

PREFACE.

Though the encouragement granted to the **QUEBEC DIRECTORY** last year has not been as good as formerly, yet the proprietor has been induced to issue it again this year, with the full intention, previously expressed, of republication annually, and continuing his labors in the hope that he will eventually have large public support.

The Publisher trusts that allowance will be made for any little errors that may be found arising out of wrong information given in many instances, and which can be detected only with the greatest difficulty and perseverance.

The Publisher in conclusion, would state that he persists in his efforts to make his little work increasingly correct, and hopes that its now established character, will continue to commend it to the discerning public of Quebec.
