Probably the worst landslide in  
modern times was the fall of the Ross-  
berg in Switzerland. The Rossberg  
made of sand and stone and "conglom-  
erate." The whole thing went suddenly,  
filled a large valley and within a few  
minutes had completely buried three  
villages and 900 people.  
The great scarcity of coal in Italy  
has made it necessary to use wood and  
lignites for fuel in locomotives.

# Canadian Candy and Chocolate

IN recent years, it has been demonstrated  
to the world that in most lines of manu-  
facture the Canadian product is equal to,  
and in many, superior to foreign-made goods.

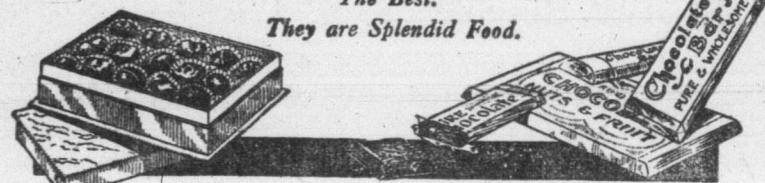

In the manufacture of candy and chocolate,  
Canada is at the top. The Pure Food Laws  
guarantee a wholesome product, while skill  
in manufacture has produced a quality and  
deliciousness unequalled in any country.

Within the last few months a tremendous de-  
mand for Canadian candy and chocolate has  
grown up in England and Europe. The large  
supplies sent to our men overseas during the  
war gave to many Europeans their first oppor-  
tunity of appreciating the high qualities which  
the Canadian product possesses. European  
merchants and candy lovers are now clamor-  
ing for Canadian candies.

There may be some Canadians who do not  
realize that the most wholesome and delicious  
candy and chocolate are made here at home  
—but this is true.

You can eat Canadian-made candy and  
chocolate with assurance of their high quality  
and wholesomeness.
