PAID-UP CAPITAL RESERVE FUND ST. JOHN BRANCH-W. H. Lugsdin, Manager

Ten Years Ago If you had begun to save Ten Dollars a month and to deposit that sum regularly with this Corporation, there would now have been at your credit

\$1,437.73 even if you had not in the meantime increased your savings, which doubt-less you would have done. You could very easily have done this, and a balance of more than \$1,400 might have been worth much to you today. It would have enabled you to avail yourself of some of the many oppor-tunities presenting themselves, but for which a little capital is necessary.

Millions of dollars flying across the American Border flying their way, not ours.

Hundreds of thousands of automobiles crossing the Canadian Border—coming our way, not theirs. We have dammed our streams for power, flung bridges over our wide rivers, driven tunnels through our moun-tains, built waterways and railroads.

We can build a Canadian automobile. Everything is with us. We know the roads and the conditions; we do not have to pay duty or exchange; labor costing 40 to 60c. an hour here is costing from 75c. to \$1.25 in Detroit. Right in our own Canada, for less money, we can build a better car than any that can be made abroad.

The history of the automobile industry in the United States during the last 12 years reads like a fairy-story. As company after company has been started, immense fortunes have been built up by men who possessed next to nothing. In Canada, the auto situation is exactly where it was in the States 12 years ago. We have the opportunity to get in on the ground floor. These fortunes are still to be made. The Parker Motor Car Company is being formed now. Write for "MOTOR ROAD TO RICHES."
