

N.  $\frac{1}{2}$  7, Con. 3 —for 1841-2, G. P. 3s. 4d., R. P. 2s. 1d.—total, 5s. 5d.  
 — 7, “ 3— for 1842— G. P. 3s. 4d., R. P. 2s. 1d.—total, 5s. 5d.

In the Book from 1841 to 1849 :

N.  $\frac{1}{2}$  7, Con. 3, 100 ac. for 1841-2, G. P. 11s., R. P. 2s. 1d.—total, 13s. 1d.  
 “ 7, “ 3, “ for 1843-4, G. P. 16s. 8d., R. P. 2s. 1d.—total, 18s. 9d.  
 S.  $\frac{1}{2}$  7, “ 3, “ for 1842-3 & ’44, G. P. 25s., R. P. 3s. 1 $\frac{1}{2}$ d.—total, 28s. 1 $\frac{1}{2}$ d.  
 N.  $\frac{1}{2}$  7, “ 3, “ for 1845-6, G. P. 18s. 9d, R. P. —.—total, 18s. 9d.

and in the Township Cash Account Book,

N.  $\frac{1}{2}$  7, Con. 3, 100 ac. 1841-2, pd. Oct. ’42, M. C. 6s. 5d., G. P. 3s. 4d., R. P. 2s. 1d.—Total, 11s. 10d.  
 N.  $\frac{1}{2}$  7, Con. 3, 100 ac. 1843-4, pd. Aug. ’44, M. C. 13s. 4d., G. P. 3s. 4d., R. P. 2s. 1d.—Total, 18s. 9d.

then the S.  $\frac{1}{2}$  included with the following,

W. $\frac{1}{2}$ 6, Con. 3.	} 700 acres, 1842-43 & ’44, M. C. £3 15s., G. P. — R. P. 21s. 10d.
E. $\frac{1}{2}$ 6, “ “	
S. $\frac{1}{2}$ 7, “ “	
13, “ “	
11, “ “	

The errors in these entries appear to be that the second sum of 5s. 5d. in the Book 1837 to 1845, should be under 1844, for N.  $\frac{1}{2}$ , 1843-4 (not 1843 only), while the Municipal rate is added in the Book 1841 to 1849, but not in the previous one. That in the Book 1841 to 1849, for the years 1841-2, the General Pur. rate should be 10s. — not 11s. — and the total 12s. 1d.—not 13s. 1d; and in the Cash Account the Municipal rate should be 6s. 8d., not 6s. 5d., and the total 12s. 1d., not 11s. 10d., which would make the Books correspond, but the unravelling of such differences (for this is not a solitary instance) require much time and trouble.

In the Book from 1820 to 1827, and in the Township Cash Account Book from 1842 to 1st July, 1848, the date when the rates were received, is frequently entered, and although it does not appear that the rates when in arrear, and subject to the increase of one-third or one-half were always received with the increase; nor yet that they were always received in the years as represented at the head of the columns in which the amount received is entered; nevertheless, as your Commissioners had no other entry indicating the dates of payment for the years from 1831 to 1841, they have presumed, in every instance, that the rates have been received in the year heading the columns in which the amounts are entered, whether the one-third, or one-half increase has been included or not; and that they have been received for the Lot opposite to which they have been entered. And where your Commissioners were at a loss for the number of acres or years paid for, or date of payment, the same are entered in red ink in the accompanying Schedule into which they are all copied after being properly arranged.

The First three Books shew the following amounts as received and entered, viz :
