget the man-made reproduction and remember only the sensation of having living artists and real musical instruments—a few feet beyond the chair in which you sit.

And by virtue of such masterly performance "HIS MASTER'S VOICE" Victrola is the standard by which all instruments are judged. Often this causes many to refer to all instruments as Victrolas but for your own best interests as well as ours, remember there is only one real genuine Victrola—and that bears our famous trade-mark "HIS MASTER'S VOICE" under the lid. Be very careful to see that it is on the instrument you buy.

Genuine "His Master's Voice" Victrolas from \$37.50 to \$615.00

HIS MASTER'S VOICE, LIMITED

Why "HIS MASTER'S VOICE" VICTROLA dominates? The Victrola goose-neck supports the sound box, allowing it full play. It takes the weight of the needle point, making for flexibility and consequently produces a tone of unequalled exactness of tone for which "HIS MASTER'S VOICE" Victrola is pre-eminent; at the same time preserving the record from wear because of the very light weight pressure upon the needle. This is but one of the many features that combine to make "HIS MASTER'S VOICE" Victrola—incomparably best.

Important! Real Seal Records are now double-sided. Two selections for practically the price of one. Complete new catalogue listing all double-sided Real Seal Records now ready. Get your copy. It's free.
