Revised every Monday for THE WEEKLY SUN.

THE COUNTRY MARKET. The mest neticeable feature is an increased firmness and slight advance in oreased firmness and slight advance in butter. Meats and poultry are generally without change, except for slight fluctuations from day to day according to supply. Lamb is just a shade lower. Green beans and peas are a little scarce and higher. Eggs also bring a higher price; some extra choice retailed at 25c last week, but that was a contractions over the rare exception-our quetations cover the present range. Native squash, cabbage and tematees are now on the market. The supply of berries during the last week has been smaller than previously. The lew price ruling here for blueberries has net encouraged pickers, and outside markets are very dull.

FISH. An important meeting was held in the effice of James Patterson, South wharf, on Monday, and a new definition of medium ced was settled on. Mr. Patterson was in the chair, and among the firms represented were John Sealy, Andrew Malcolm, Merritt Bros & Ce, Barbour Bres, W M Barlow, McAfee & Leemer, W Frank Hatheway, Baird & Peters, G S deForest & Sons, C M Bestwick & Co, and others. Hitherte medium ced have been defined as these measuring between 14 and 22 inches, but lately most of the se called medium landed have been under 16 inches. The trade decided at yesterday's meeting to raise the inside limit to 16 inches, and running as before to 22 inches. All under 16 inches will be classed as small fish. Regarding the market, large cod are higher. Bay herring are firmer ex-vessel. Smoked fish are lower ex-warehouse. These are about the enly changes. A few dry and smoked and pickled fish centinue to arrive, but not in any large quantity. The catch of shad is very small new. Trade generally is quiet.

New York, Aug 7—Scotland Lightship, off Sandy Hook, was temporarily replaced this morning by the lightship Relief, which was towed out to that point by steamers Gardenia and John Rogers The Scotland Lightship was towed into port for repairs.

New Bedford, Aug 6—Capt Fishback of steamer Island Holme reports the bell buoy in the sound off Quicks Hole still out of order. It is covered with grass, has no buoyancy and does not ring.

Washington, Aug 7—Notice is hereby given by the Lighthouse Board that on July 26, 1894, Light Vessel No 58 was moored in 108 feet of water on Nantucket New South Shoal Station, about twelve nautical miles south-southwesterly of Davis New South Shoal Station, about twelve nautical miles specify of Davis New South Shoal in place of Light Vessel No 54, which was permanently withdrawn on the same date. Light Vessel No. 54, which was permanently withdrawn on the same date.

Light Vessel No. 58 shows two fixed white reflector lights, and is like Light Vessel No. 54, as described in the list of lights and fog signals, excepting that she has a flush deck, a large and smail black smokestack and the fog signal between the masts, and that the number is "58" on each bow.

The fog whistle is a 12-inch steam chime whistle, sounding the same signal that was sounded from Light Vessel No. 54, viz., alternate blasts of two and six seconds' duration, separated by alternate silent intervals of twenty-eight and twenty-four seconds.

If the wnistle be disabled a bell will be struck by hand.

The approximate geographical position of the vessel, as taken from Chart No. 7 of the United States Coast and Geodetic Survey, is lat 40.46.26 N, lon 69.56.22 W.
