TAFT TALKS OF ANARCHY

VOL. 5

Tells Roosevelt Cuba is Now in a Fearful Ferment

Failure of Peace Negotiations Indicates That American Intervention is Near at Hand

Havana, Sept. 21.—It is understood here that secretary Taft has sent a gloomy message to president Roosevelt saying that private reports received by him from the interior are to the effect that a state bordering upon anarchy pre vails throughout almost the entire is land, an exception being made of the section on the coast. It is known tha ecretary Taft has decided absolutely not to treat with the armed rebel forces This is taken to mean that American intervention and American occupation must inevitably follow. Intervention, as contemplated, would mean the taking over of the affairs of the entire island pending some final settlement. The arrival today of three of the largest United States battleships and two cruisers, hesides those already here, has had little effect on the insurgents in the field A meeting of the executive committee of the moderate party was hastily sum moned this evening, and it was voted unanimously to accept whatever disposition of the controversy Messrs Taft and on may decide upon, in the hope that such a concession will induce the liberals to yield similarly. The latter, however, have as yet not signified a willingness to accept the decision of the American mediators. The rumor is abroad tonight that president Palma, the members of his cabinet, and the representatives and senators elected last December, will resign tomorrow, thus conceding prac-tically all that the insurgents have been ontending for, and opening a way for the settlement of the difficulty without American intervention. President Palma declined to be interviewed on the subject and other members of the gov-erument stoutly denied the four-Secretary Taft has cabled to president

At the insurgent camp the Associated Press cor-respondent was told that the object of the insurgents in coming so close was to show secretary Taft how completely Havana was in their grasp. Pino Guerra's augmented force is only a short discamp just outside of Mariano, when the fact was called to the attention of secre tary Taft. Mr. Taft was greatly displeased and senator Zavas and Charles Hernande, former postmaster of Hav-ana, were dispatched to met Guerra with the result that the latter turned back In addition to Zaya's party, major Ladu of the United States army visit d Guerra today. KASLO REFUSES THE CUP

OUTCOME OF DISPUTE IN AWARD OF DISTRICT PRIZES

FACTS OF THE CASE AND COPIES OF CORRESPONDENCE

A rather unfortunate dispute has aris en over the awarding of the district prize at the Nelson exhibition. The prize con-sists of the "President's Cup" for "the largest and best display of fruit and vegetables," by districts, and \$100 do nated by the C. P. R. for the best gen eral exhibit of fruit grown in British Columbia, entries to be made by dis-

For the purpose of this competition the directors divided the country up into 8 districts.

Five or six districts competed at the exhibition just closed but the contest was admittedly narrowed down to two prises Ainsworth, Kaslo and points north of Kaslo, in charge of Theodore F. Adams. The second (No. 3) comprises the country on the north shore of the arm of Kootenay lake from Hoover's ranch to Ainsworth, in charge of J. Hys-

lop and A. B. Shannon.

The judge of the contest, R. M. Palmer, after taking considerable time and frouble before arriving at his decision, awarded the president's cup to district No. 2 and the C. P. R. \$100 cash prize to On behalf of district No. 2 Theodore

As the board of directors did not see fit to notify me to attend their meeting or to ask me to produce evidence of the breach of rules of which I complained, I must infer that the other parties pleaded guilty and that there was no dispute as

to facts.
This being so, your board has practically decided that breaches of rules are of no consequence, or that the rules are not to be invoked by exhibitors from

outlying districts.

Under the circumstances, I cannot, in justice to the Kaslo district, accept any part of the award, as by doing so I might appear to acquiesce in the whole. Therefore I beg to notify you that I will not accept the cun awarded me and will not accept the cup awarded me and I hereby notify you that it will, as far as I am concerned, be left where it now stands. Yours respectfully,

THEODORE F. ADAMS.

The directors met last evening and discussed the difficulty raised by Mr. Adams on behalif of district No. 2. It was unanimously decided that the board of directors could take no further action in the matter, than they had already done and the sceretary was instructed to so write Mr. Adams, and in addition to point out to him that, at his own reques the President's Cup had been handed to him and had ben exhibited for two days at the fair as part of district No. 2's

[The dispute that has arisen over the awarding of the president's cup and the P. R. cash prize has occasioned a good deal of discussion and The Daily New considered it would be in the best inter ests of all concerned to secure the pub-lication of a plain statement of the facts the case and of the correspondence that has passed between the representa-tive of district No. 2 and the directors f the exhibition in connection therewith. It is very much to be regretted that this difference should have arisen or it is essential to the continued use ulness of the Nelson exhibition that the best of relations should exist bet een exhibitors in the various districts and the directorate. We believe that no disposition exists on the part of the dirpartially with all exhibitors and we know that that is the desire of every resdent of Nelson. We trust that further consideration of the points at issue will ead to a settlement of the dispute en irely satisfactory to all parties thereto. t would be most unwise to stand much upon ceremony in a case of this kind. Steps should be taken to straighten the matter out, even if recourse had to the intervention of a third party in order that all fair-minded people e convinced of the entire good faith of the directorate. Any doubt on that score, however unreasonable, would score, however unreasonable, would work grave injury to the future usefulthe exhibition.—Ed. The Daily News.]

Decision Reached by the Trades and Labor Congress

New Organization Will be Known as "Canadian Labor Party"-Complete Platform Adopted

Victoria, Sept. 21.—By a vote of 68 to the trades and labor congress this afternoon decided to form a new political party in Canada under the name of the Canadian labor party."

The subject was reported at the morning session and was under debate when recess was taken. On reassembling, the debate was continued and the constitu-tion and plafform of the new party was

finally adopted on the above division.

The first business of importance before today's session of the congress was the matter of the Sheet Metal Workers' trouble at Montreal. The following resolution was passed: "Resolved that this congress heartily endorse the efforts of the Sheet Metal Workers to secure the decision of the privy council in the suit of the Metallic Roofing company against local union No. 30, and the executive be instructed to take the most effective means available to aid the Sheet Metal Workers financially in reaching the

ernor Steunenberg.

A series of resolutions was adopted affirming the attitude of the congress with respect to state aided immigration and Asiatic labor. With respect to Hin-du settlers, the resolution says that, on account of the diseases prevalent among them, these people are "absolutely un-fitted to be allowed into this country, and that by reason of practices obtaining among Hindus as a people they should be altogether excluded from Canada, apart from the fact that their presence among us must necessarily tend to lower the standard of living among the working elements of Canada."

St. Petersburg, Sept. 21.—The suburt St. Petersburg, Sept. 21.—The suburb of St. Petersburg adjoining the Narva gate was shaken today by the explosion of a powerful bomb which was thrown by one of three well dressed men, and which tore an enormous hole in the ground and broke all the windows in the vicinity. There was no loss of life. The bomb throwers disappeared before the arrival of the police. As the bomb was arrival of the police. As the bomb was thrown in an open space from which the throwers had previously warned away all passensby and cab drivers, the event is explainable only on the supposition that the bomb had been intended for use in connection with the terrorist plot which was discovered at Peterhof at the time of general Trepoff's funeral, and that the conspirators, finding that the police were not upon their trail, de-cided to be rid of indiminating evi-dence. Since the first batch of arrests in connection with the Peterhof plot, the police have apprehended a large number of suspects, but no statement concern-ing the nature of the plot has been obtainable. A reactionary journal here to-day prints a story that the terrorists are contemplating the inauguration tomor-row of a campaign of armed attacks on police and army officers in St. Petersburg, such as recently was inaugurated at Warsaw. The story cannot be confirmed. The Jewish new year today pas ed without any events to justify the widely heralded predictions of anti-Jewish excesses at Warsaw, Kiev, Odessa and other Russian cities. Up to midnight there had been no reports received here of anti-Jewish disorders anywhere in Russia. Premier Stolypin sailed today on board the yacht Neva to join emperor Nicholas in the gulf of Fin-and and submit to him reports requiring immediate action. This is taken as an indication that the emperor intends to prolong his cruise for several days.

NELSON'S NEWS OF THE DAY

An exhibitor from Needles complains of the mysterious disappearance of two boxes of apples and plums, shipped to the secretary of the fair and traced from the C.P.R. to the fair grounds, where they were delivered by the West Transfer company. The secretary knows nothing of the boxes in question, and the exhibitor thinks that some change should be made at Neison's next fair of the methods adopted in receiving goods sent in. The commercial value of the goods is not in question, but in this instance the Needles district was just two boxes of fruit short in fis display to say nothing of the time and frouble tax. en in sending the fruit in

INSANITY IN IRELAND.

London, Sept. 21.—A special report of the inspector of functics in Ireland was issued last night in the form of a blue book. It shows that the proportion of the insane to the total population in 1901 was 56.2 per thousand, compared with 15.2 in 1851. The number of patients in public asylums rose from 8667 in 1880 to 13,322 in 1895 and 18,094 in 1903. There was a proportionate increase London, Sept. 21.—A special report of he inspector of functics in Ireland was ssued last night in the form of a blue in the limited of the number of insane outside of asylums, which is believed to be considerable.

ane outside of asylums, which is believed to be considerable.

The inspectors attribute the increase in the ratio of insanity to population partly to the reduction of the latter by emigration of the mentally it and partly to the return to Ireland of emigrants suffering from mental breakdown. Available statistics do not permit of a definite conclusion as to whether there has been an actual increase in insanity, but the inspectors believe that but for the immigration of the strong and healthy the ratio would have been very small.

They declare, however, that the Irish are "peculiarly prone to mental break-down," directing attention to America where they say the proportion of insane among the Irish is greatly in excess of other nationalities and pointing out that in Connecticut it is more than double. Caution is enjoined against the danger of hastily drawing conclusions from returns as to numerical increase, as for example the wide latitude allowed medical opinions as to the degree of insanity justifying confinement or transfer to the institutional care. In conclusion o the institutional care. In conclusio ment of insanity has not hitherto re eived the attention it deserves.

large, fin-loving crowd that the grand stand and overflowed on to the terrace and grounds all the afternoon.

The Smi-Letta troupe's performances, afternoon and evening increased the admiration, already evidenced, of this most afternoon and evening increased the admiration, already evidenced, of this most excellent aggregation of artists in their own particular line. It is some satisfaction to learn from the Chicago management of this and many other like attractions, whose representative favorable an impression has been made of the fair and of the city itself, from an that Nelson has been placed on the company's regular list of cities to be catered to, and that next year the fair directors will be able to obtain, well in advance, a most desirable list of atractions for the exhibition. The Smi-Letta

The evident pleasure evinced by the audience, time and again, must have been some slight recompense for all the time and trouble taken with this excellent feature of this year's program. About 9 O'clock, figures in carnival dress began making their appearance on the grounds and around the stage in front of the grand stand. Later many of the merrymakers were grouped on the stage and introduced to the audience. Then dancing, headed by Tom Procter and his "Braves." began, followed by of the grand stand. Late

ueraders spread all over the main build-ng and thoroughly enjoyed themselves. A word for the steady good work of A word for the steady good work of marshal Waterman, who was ever at his post of duty, and for the excellent per-formances of the city band, who untir-ingly from morn till well into the night, filled the air with the melodious strains of their excellently selected music, all

confetti throwing, and then the mas

of their excelently selected music, all through the fair days.

The directors have decided to send a fine selection of exhibits to compete at the New Westminster fair opening early in October. The exhibit will be sent in eare of J. McPhee and John Hyslop and will compete in the great district com-petition for which the first prize is \$500

petition for which the first prize is \$500 and sir Thomas Dewar's challenge shield, and for which several other cash prizes and medals are offered.

The directors were not prepared to give out the total attendance at this year's fair when closing time came last night but it is admitted to be a long way in advance of last year, and showing a corresponding lunguage of the receptive. a corresponding increase of the receipts, the perfect summer weather enjoyed dur-ing the three days inducing a particu-

larly large local attendance. TO SUCCEED SEDGEWICK Montreal, Sept. 21-An Ottawa despatch the supreme court bench at Ottawa, cause by the death of Mr. Justice Sedgewick.
