The Right of Way

In the bowl of the

DE LAVAL CREAM SEPARATOR

❖ No confusion occurs between the cream and skim-milk currents.

❖ There is a guarded channel for each, and yet any dilatory fat particles have full opportunity to join the cream current without disturbance in any way. Each has its full right of way from entrance into, until discharged from the machine. That's why the skimming is so perfect.

The De Laval Separator Co.

VANCO LEAD ARSENATE

Kills Codling Moth and Leaf-eating insects every time

VANCO contains a guaranteed amount of Arsenic Oxide. Simply mix VANCO LEAD ARSENATE with water and you have a spray that is sure death to Codling Moths, Potato Bugs, Cabbage Worms, Asparagus Beetle and all other leaf-eating insects.

Easy to spray—will stand two or three rains without washing off—and **will not burn the foliage.**

Absolutely guaranteed in quality and strength. Made in Canada. Factory near at hand, means low prices and less freight.

Write for free book on spraying.
