WHERE IS YOUR TREASURE?—Where your treasure is, there will your heart be also.—Matthew 6: 21.

A sufficient commentary on the manners of this age is that when a man is polite you suspect him of having something to sell.

Persons installing radio must pay the government \$1. Is this to pay for the use of the air, or to give someone a job seeing the fee is paid?

Jack Dempsey is to make a tour of eight Canadian cities. He will be able to tell them all about the horrors of the European war, because he visited the cemeteries in France three years after the armistice.—St. Catharines Standard.

A member of his congregation once said to Henry Ward Beecher: "Mr. Beecher, I like your preaching, but you make us laugh." "My dear woman," said Mr. Beecher, "if you saw all the funny things I see from the pulpit, and knew all the funny thoughts that come into my mind, you would think that I practiced great restraint in the pulpit."

Please don't drop paper on the streets. It is surprising to pick up an envelope or a newspaper wrap-

per and find the address of some prominent citizen or business man to whom it was addressed. The thoughtlessness of dropping these on the streets causes untidy streets. The names on the papers are a cunning tell-tale as to the offenders.

An extensive licensing system has just been introduced by the Elmira council for the purpose of protecting local business from itinerant peddlers and to raise revenue. Other small towns are suffering severely from losses to their merchants by all kinds of itinerant peddlers being allowed to come to town and peddle their goods scot free, while local dealers with whom they come directly in competition are forced to pay their share of the highest taxes in the history of the municipality. Surely something can be done to compel peddlers to contribute to the upkeep of the towns they work in.

DON'T

DON'T take any chances with fire in Ontario's forests.

DON'T throw away cigarette or cigar butts, pipe "heels" or burnt matches until you are dead sure they are out.

DON'T neglect to drown out your camp fire thoroughly with lots of water. Stir up the ashes and throw on more water.

DON'T build your camp fire against a rotten log or stump—nor on high exposed windy points; nor near moss patches; nor at the base of a tree.

Build it in a former fire place, if any at hand, or on a flat rock, or on a spot cleared down to the true soil below, preferably by the edge of the water.

DON'T forget that the upper layer of ground in the forest consists of partially rotted wood which holds fire and slowly burns. The only real soil which will not burn is beneath.
