MILLIONS OF PEOPLE IN AGONY
Physicians Cornered!

I suppose there is not in the whole of the physician's profession, anywhere, a man suffering with such a terrible ailment, as one who is afflicted with a poor, ailing, aching, and feeble blood.

RHEUMATISM!
Heretofore there has been a considerable diversity of opinion among medical men, as to the true character of this disease. Some pointing to the blood, and others to the system, and some to the system, and others to the blood, and further it is not that Rheumatism can never be thoroughly cured without terminating such poisonous matters from the blood, and further it is not that Rheumatism can never be thoroughly cured without terminating such poisonous matters from the blood, and further it is not that Rheumatism can never be thoroughly cured without terminating such poisonous matters from the blood.

DIAMOND RHEUMATIC CURE!
A wonderful medical discovery.

THE EMIGRANT LASSIE.
BY JOHN STUART BLACKIE.
The following lines contain the simple, unadorned, and yet so expressive of a friend, who is fond of wandering in the highland glens.

A lass came wandering down Glen Spean, Where the trees are green and grassy, With her bonnet on her forehead, And a weary-kissed lip.

She had seen her father on her back, Another in her hand, And the mother in her arms, And the father in her hand.

She had seen her father on her back, Another in her hand, And the mother in her arms, And the father in her hand.

She had seen her father on her back, Another in her hand, And the mother in her arms, And the father in her hand.

tion to himself and the public. "For," says he, "it's a terrible thing that a fellow like me should be going about."

He pressed his face against the pane; (It was the Christmas Eve) A noise came on his nose— He wiped it with his nose.

Two Englishmen, Francis and Edward Pooch, who are accompanying Mr. Stanley into Africa, have written home to their parents. If they go on as they have begun, they do not seem likely to starve to death. They write that they have coffee at 4 s. m.; breakfast, 10 s. m.; dinner, 2 s. m.; tea, half past 6. We hope they have a good appetite and digestion!

The characteristics of the Russian type of feminine beauty are said to be an extreme fairness of the complexion, grayish blue eyes, blonde or chestnut hair, and a certain *embossing*, arising from the lack of exercise and the life indoors, which is compelled by a winter lasting seven or eight months.

A NEW THING AND A GOOD THING

THE invention of the paper collar was of positive benefit to the world, for as it is a neat, clean, and most economical article, it is a great improvement on the old-fashioned collar. It is made of paper, and is so made that it will last for a long time. It is so made that it will last for a long time. It is so made that it will last for a long time.
