

A NEWSPAPER CLIPPING WAS THE EVIDENCE

Frank Wallace Must Face Trial On Serious Charge—May Have Been Victimized Himself.

"Forewarned is forearmed" is an old saying, and W. T. Beattie, of the firm of Beattie and Johnson, clothiers, 695 Main street, found it to be a true one yesterday morning.

The first heard of the operations of the man with the raised cheque was on Tuesday when a commercial traveller, while riding in on the I. C. R. train, was reported to have been victimized, he having accepted a cheque for \$60, which was originally \$6.

About 9:30 yesterday morning a stranger walked into the North End store and Mr. Beattie says he knew what was coming from the first.

The cheque bore the signature of P. A. Bellevue, a prominent Moncton merchant, and is now being tampered with very noticeably.

Mr. Beattie yesterday communicated with the police and Deputy Jenkins and Detective Killen located him in the Grand Union Hotel, where he was placed under arrest.

Though Wallace registered from Moncton, he gave to the police his native place as Port Maitland, N. S.

As many as 22 dealers in milk will appear in the police court in a few days, charged with failing to comply with the board of health regulations.

Reports of the Sub-Inspector Have All Been Handed in—Prosecution to Follow.

MEDICAL SOCIETY WILL BE IN ST. JOHN IN NEXT YEAR, TOO

The New Brunswick Medical Society closed its annual meeting yesterday with a final session held at the council chamber of the court house.

The convention has been a particularly successful one. There have been upwards of fifty delegates in attendance and all have expressed themselves as being well satisfied with the results of the meeting.

Although no actual step was taken in the campaign against the spread of tuberculosis, the society reiterated its former stand in the treatment of the disease.

The Morning's Session. At the morning's session, a new business was done, but a highly instructive and very enjoyable programme was carried out, consisting of papers and addresses on current medical topics.

The first number on the programme was an interesting paper on the report of a case of fracture of the base of the skull read by Dr. F. H. Wetmore, of Hampton, in which he dealt with the methods of attending to such cases, and the results likely to accrue from neglecting to administer the proper treatment.

A paper on Psoriasis, by Dr. G. G. Melvin, showed clearly that the speaker was familiar with his subject. He told of the effects of the disease, which included almost all kinds of cutaneous elements, and referred to various cases which had come within his notice while practicing.

One of the best papers yet read was that of Dr. W. B. McVey, on the Actiology of Tuberculosis, in which he referred to the good work already accomplished by the society, which was founded here recently to check the spread of the disease.

The paper was discussed at length by Dr. Thomas Walker, in a very able manner. He dealt also with the home and sanitarium treatment of tuberculosis in New Brunswick.

Dr. Walker also touched on the disinfection of schools, which he said should be different from that of a school and rest where the requisites are essential to the downfall of this terrible disease of tuberculosis.

Dr. Bailey of St. Martins spoke for the first time on what has been said by the last two speakers and deplored the fact that the founding of the tuberculosis preventive society in the county had not been more widely advertised.

HOOF PRINTS. The bell rings at Moosepath today. El Galo (2:16 1-4) will make his start here.

There's a great contingent of Fredericton horsemen in town and Maine also has a large contingent. Spanish Queen (2:06) and the rivals meet today for the first time this season.

THE MUNICIPAL COUNCIL HAD A BUSY SESSION

The \$1,000 Appropriation For Improved Heating Apparatus Was Passed—Other Business.

At the quarterly meeting of the county council held yesterday afternoon it was decided to undertake the necessary repairs to the registry office at a cost not to exceed \$1,000.

The members of the council were all present with the exception of Councilors Codner, Curran and Dean. The report of the Finance Committee was the first matter taken up.

Section one recommended the payment of the quarterly accounts. It was ordered carried. Section two recommended that the matter of improving the registry office as regards heating and other necessary changes be referred to the committee on county buildings.

Section three recommended that the matter of improving the registry office as regards heating and other necessary changes be referred to the committee on county buildings.

Section four reads as follows: "The committee recommend that the resolution passed by this council at the last May meeting, relating to the insurance on county buildings be rescinded, and that no further action be taken at present."

There were several ways for the poor man to provide for the rainy day. He might invest in an insurance policy. There was the post office savings bank, but it possessed one great disadvantage, the money deposited might be withdrawn at the will of the depositor.

AUGUST BELMONT AND SONS ON THE LUCANIA

New York, July 22.—Among the passengers outgoing recently on the steamship Lucania, of the Cunard line, were August Belmont and his two sons, Raymond and Morgan Belmont.

Mr. Belmont refused to deny reports that he was to wed Eleanor Robson, an actress, and simply raised his hands over his head when the question was first point blank at him.

But when he was asked about racing, Mr. Belmont discussed the sport, and said that in his opinion racing is now more popular than ever.

"Even without betting," he said, "racing will always be popular, both in this country and Europe."

GOVERNMENT ANNUITIES ACT EXPLAINED BY DR. SAMSON

Dr. Samson, of Windsor, Ont., who was recently appointed by the Dominion Government to explain to the people of Canada the provisions of the Annuities Act, addressed a large and representative meeting at the Y. M. C. A. hall last night.

The speaker was introduced by His Worship the Mayor, who in a few words emphasized the importance of the subject to be discussed, and urged its thorough consideration.

Dr. Samson stated in opening that the subject was, perhaps, the most important of any that had ever engaged the attention of a St. John audience.

There was not a single man in Canada who was unable to lay away sufficient money to provide for him in his old age, with this fact prominently in view the people of Canada through their representatives at Ottawa had formulated a scheme by which this provision might be made absolutely certain.

It was a simple business proposition, designed wholly for people of moderate means, the people who own the country. Other countries had schemes for the protection of their aged poor. England had a pension system. But it had remained for Canada to hit upon a scheme in the protection of which the future of its poorer inhabitants was secured with out pauperism.

There were several ways for the poor man to provide for the rainy day. He might invest in an insurance policy. There was the post office savings bank, but it possessed one great disadvantage, the money deposited might be withdrawn at the will of the depositor.

SUTTON CASE NOW BECOMES VERY DRAMATIC

Annapolis, Md., July 21.—When the naval board of inquiry, which is investigating the death of Lieut. N. Sutton, of Portland, Oregon, finished its third day's session at the Naval Academy Auditorium, only four witnesses out of fifteen subpoenaed by the Government, had been examined.

Henry E. Davis, chief counsel for the Suttons, has not much more than started his cross-examination of Lieut. Edward S. Willing, now attached to the Marine Barracks at the navy yard in Philadelphia, when the hearing was adjourned for the day.

Willing, who was on duty on the day at the marine camp, and was routed out by Lieutenants Utley and Bevan, when Sutton was running wild in camp with two revolvers prior to the tragedy, as testified by Willing, described the immediate scene of the tragedy, Mr. Davis succeeded in showing discrepancies in Lieut. Willing's testimony at this and the former inquiry.

Mr. Belmont discussed the sport, and said that in his opinion racing is now more popular than ever. "Even without betting," he said, "racing will always be popular, both in this country and Europe."

THE CANADIAN SHOOTERS AT BISLEY RANGES

Special To The Standard. Bisley, Eng., July 21.—Twelve of the Canadians qualified for the second stage of the King's prize, and five others have a chance of getting in.

The Canadian who came into the limelight today was Corporal A. Sprinks, of the 10th Toronto. On Tuesday he put up a score of 200 and 500 yards, and today followed it up with 33 at 600 yards, making his total for the three ranges 103, equal to the Victoria record for the first stage.

Corporal Sprinks is not a member of the team but is here shooting unattached. His member, however, failed to get in, scoring only 95.

Much regret is felt that Capt. Forrest, of Vancouver, Sergt. Richardson, of Victoria, and Sergt. Smith, of Chatham, failed to qualify. Smith scored 94, Richardson 93 and Forrest only 89.

The other match fired today was the Duke of Cambridge, ten shots at 500 yards. In this the Canadians put up a mediocre performance judged by what they did in the MacKinnon long ranges.

The annual sale of "no mark" and mixed logs, raffled by the St. John's Log Driving Company, was held yesterday morning in the Board of Trade rooms.

HARRY BAILEY KENNELS ARE REAL THING

As fine specimens of the real British bull dog as can be found anywhere in America are quartered at the Mohammed Kennels, 178 King street, in the celebration of the 25th anniversary of the Union Club, is a proprietor.

The admiring visitor is shown ten fine pups. A month old from imported Mohammed Reyleite, aggregate, one of the big prizes of the meeting, while Forrest has won more prizes than any other man on the team.
