Concert Yesterday in Beethoven Hall -Graduates and Prize Lists.

SACKVILLE, N. B., May 30-Ladies' day began with a high wind, not such ideal weather as prevailed Saturday and Sunday. A large number assembled to witness the physical culture irill on the ladies' college lawn at 9 a. ., when about 100 white clad maidens went through various graceful figures to the sound of inspiring nusic. Miss Carver has thrown much nthusiasm into the work and it was enerally voted one of the best drills ever neld here. At 10.30 a recital was given in Beethoven hall with the fol-

THAN SIX DOCTORS COULD DO.

Mrs. Theo. Newell, Argyle Sound, N.S. expresses her opinion of this wonderful blood remedy in the following letter:

"It is with the greatest gratitude that I can testify to the wonderful curative powers of Burdock Blood Bitters. For years my husband suffered terribly with Erysipelas and Salt Rheum. He was so bad at times that he could no sleep on account of the itching and burning. He had been under the care of six different doctors, but they failed to do him any good. I had read different times of the wonderful cures being made by Burdock Blood Bitters, so advised him to give it a trial. He did so, and after taking five Mt. Allison. bottles was cured without a doubt. 1 would strongly advise any person troubled with blood disorders to give B.B.B. a fair trial for I am sure it will cure them."

Rosabell Hallett, Bermuda. The following report was read by Dr. Borden: The attendance during the past year has been 242-152 boarders and 90 day pupils. Of these 187 were taking literary studies, 167 music, 32 art work, and 46 household science. This is a decided advance on the attendance of last year. The health rate has been high, steady application to work shown and a serious religious tone has prevailed-in fact the year has been what the jubilee year should be, the red-letter year in the history of the ladies' college. It would be interesting if we could trace out in all the cities, towns and villages of the maritime provinces the influence exerted by the 3,000 or more young ladies who during these 50 years have been receiving the inspiring education of this grand old college. This is why we urge our patrons to give their daughters as good educational advantages as they can afford to give their sons. This year is notable for the erection of a commodious addition to our school plant. This new building has proved a great boon. It furnishes accommodation for 45 pupils, besides dining room seating 200, and the kitchen and sanitary arrangements are now perfectly satisfactory. The total cost, including furnishings, is \$44,000, while we have obtained as yet but \$15,000 toward paying this sum.

SACKVILLE, N. B., May 31 .- Con vocation day was bright and fine. At 9.30 in Memorial Hall was held the annual meeting of the Theological Union. The lecture by Charles, Stewart, D. D., was a thoroughly spiritual discourse, evidencing high scholarship. At 10.30 a delightful concert by the Conservatory pupils was given in Beethoven Hall, with the following

programme: ..Boellman Song, Come and Keep It.... Florence Porter.

MARITIME COPPER.

Alperson Says He Closed the Mine.

It Owes Him \$6.000 and the Property May Have to

be Sold.

The following is copied from the Moncton Times of the 1st instant: Work at the Vernon copper mine, owned by the Maritime Copper and Reduction Co., at Goose River, St. John county, has been suspended on account of some difficulty with some of the stockholders in reference to the changing of the name of the company. About two years ago the Maritime Copper and Reduction Co. was organized and purchased the Vernon mine so called, and began to develop the property under the direction of Cal. Wm. Alperson, the principal stock-Since the taking over of the holder.

property the work of development has been going on steadily up to the present time and something like \$20,000 has been expended. A tunnel 6 x 7 feet and over 550 feet in length has been constructed, and considerable other work of a development character done. As quite a number of Moncton people are interested in the property, there is naturally considerable interest manifested in the cause of the suspension of work. A Times reported interviewed Col. Alperson yesterday and was given the following verbal statement:

"The mine," said Colonel Alperson, "was closed down last Saturday by me as the principal stockholder and the man who has been putting up the money and doing all the work.

"The work has been carried on honestly, economically and intelligently, and will show for itself. The property (Teer, Wheeler), Doncaster, Llewellyn. I will undertake to get the \$6,000 due me, Oulton, Davidson. Passed: Motyer, and no doubt the mine will have to be Rackham, Marr, McQuaid, A. Smith, sold to get that money. On the other hand, if they come up and sign the consent to transfer the property, work at the mine will be continued and I will keep on furnishing the money to

develop the property. "I have done everything I possibly could to carry this work to a successful issue, and the property has been worked by my own money the last ten or twelve months. Since the original charter we have added to our areas and today the stockholders have twice as much ground, equally as good as the first taken over. This means that the stockholder has twice as much as he originally had. The stock books are now closed pending the annual meeting of the old company." Col. Alperson was in St. John yes-

terday. He said the holders of 54,000 shares out of 500,000 shares in all were endeavoring to hold up the majority and force them to buy them out. The kickers refused to place the property, which is located in St. John county, under the New Brunswick charter. The holders of these 54,000 shares had never contributed a dollar to the operations carried on, while the other owners of stock had done so.

THE ILLUSTRATED LONDON NEWS, of Sept. 26, 1885, says:

"If I were asked which single medicine I should prefer to take abroad with me, as likely to be most generally useful to the exclusion of all others, I should say CHLORO-DYNE. I never travel without it, and its general applicability to the relief of a large number of single ailments forms its best recommendation."
