NOTICE.
The Business heretofore carried on under the firm of MOORE, INDIAN ROOT PILLS, this philanthropist has spent the greater part of his life in travelling, having visited Europe, Asia, Africa, and North America—has spent three years among the Indians of our Western Country—It was in this way that the Indian Root Pills were first discovered. Dr. Moore was the first man to establish the fact that all diseases arise from IMPURITY OF THE BLOOD—that our strength, health, and life depend upon the vital fluid. When the various passages become clogged, and do not act in perfect harmony with the different functions of the body, the blood loses its action, becomes thick, corrupted and diseased; this causes pain, sickness and distress of every name; our health is deprived of, and if nature is not assisted in throwing off the stagnant humors, the blood will become thick and cease to act, and thus our light of life will forever be blown out. How important, then, that we should keep the passages of the body free and open. And how pleasant to us that we have it in our power to put a stop to this process, namely, by the use of the Indian Root Pills, which are taken up and conveyed into the pores of the skin, and assist nature in throwing off the corrupt matter from the system. The second is a plant which is an Expectant, that opens and unclogs the passage to the lungs by its cathartic and purgative action, and gives ease and double strength to the kidneys; this encourages them to draw large amounts of impurity from the system, and to expel it by the urinary water passage, and which could not have been done by any other means. The fourth is a Cathartic and purgative, which opens the pores of the skin, and assists nature in throwing off the corrupt matter from the system. NOTICE.
The Business heretofore carried on under the firm of MOORE, INDIAN ROOT PILLS, this philanthropist has spent the greater part of his life in travelling, having visited Europe, Asia, Africa, and North America—has spent three years among the Indians of our Western Country—It was in this way that the Indian Root Pills were first discovered. Dr. Moore was the first man to establish the fact that all diseases arise from IMPURITY OF THE BLOOD—that our strength, health, and life depend upon the vital fluid. When the various passages become clogged, and do not act in perfect harmony with the different functions of the body, the blood loses its action, becomes thick, corrupted and diseased; this causes pain, sickness and distress of every name; our health is deprived of, and if nature is not assisted in throwing off the stagnant humors, the blood will become thick and cease to act, and thus our light of life will forever be blown out. How important, then, that we should keep the passages of the body free and open. And how pleasant to us that we have it in our power to put a stop to this process, namely, by the use of the Indian Root Pills, which are taken up and conveyed into the pores of the skin, and assist nature in throwing off the corrupt matter from the system. The second is a plant which is an Expectant, that opens and unclogs the passage to the lungs by its cathartic and purgative action, and gives ease and double strength to the kidneys; this encourages them to draw large amounts of impurity from the system, and to expel it by the urinary water passage, and which could not have been done by any other means. The fourth is a Cathartic and purgative, which opens the pores of the skin, and assists nature in throwing off the corrupt matter from the system. The fifth is a plant which is an Expectant, that opens and unclogs the passage to the lungs by its cathartic and purgative action, and gives ease and double strength to the kidneys; this encourages them to draw large amounts of impurity from the system, and to expel it by the urinary water passage, and which could not have been done by any other means.
