THE CHURCH IN FRANCE

Cardinal Vannutelli concluded with a reference to the difficulties of the Roman Catholic church in France, expressing the hope that Canada, the daughter nation to France, should obtain divine clemency for the country which gave to her the breath of life and should see her again restored as before to the religious liberty the life and the faith of her ancestors.

Wrestling.
McDonald Will Accept.
A letter dated September 4 has been received at this office and reads as follows: To the Sporting Editor of the Times: Sir—In a recent issue of your Times there appeared a challenge from W. J. Allan, champion middleweight wrestler of Scotland and Ireland, in which it was stated that he would wrestle anyone in Canada, without any exception to weight, and he mentions Yankee Rogers, Fred Beal and Eugene Tremblay. It would please me, Mr. Editor, to know of his whereabouts, and if he has the necessary qualifications, and if so, I gladly accept his challenge.

I am at present preparing for a western tour, and mention that if Mr. Allan or anyone else should feel inclined to wrestle me they can arrange through the sporting editor of the Times-Star.

I might say that I consider myself as the best middleweight in Canada and the best of the world, and that in the last two years, the most notable ones of my own class.

Yours truly,
DAN M. McDONALD,
Champion.

CARDINAL'S REPLY TO GREETINGS

(Continued from page 1.)

the name of the holy father—a congress of representatives of all the races and all the nationalities, united as members of a single family, of bishops from all quarters of the Orient and Occident, of priests of diverse faiths gathered from every country, of the faithful of every colony as on the day of Pentecost? I cannot less admire the strong, the beautiful unity of which we are here the witnesses, unity of spirit, of the truth, of love in love. On either side of the ocean we catch the same creed.

If you greet with such enthusiasm the legate of the Pope it is because you wish to manifest before the whole world your love your obedience to him at Rome whom you recognize, as do all Catholics as the sole chief, the sole shepherd, the sole father of all souls. Where else can one meet by the force of faith, so much of leadership, such union of souls in love, in convictions and in conduct? This unity, which has shown itself so manifestly at Brussels, at Lourdes, at London and in so many other great cities in Europe, shines out to still greater advantage in this city of Montreal, in this cathedral which strives to reproduce the Basilica of the Vatican.

The secret of this unity, the bond of this union lies in the Sacrament which has brought about this congress—the Eucharist. Grouped around as on one altar, united in the oblation of the same sacrifice, seated at the same banquet, invited to the same banquet, we drink from the same cup, we eat the same bread—the body of Him who in uniting Himself to us unites us all to Him. This mystery is the same in all places and at all times, from the Catacombs of the first century to our congress of the twentieth.

Recreating the history of the foundation of Montreal, when the first act of the colonists was to erect an altar and celebrate mass, Cardinal Vannutelli continued: Was not this a first Eucharistic Congress of Canada and America? It was in any case, under the plans of God, the preparation for the congress of 1910. The missionary who delivered the sermon at that mass foresaw the great congress of today when he said: "What you see is only a little seed, but I have no doubt that from it shall grow a mighty tree." We have before our eyes this mighty tree. We await from this congress great victories for the right. May it be the hope that Canada, the daughter nation to France, should obtain divine clemency for the country which gave to her the breath of life and should see her again restored as before to the religious liberty the life and the faith of her ancestors.

GIRL OF EIGHT TALKS IN TEN LANGUAGES

Winifred Sackville Stoner Beside Being Linguistic Prodigy Has Published Book of Poems

"Cherie" can speak only English, French, Spanish, Latin and Esperanto," said the mother of eight-year-old Winifred Sackville Stoner in San Francisco. "That is, she can speak only those languages fluently, and think in them; but she also can speak Japanese, Russian, German, Polish and Italian fairly well, but she can't think in them."

While Mrs. Stoner was talking, the child who knows almost as many tongues as shattered the Tower of Babel, played about the cozy home at No. 463 Melville street, Palo Alto, talking to her dolls.

"Little 'Cherie' Stoner is William James Sids' only rival in precocity and the sole reason that her name is as great as his is that she is only eight years of age, while he is 12. The girl prodigy will be to Standard university, the child is at Harvard. Not only is the girl a linguist, but she is a poet and has published a book of verses. She is a reader of the classics."

"I began with her when she was three weeks old developing her both mentally and physically and the effect of the teaching and methods is apparent," said Mrs. Stoner. "The method used is the same as was employed in the training of William James Sids, the Boston lad. I started from the first to teach the child the best way to cultivate her taste and to improve her mind. The secret is to make the training play for them."

The father of little "Cherie" is Colonel J. B. Stoner, of the United States Marine Hospital service at present in command of the United States Marine hospital at Port Townsend, Wash. From Port Townsend the mother and child went to Palo Alto in search of a better climate. The mother is a daughter of Lord Sackville West, British ambassador to the United States during one Cleveland administration.

LOCAL FIRM FOR THE GERMAIN STREET PAVING

Considerable business was done at the meeting of the city council yesterday afternoon. Ald. Potts made a determined effort to prevent the adoption of the city engineer's report regarding the Germain street permanent paving in which he recommended that the tender of the Carruths, Patterson Manufacturing Company be accepted. He was unable to do so, however. A motion that Chief Kerr be allowed \$100 towards paying his expenses while attending the annual meeting of the Massachusetts Firemen's Association was passed. Several bond issues were authorized for the extension of the water and sewerage system. The Sand Cove road extension was, however, sent back for further consideration. The mayor announced that a special meeting of the council would be held in a few days to consider the Main street paving report.

In the supplementary report of the board of works the rates to be levied on import and export goods at Sand Point, was referred to. The proposed charges were: Grain, two cents per ton; cattle three cents per head; horses, two cents per head; sheep, one cent per three heads; lumber, two cents per 1,000 superficial feet board measure whether loaded from barge or otherwise; timber, five cents per cubic ton; general goods, fourteen cents per ton. This would mean an increase of one cent per ton on grain and two cents per ton on general goods.

After much discussion, Ald. Baxter moved the adoption, amending the item of grain to one cent instead of two. This was carried.

Chief Kerr was accredited a delegate to the Massachusetts Firemen's Association, and a statement of Ald. Elliot's that the harbor should be put in commission.

The section submitting the report of the engineer on the matter of diverting the sewerage at Marble Cove was sent back. Ald. Likely said that the estimated cost of the work was \$8,000, and was merely the convenience of a few fishermen.

In the Bills and By-laws report, the section recommending that the hackney car cases, by-law be amended, was referred back and the report adopted.

On recommendation of the City Engineer, the tender of the Carruths-Patterson Company of \$12,545 for the Germain street pavement was accepted.

Mayor Fink announced that he would call the board together again in a few days to deal with the report of the paving committee; also at this meeting, the report by the city engineer against the petition of the residents of Main street asking for a granite sidewalk would be considered. The cost of the proposed asphalt car composition, he states, is \$345, the granite, \$2,535.

THE LYTIC

A large crowd found their way to the Lyric theatre in Charlotte street again yesterday and all went away delighted. The two Browns, who won the good graces of all on Monday repeated their success and more than pleased. They appear every afternoon at 8:30 and in the evening at 8:30 and 9:30. The picture programme will undergo a change today and starting tomorrow a great surprise is promised when the Pankleb Trio, a prominent vaudeville aggregation, will be seen in a full stage scenic production with special electrical effects presenting "The Merry Mudman" introducing marvellous clay modelling. This act was booked to appear at the Dominion exhibition as one of the features in the large amusement hall, but could not make necessary railway connections for the opening. The Lyric management secured them for the latter part of the week and it is expected that this act will be the biggest attraction the Lyric has yet offered since its opening, continuous performance starting in the morning and ending at midnight.

THE UNIQUE

For the last few days, the "Unique" Theatre opposite the Dufferin Hotel, has been catering to its patrons and visitors with a programme of pictures and songs—these would be hard to excel. Today's bill is announced as another good one as it embraces four excellent subjects from the world's greatest producers. First there is a splendid adaptation from "Glas. Dickens' well known work "Oliver Twist." Then there is a good Viagraph comedy, "The Man Hater's Club," which is a charming story on the backlot. A picture full of mystery comes next, "Modern Magic," and a pleasing tale will be told in "The Peasant Boy's Love." Mr. Sherman will sing and those who attend are assured of spending a very pleasant hour; continuous performance from ten in the morning till midnight.

THE NEW BIJOU.

The new Bijou has secured the vaudeville team Hunter and Hunter for Thursday, Friday and Saturday of this week. They will appear afternoon and evening in their refined sketch which embraces Highland fling and butterfly dance and lightning crayon cartooning; announced as the best act in St. John this week. The pictures this week are of high class.

AMUSEMENTS FOR OURSELVES AND OTHERS

THE NICKEL.

The Nickel, with its fine programmes and its brand new interior is still the attraction for thousands of visitors. Yesterday the rush was almost as great as on the holiday and today there will be an entire change of pictorial programme. The feature that will doubtless interest the great majority of people will be significant travel views of Life in Brazil. Then two of those inevitable Biograph comedy productions will be shown, When We Were in Our Teens and The Old Old Story with a New Ending. Added to these the western novelty, The Law of the West, will be of a mild-dramatic character. Miss Tennessee Hall will sing her dainty little coon numbers and will delight otherwise with her funny little Southern conversational bits. The orchestra is of course always a feature and the programme will be completed with that king of pictorial ballads, Mr. John W. Myers, "the man who made Edison records famous," in latest and best songs-hits. Don't let your exhibition company leave town without visiting the new Nickel.

THE STAR

The Star Theatre in North End is to the fore with a feature that has made New York and all the big cities take particular notice. It is a Sals film with a lame sort of a title—"Willie"—but contains some of the wildest doings of the wildest out-west cowboy. It is the story of a tenderfoot who more than made his name with the sons of the prairie. Then there is an American drama, "The Prisoner of Love," a Biograph drama, "The Mountaineer's Honor"—one of those gripping stories. Miss Vivian King in costume songs and Harry Newcomb in baritone selections will be the mainstay and there will be good music, both afternoon and evening during exhibition time.

THE GEM

Another of those interesting Indian stories by which the popularity of the Gem theatre, Waterloo street, is easily accounted for, and which have always been attractive features of the programme at this house, will be given for the change of bill today and tomorrow. It is entitled "The Legend of Red Fox," and is a pretty Redman fantasy which makes a very pleasing romance. It is presented by the Kalem company of actors, which, in itself, assures merit.

A big war drama Fenton of the 42nd, vividly portrays scenes of thrilling action on the battle-field and is calculated to give pleasure to those who see it. Hearty laughter is expected to greet the presentation
